

# Application for an environmental permit Part C1 – Varying a permit – to change to or add a standard facility

**Fill in this part of the form, together with parts A and F1 or F2, if you are applying to vary (change) a standard facility or add a standard facility. Please check that this is the latest version of the form available from our website.**

**You cannot vary the conditions of a standard permit but you can add new standard facilities.**

**If you want to vary (change) the conditions you will change to a bespoke permit and you must fill in part C2 and the relevant parts of C3 to C7.**

**You only need to give us details in this application for the parts of the permit that will be affected (for example, if you are adding a new facility or making changes to existing ones). You do not need to resend any information from your original permit application if it is not affected by your proposed changes.**

**Please read through this form and the guidance notes that came with it.**

The form can be:

1 Saved onto a computer and then filled in. Please note that the form follows a logic that means questions will open or stay closed depending on a previous answer. So you may not be able to enter text in some boxes.

2 Printed off and filled in by hand. Please write clearly in the answer spaces.

It will take less than one hour to fill in this part of the application form.

### Contents

- 1 About the permit
- 2 About your proposed changes
- 3 Standard facilities
- 4 General information
- 5 Your ability as an operator
- 6 How to contact us

Appendix 1 – Low impact installation checklist

Appendix 2 – Waste management plan checklist for standard permit applications for mining waste operations

## 1 About the permit

### 1a Discussions before your application

If you have had discussions with us before your application, provide the permit reference number or details on a separate sheet and tell us below the reference you have given the document.

Permit or document reference number

### 1b Permit number

What is the permit number that this application relates to?

### 1c Site details

What is the name, address and postcode of the site?

Site name

Address

Postcode

## 2 About your proposed changes

### 2a What are your proposed changes?

Are you applying to change your existing permit to a standard permit?

No

Yes

Are you applying to add a standard rules set to your current permit?

No

Yes

## 2 About your proposed changes, continued

If you want to change your existing permit to a standard permit and also add a standard rules set to your existing permit, please give us more detail in a separate document.

Document reference of this separate document

Minor technical

If your proposed change above is to consolidate (combine) a number of permits, now answer question 2b. If not, go to section 3.

### 2b Consolidating (combining) existing permits

Identify all the permits you want to consolidate or combine by listing the permit numbers in Table 1 below.

Note: we may require additional information from you about, for example, your management system. Therefore we would always advise you to talk to us before you submit any application to consolidate permits.

**Table 1 – Permit numbers**

## 3 Standard facilities

### 3a Tick the relevant boxes below to show which standard rules you are applying for

**Table 2 – Sets of standard rules that are available for your permit**

Plain English Campaign’s Crystal Mark does not apply to Table 2.

Standard rule description	Tonnes per annum (tpa)	Standard rule reference (office use only)
Asbestos waste transfer station	Less than 3,650 tpa <input type="checkbox"/>	SR2008No9 3650te
Inert and excavation waste transfer station	Less than 75,000 tpa <input type="checkbox"/>	SR2008No10 75kte
Inert and excavation waste transfer station with treatment	Less than 75,000 tpa <input type="checkbox"/>	SR2008No11 75kte
Non-hazardous sludge biological, chemical and physical treatment site	Less than 75,000 tpa <input type="checkbox"/>	SR2008No19 75kte
Non-hazardous sludge biological, chemical and physical treatment site	Less than 250,000 tpa <input type="checkbox"/>	SR2008No19 250kte
Storage of furnace ready scrap metal for recovery	Less than 75,000 tpa <input type="checkbox"/>	SR2008No22 75kte
Clinical waste and healthcare waste transfer station	Less than 75,000 tpa <input type="checkbox"/>	SR2008No24 75kte
Clinical waste and healthcare waste treatment and transfer station	Less than 75,000 tpa <input type="checkbox"/>	SR2008No25 75kte
Mobile plant for the treatment of waste soils and contaminated material, substances or products	Tonnes per annum does not apply <input type="checkbox"/>	SR2008No27 Rem MP
Low impact Part A installation	Tonnes per annum does not apply <input type="checkbox"/>	SR2009No2
Low impact Part A installation for the production of biodiesel	No more than 2,000 tpa <input type="checkbox"/>	SR2009No3
Combustion of biogas in engines at a sewage treatment works	Tonnes per annum does not apply <input type="checkbox"/>	SR2009No4
Inert and excavation waste transfer station	Less than 250,000 tpa <input type="checkbox"/>	SR2009No5
Inert and excavation waste transfer station with treatment	Less than 250,000 tpa <input type="checkbox"/>	SR2009No6
Storage of furnace ready scrap metal for recovery	Less than 1,000,000 tpa <input type="checkbox"/>	SR2009No7
The management of inert extractive wastes at mines and quarries (and appendix 2; see below)	Tonnes per annum does not apply <input type="checkbox"/>	SR2009No8
Discharge to surface water: cooling water and heat exchangers	Max volume 1,000 cubic metres per day <input type="checkbox"/>	SR2010No2
Discharge to surface water: secondary treated domestic sewage	Max volume between 5 and 20 cubic metres per day <input type="checkbox"/>	SR2010No3

**3 Standard facilities, continued****Table 2 – Sets of standard rules that are available for your permit, continued**

Standard rule description	Tonnes per annum (tpa)	Standard rule reference (office use only)
Mobile plant for land spreading	Spreading of waste for agricultural or ecological benefit. Up to 10 wastes types 50 hectares per deployment <input type="checkbox"/>	SR2010No4
Mobile plant for reclamation, restoration or improvement of land	Spreading of waste to create a soil profile. Up to 10 wastes types per hectare over 50 hectares <input type="checkbox"/>	SR2010No5
Mobile plant for land spreading of sewage sludge	Deployment max 250 tonnes per hectare over 50 hectares <input type="checkbox"/>	SR2010No6
Mobile plant for the treatment of waste to produce soil, soil substitutes and aggregate	Less than 75,000 tonnes per deployment <input type="checkbox"/>	SR2010No11
Treatment of waste to produce soil, soil substitutes and aggregate	Less than 75,000 tonnes per year <input type="checkbox"/>	SR2010No12
Composting biodegradable waste	Open and contained systems. Less than 500 tonnes on site at any one time <input type="checkbox"/>	SR2010No14
Storage of digestate from anaerobic digestion plant	Less than 75,000 tonnes storage at any one time <input type="checkbox"/>	SR2010No17
Storage and treatment of dredgings for recovery	Less than 125,000 cubic metres at any one time <input type="checkbox"/>	SR2010No18
Discharge to land: enzyme treated sheep dip	5 cubic metres per day <input type="checkbox"/>	SR2010No19
Composting biodegradable waste (in open and contained systems)	Open and contained systems. Less than 500 tonnes on site at any one time <input type="checkbox"/>	SR2011 No1_500t
Composting in closed systems – waste operation – capacity of no more than 75 tonnes per day	Limit of 75 tonnes per day <input type="checkbox"/>	SR2012 No3
Composting in closed systems – Part A installation – treatment capacity of more than 75 tonnes per day	Less than 75,000 tonnes <input type="checkbox"/>	SR2012 No4
Composting in open systems – waste operation – capacity of no more than 75 tonnes per day	Limit of 75 tonnes per day <input type="checkbox"/>	SR2012 No7
Composting in open systems – part A installation – treatment capacity of more than 75 tonnes per day	Less than 75,000 tonnes <input type="checkbox"/>	SR2012 No8
Part A installation – on farm anaerobic digestion facility including the use of the resultant biogas	Over 100 tonnes per day and up to 100,000 tonnes per year and 5MW thermal input <input type="checkbox"/>	SR2012 No9
On-farm anaerobic digestion facility using farm wastes only, including use of the resultant biogas. Waste recovery operation – treatment capacity of no more than 100 tonnes of waste per day	Less than 100 tonnes per day <input type="checkbox"/>	SR2012 No10
Part A installation – anaerobic digestion facility including the combustion of the resultant biogas	Over 100 tonnes per day and up to 100,000 tonnes per year and 5MW thermal input <input type="checkbox"/>	SR2012 No11
Waste recovery operation – anaerobic digestion facility including the combustion of the resultant biogas	Less than 100 tonnes per day <input type="checkbox"/>	SR2012 No12
Part A installation – treatment of incinerator bottom ash (IBA) – treatment capacity of more than 75 tonnes per day	Less than 75,000 tonnes per year <input type="checkbox"/>	SR2012 No13

**3 Standard facilities, continued****Table 2 – Sets of standard rules that are available for your permit, continued**

Standard rule description	Tonnes per annum (tpa)	Standard rule reference (office use only)
Storage of electrical insulating oils	Less than 500 tonnes a year <input type="checkbox"/>	SR2012 No15
Small clinical waste treatment unit	Less than 1,000 tonnes a year <input type="checkbox"/>	SR2013 No1
The management of extractive waste, not including a waste facility, generated from onshore oil and gas prospecting activities of drill, core and decommissioning without well stimulation (using oil and/or water based drilling mud)		SR2014 No2
The management of extractive waste, not including a waste facility, generated from onshore oil and gas prospecting activities including drilling, coring, leak-off testing (LOT), acid wash and decommissioning but excluding hydraulic fracturing for the production of oil or gas (using oil and water based drilling mud)	The activities shall be limited to and conform to those described in 'Ref. WMP3' <input type="checkbox"/>	SR2015 No1
Storage and handling of crude oil arising from onshore oil and gas exploration and production activities	Storage capacity limited to 500 tonnes <input type="checkbox"/>	SR2015 No2
Metal recycling and waste electrical and electronic equipment authorised treatment facility excluding ozone-depleting substances	Less than 75,000 tpa <input type="checkbox"/>	SR2015 No3
Household, commercial and industrial waste transfer station	Less than 75,000 tpa <input type="checkbox"/>	SR2015 No4
Household, commercial and industrial waste transfer station (no building)	Less than 5,000 tpa <input type="checkbox"/>	SR2015 No5
Household, commercial and industrial waste transfer station with treatment	Less than 75,000 tpa <input type="checkbox"/>	SR2015 No6
Household, commercial and industrial waste transfer station with treatment (no building)	Less than 5,000 tpa <input type="checkbox"/>	SR2015 No7
Household, commercial and industrial waste transfer station with asbestos storage	Less than 75,000 tpa <input type="checkbox"/>	SR2015 No8
Household, commercial and industrial waste transfer station with asbestos storage (no building)	Less than 5,000 tpa <input type="checkbox"/>	SR2015 No9
Household, commercial and industrial waste transfer station with treatment and asbestos storage	Less than 75,000 tpa <input type="checkbox"/>	SR2015 No10
Household, commercial and industrial waste transfer station with treatment and asbestos storage (no building)	Less than 5,000 tpa <input type="checkbox"/>	SR2015 No11
Non-hazardous mechanical biological (aerobic) treatment (MBT) facility	Less than 75,000 tpa <input type="checkbox"/>	SR2015 No12
Vehicle storage, depollution and dismantling (authorised treatment) facility	Less than 75,000 tpa <input type="checkbox"/>	SR2015 No13 75kte
Metal recycling site	Less than 75,000 tpa <input type="checkbox"/>	SR2015 No14 75kte
Waste electrical and electronic equipment authorised treatment facility (ATF) excluding ozone depleting substances	Less than 75,000 tpa <input type="checkbox"/>	SR2015 No15 75kte
Metal recycling site	Less than 25,000 tonnes per site <input type="checkbox"/>	SR2015 No16
Vehicle storage, depollution and dismantling (authorised treatment) facility	Less than 5,000 tonnes per site <input type="checkbox"/>	SR2015 No17
Metal recycling, vehicle storage, depollution and dismantling (authorised treatment) facility	Less than 25,000 tonnes a year of waste metal and less than 5,000 tonnes a year of waste motor vehicles <input type="checkbox"/>	SR2015 No18
Non-hazardous household waste amenity site	Less than 75,000 tpa <input type="checkbox"/>	SR2015 No19
Non-hazardous and hazardous household waste amenity site	Less than 75,000 tpa <input type="checkbox"/>	SR2015 No20
Materials recycling facility	Less than 75,000 tpa <input type="checkbox"/>	SR2015 No21
Materials recycling facility (no building)	Less than 5,000 tpa <input type="checkbox"/>	SR2015 No22

**3 Standard facilities, continued****Table 2 – Sets of standard rules that are available for your permit, continued**

Standard rule description	Tonnes per annum (tpa)	Standard rule reference (office use only)
Treatment of waste wood for recovery	Less than 5,000 tpa <input type="checkbox"/>	SR2015 No23
Use of waste to manufacture timber and construction products	Less than 75,000 tonnes per year <input type="checkbox"/>	SR2015 No24
Use of waste in a deposit for recovery operation (construction, reclamation, restoration or improvement of land other than by mobile plant)	Maximum volumetric capacity of recovery operation 60,000 m <sup>3</sup> <input type="checkbox"/>	SR2015 No39
Xxx	Xxx <input type="checkbox"/>	Xxx
Xxx	Xxx <input type="checkbox"/>	Xxx

**3b SR 2009No8 Management of inert extractive wastes at mines and quarries**

Tick the box to confirm that you have filled in the waste management plan checklist in appendix 2 if you are applying for a standard permit for a mining waste operation

For mining waste only please tick which of the following applies

Standalone water discharge

Integral water discharge

**SR 2014 No2 The management of extractive waste, not including a waste facility, generated from onshore oil and gas prospecting activities of drill, core and decommissioning without well stimulation (using oil and/or water based drilling mud)**

Please tick the relevant box to indicate which mining waste plan you are using.

Mining waste plan for water-based drilling mud

Mining waste plan for oil- and water-based drilling mud

Please provide an estimate of the total quantity of extractive waste to be generated \_\_\_\_\_ tonnes

**SR2015 No 1 The management of extractive waste, not including a waste facility, generated from onshore oil and gas prospecting activities including drilling, coring, leak-off testing (LOT), acid wash and decommissioning but excluding hydraulic fracturing for the production of oil or gas (using oil and water based drilling mud)**

Please tick the box to indicate that you are using Ref. WMP3 Waste Management Plan

Search on [www.gov.uk/environment-agency](http://www.gov.uk/environment-agency) for 'Ref. WMP3: Waste Management Plan for the management of extractive waste not involving a waste facility, generated from onshore oil and gas prospecting activities of drill, core, leak off well testing, acid wash and decommissioning without well stimulation (using oil and water based drilling mud)'

Please provide an estimate of the total quantity of extractive waste to be generated \_\_\_\_\_ tonnes

**3c SR 2009No4 Combustion of biogas in engines at a sewage treatment works**

Please tick if answer is yes.

3c1 Is the effective stack height more than 3 metres or is the stack height more than 7 metres?

3c2 Do the engine stack gas releases not exceed 500 mg/m<sup>3</sup> for oxides of nitrogen and 1400 mg/m<sup>3</sup> carbon monoxide?

If both boxes are ticked, the distance limit to dwellings of 200 metres no longer applies, for further guidance see the relevant web page.

**3d SR 2015No39 Deposit for recovery (see the guidance notes on part C1)**

3d1 Are you applying for a waste recovery activity involving the permanent deposit on waste on land for construction or land reclamation?

No

Yes

3d2 Have we told you during discussions we have had with you before your application that we believe the activity is waste recovery?

No

Yes

### 3 Standard facilities, continued

3d3 Have there been any changes to your proposal since the discussions?

No

Yes

3d4 Please send us a copy of your waste recovery plan that complies with Regulatory Guidance Note 13. You need to highlight any changes made since any discussions and tell us below the reference you have given the document.

Document reference

### 3e SR 2010Nos 2 or 3 Discharges to surface water (see the guidance notes on part C1)

What date do you want this effluent to start?

Please note that charges will start on this date, even if you have not started to discharge, unless you contact us to change (delay) the start date (see guidance notes on part C1).

Please give name of watercourse

We recommend that you contact us during pre-application discussions to find out if your proposed activity meets the nature conservation risk criteria (see guidance notes on part C1).

Please tick this box if we have confirmed that you can meet the nature conservation risk criteria

### 3f SR 2015Nos 17 and 18 ELV depollution and dismantling operations

You should discuss this with us during your pre-application discussions.

Is the drainage from the impermeable surface where you keep vehicles before they are depolluted or dismantled either discharged to sewer under a consent from the local water company or collected in a blind sump for subsequent disposal?

Yes

No  Go to next question

Is the drainage system for this area designed, constructed and maintained to ensure the discharge does not adversely impact the water quality of the receiving water body (does it include, for example, an appropriately designed, operated and maintained interceptor)?

Yes

No  Go to next question

If you answered 'No' to both questions you cannot comply with the standard rules for this activity and you should contact us to discuss your options.

### 3g SR 2010No16 On-farm anaerobic digestion facility including use of the resultant biogas

Please tick if answer is yes.

3f1 Is the effective stack height more than 3 metres or is the stack height more than 7 metres?

If this box is ticked, the distance limit to dwellings of 200 metres no longer applies, for further guidance see the relevant web page.

### 3h Low impact installations (installations only)

Are any of the regulated facilities low impact installations?

No  Now go to section 4

Yes  Please give us a description of your proposed activity and tell us how you meet the conditions for a low impact installation (see the guidance notes on part C1 – appendix 1)

Document reference for the explanation

Tick the box to confirm you have filled in the low impact installation checklist in appendix 1 for each regulated facility

## 4 General information

### 4a Provide a plan or plans for the site (see the guidance notes on part C1)

Plan document reference or references

### 4b Provide a fire prevention plan if the standard rule set you are applying for requires one (see the guidance notes on part C1)

Document plan reference number

## 5 Your ability as an operator (see the guidance notes on part C1 for what needs to be marked on the plan)

### 5a Relevant offences (installations and waste operations – see the guidance notes)

Have you, or any other relevant person, been convicted of any relevant offence?

No  Now go to question 5b

Yes  Please give details below

Name of the relevant person

Title (Mr, Mrs, Miss and so on) \_\_\_\_\_

First name \_\_\_\_\_

Last name \_\_\_\_\_

Date of birth (DD/MM/YYYY) \_\_\_\_\_

Position at the time of the offence \_\_\_\_\_

Name of the court \_\_\_\_\_

Date of the conviction (DD/MM/YYYY) \_\_\_\_\_

Offence and penalty set \_\_\_\_\_

Date any appeal against the conviction will be heard (DD/MM/YYYY) \_\_\_\_\_

If necessary, use a separate sheet to give us details of other relevant offences (and post conviction plans if relevant) and tell us below the reference number you have given the extra sheet.

Document reference of the extra sheet \_\_\_\_\_

Have you sent us a post conviction plan for this offence?

No  You must send us a post conviction plan with this application and give us the document reference below

Document reference \_\_\_\_\_

Yes  Please give us the reference for the post conviction plan you have sent and the date sent in

Post conviction plan reference \_\_\_\_\_

Date sent in (DD/MM/YYYY) \_\_\_\_\_

Now go to question 5b

### 5b Technical ability (specified waste management activities and waste operations only – see the guidance notes on part C1)

Please tick the scheme you are using to show you have the suitable technical skills and knowledge to manage your facility.

CIWM/WAMITAB

ESA/EU

Please send in a registration letter from your scheme as above

Now go to question 5c

### 5c Finances (installations, waste operations and mining waste operations only – see the guidance notes on part C1)

Please note that if you knowingly or carelessly make a statement that is false or misleading to help you get an environmental permit (for yourself or anyone else), you may be committing an offence under the Environmental Permitting (England and Wales) Regulations 2010.

Do you or any relevant person have current or past bankruptcy or insolvency proceedings against you?

No

Yes  Please give details below, including the required set-up costs (including infrastructure), maintenance and clean up costs for the proposed facility against which a credit check may be assessed.

We may want to contact a credit reference agency for a report about your business's finances.

## **6 How to contact us**

If you need help filling in this form, please contact the person who sent it to you or contact us as shown below.

General enquiries: 03708 506 506 (Monday to Friday, 8am to 6pm)

Textphone: 03702 422 549 (Monday to Friday, 8am to 6pm)

Email: [enquiries@environment-agency.gov.uk](mailto:enquiries@environment-agency.gov.uk)

Website: [www.gov.uk/environment-agency](http://www.gov.uk/environment-agency)

If you are happy with our service, please tell us. It helps us to identify good practice and encourages our staff. If you're not happy with our service, please tell us how we can improve it.

**Please tell us if you need information in a different language or format (for example, in large print) so we can keep in touch with you more easily.**

## Feedback

(You don't have to answer this part of the form, but it will help us improve our forms if you do.)

We want to make our forms easy to fill in and our guidance notes easy to understand. Please use the space below to give us any comments you may have about this form or the guidance notes that came with it.

How long did it take you to fill in this form? \_\_\_\_\_

We will use your feedback to improve our forms and guidance notes, and to tell the Government how regulations could be made simpler.

Would you like a reply to your feedback?

Yes please

No thank you

### For Environment Agency use only

Date received (DD/MM/YYYY)

\_\_\_\_\_

Our reference number

\_\_\_\_\_

Payment received?

No

Yes

Amount received

£ \_\_\_\_\_

**Plain English Campaign's Crystal Mark does not apply to appendices 1 and 2.****Appendix 1 – Low impact installation checklist (see the guidance notes on part C1)**

Installation reference			
Condition	Response		Do you meet this?
A – Management techniques	Provide references to show how your application meets A.		Yes <input type="checkbox"/> No <input type="checkbox"/>
	References		
B – Aqueous waste	Effluent created	m <sup>3</sup> /day	Yes <input type="checkbox"/> No <input type="checkbox"/>
C – Abatement systems	Provide references to show how your application meets C.		Yes <input type="checkbox"/> No <input type="checkbox"/>
	References		
D – Groundwater	Do you plan to release any hazardous substances or non-hazardous pollutants into the ground?	Yes <input type="checkbox"/> No <input type="checkbox"/>	Yes <input type="checkbox"/> No <input type="checkbox"/>
E – Producing waste	Hazardous waste	Tonnes per year	Yes <input type="checkbox"/> No <input type="checkbox"/>
	Non-hazardous waste	Tonnes per year	
F – Using energy	Peak energy consumption	MW	Yes <input type="checkbox"/> No <input type="checkbox"/>
G – Preventing accidents	Do you have appropriate measures to prevent spills and major releases of liquids? (See 'How to comply'.)		Yes <input type="checkbox"/> No <input type="checkbox"/>
	Provide references to show how your application meets G.		
	References		
H – Noise	Provide references to show how your application meets H.		Yes <input type="checkbox"/> No <input type="checkbox"/>
	References		
I – Emissions of polluting substances	Provide references to show how your application meets I.		Yes <input type="checkbox"/> No <input type="checkbox"/>
	References		
J – Odours	Provide references to show how your application meets J.		Yes <input type="checkbox"/> No <input type="checkbox"/>
	References		
K – History of keeping to the regulations	Say here whether you have been involved in any enforcement action as described in Compliance History Appendix 1 explanatory notes.	Yes <input type="checkbox"/> No <input type="checkbox"/>	

## Appendix 2 – Waste management plan checklist for standard permit applications for mining waste operations

### Waste management plan checklist for standard rules SR2009No8 – the management of inert wastes and unpolluted soil resulting from the prospecting, extraction, treatment and storage of mineral resources and the working of quarries, at mines and quarries

Name of operator \_\_\_\_\_  
 Name of site \_\_\_\_\_

Please confirm whether the standard answers apply to you in the Yes/No/NA column.

Questions	Answers
Do you have a waste management plan that you will operate to for the minimisation, treatment, recovery and safe disposal of extractive waste?	Yes <input type="checkbox"/> No <input type="checkbox"/>
Is it available for inspection by the Environment Agency on request?	Yes <input type="checkbox"/> No <input type="checkbox"/>
If the waste will be deposited, or will accumulate in a waste facility, does your waste management plan provide justification that it is not a Category A facility?	Yes <input type="checkbox"/> No <input type="checkbox"/> NA <input type="checkbox"/>
Does your waste management plan characterise the waste in accordance with Annex II of the Directive?	Yes <input type="checkbox"/> No <input type="checkbox"/>
Does your waste management plan confirm that the waste is inert?	Yes <input type="checkbox"/> No <input type="checkbox"/>
Does your waste management plan provide an estimate of the total quantity of extractive waste to be generated during the operational phase?	Yes <input type="checkbox"/> No <input type="checkbox"/>
Does your waste management plan describe the operation generating the waste and any subsequent treatment of the waste?	Yes <input type="checkbox"/> No <input type="checkbox"/>
Does your waste management plan contain a description of how the environment and human health could be adversely affected by the deposit of extractive waste and the preventive measures that you will take in order to minimise the environmental impact during operation and after closure, including any control and monitoring procedures?  Note: the plan should include, but not be limited to, selection of the location of the facility, preventive measures to minimise dust, noise, vibration and the run-off of waste from the activities.	Yes <input type="checkbox"/> No <input type="checkbox"/>
Does your waste management plan contain a proposed plan for the closure of the site?	Yes <input type="checkbox"/> No <input type="checkbox"/>
If you operate a mining waste facility, does your waste management plan contain a survey of the condition of the land to be affected by the waste facility?	Yes <input type="checkbox"/> No <input type="checkbox"/> NA <input type="checkbox"/>

Does the mining waste operation includes one or more inert mining waste facilities?

No

Yes  Provide the number of inert mining waste facilities \_\_\_\_\_

#### Sector category

Tick the correct category below:

- Construction minerals
- Metallic minerals
- Industrial minerals
- Energy minerals
- Other sectors  Please provide details below

### **Explanatory notes to checklist**

- This checklist applies only to standard permit applications.
- The Environment Agency will not need to see the waste management plan as part of the application for a standard permit.
- The waste management plan itself may include material prepared for other purposes, such as planning applications and health and safety legislation.
- You must review your waste management plan at least every five years and, where necessary, amend the plan.
- We will monitor the implementation of the waste management plan as part of our compliance work.
