New Apprenticeship Standards

Apprenticeships are getting even better! In 2014, as part of its apprenticeship reforms, the government published the first new apprenticeship standards. These have been designed by employers for employers to ensure that apprenticeships are even better placed to support businesses and help them prosper. From September 2017 all apprentices will be starting on one of the new apprenticeship standards. To find out more about the reforms please visit: <https://www.gov.uk/government/collections/apprenticeship-changes> and you can find a list of the apprenticeship standards published so far at <https://www.gov.uk/government/collections/apprenticeship-standards>
