

Article 10 Application Certificate application form Guidance to Completing form FED 1012

This guidance should be read in conjunction with GN2 (General Guidance Note for Commercial Use)

Please tick the appropriate box for the intended purpose of your application (top right of the form). The options are:

- Certificate of legal acquisition (proof that the specimen was legally taken from the wild)
- Certification for commercial activities (Article 10)
- Certificate of movement for live specimens (Article 9)

Box 1. Applicant (only for specimens of species listed in Annex A)

Please write your name and address in this box (not the details of an agent). This is important, as we may need to contact you. Please also indicate whether you are the Breeder of the specimen/s. Please add your contact phone number and e-mail address if you have one.

Box 2. Authorised location for live specimens Annex A species

State the location at which live wild-taken specimens of Annex A species will be kept. This is only applicable to wild-taken animals (these may have movement restrictions).

Box 3. Issuing Management Authority

This box should already have the pre-printed address of the UK Management Authority.

Box 4. Description of specimens (incl. marks, sex/date of birth for live animals).

The description MUST include a three letter code from List A attached. Also, please complete the following details (where applicable):

- Full description of the item (and circa date for antiques etc).
- Sex of the specimen.
- Live or dead specimen.
- Permanent markings of the specimen, e.g. close ring number or microchip number in the order that they appear, and any phone numbers or other parts of the identification mark which may not be unique, together with any other identifying features. Confirm on the application form that any **rings fitted to birds are closed rings** rather than split rings. Closed rings are continuous bands without any breaks. All rings and other identifying marks fitted to the specimen must be stated on the application form. All rings must have been commercially manufactured.
- Hatch date or date of birth (dd/mm/yy) or approximate age.
- Acquired date: dd/mm/yy.
- Previous Article 10 certificate number of the specimen - *if applicable*.
- Parent ring numbers/markings & A10 numbers - if available.

(Please include information in box 20 if there is not enough room in box 4)

Box 5. Net mass (kg)

Please select the appropriate unit of measurement from list B attached. This only applies to parts and derivatives as described in List A. It does not apply to live specimens.

Box 6. Quantity

Enter the quantity (using the appropriate unit of measurement from List B if applicable).

Box 7. CITES Appendix

Enter the correct CITES Appendix I, II or III, if known. Please do not guess.

Box 8. EC Annex.

Enter the correct EC Annex A, or B, if known. Please do not guess.

Box 9. Source

Enter the appropriate code from List C attached.

Box 10. Country of origin

Enter the country in which the specimen was born/hatched.

Box 11. Permit No

For imported specimens only. Enter the export permit number (the permit with which the export from the country of origin took place).

Box 12. Date of issue

For imported specimens only. Enter the date of issue of the permit referred to in box 12 above.

Box 13. Member State of import

For specimens which were imported into another EU member state. Enter the EU country into which the specimen was first imported.

Box 14. Document No.

Only relevant for specimens imported into another EU member state. Enter the details of the import permit issued by the EU member state referred to above.

Box 15. Date of issue.

Enter the date of issue of the permit referred to in box 14 above

Box 16. Scientific name of species.

Enter the scientific / Latin name of the species (for example Ara macao). Your application cannot be processed without this. You may need to visit your local library or perhaps a veterinary surgeon may be able to assist you.

Box 17. Common name of species.

Enter the common name of the species (for example Scarlet Macaw).

Box 18. I hereby certify that the specimens described above:

Tick all the boxes that apply. Please note that::

- The boxes refer to the **origin of the specimen**. More than one box may apply; Documentary evidence must be provided with the application form (e.g. relevant licences, permits, letters from breeders confirming origin). As the applicant, it is your responsibility to supply all the information required to process your application so you should fill in as much of the information as you can. The application form is a signed legal declaration by you that the information you have given is correct and accurate.

You are also confirming that a previous application for the specimen has not been previously rejected either in the UK or other EU Member State.

Box 19. I request a document for the purpose of:

Tick the box of the purpose that applies to your application.

Box 20. Remarks.

Please refer to any supporting documents and include any additional information or comments, e.g. the specimen was received by way of gift.

Please check that you have provided as much information as possible (provide additional material on a separate sheet if necessary) and include evidence that the specimen was lawfully acquired. and **sign and date the declaration at the foot of the form.**

If returning the form by email insert the phrase "**I (INSERT NAME) am the owner of the email account below and I am also the applicant**". Enter your email address either in the signature box or box 20. **This is to ensure the legality of the electronic 'signature'.**

List A

Codes to be included in the description of specimens and units of measure to be used in permits and certificates

Description	Code	Preferred units	Alternative units	Explanation
Body	BOD	no.	kg	substantially whole dead animals, including fresh or processed fish, stuffed turtles, preserved butterflies, reptiles in alcohol, whole stuffed hunting trophies, etc.
Bone	BON	kg	no.	bones, including jaws
Calipee	CAL	kg		calipee or calipash (turtle cartilage for soup)
Carapace	CAP	no.	kg	raw or unworked whole shells of testudinata species
Carving	CAR	kg		carvings (incl. wood) - there are some species from which more than one type of product may be carved (e.g. horn and bone); where necessary, the description should indicate the type of product (e.g. horn carving)
Claw	CLA	no.	kg	e.g. of Fedae, Ursidae or Crocodylia, but not turtles
Cloth	CLO	m ²	kg	if the cloth is not made entirely from the hair of a CITES species, the weight of the hair of the species concerned should, if possible, be recorded under HA] instead.
coral (raw)	COR	kg		raw or unworked
Culture	CUL	no. of flasks, etc.		cultures of artificially propagated plants
dried plant	DPL	no.		e.g. herbarium specimens

Ear	EAR	no.		usually from elephant
Egg	EGG	no.	kg	whole dead or blown-eggs, including caviar
egg (live)	EGL	no.	kg	usually birds and reptiles but includes fish and invertebrates
Extract	EXT	kg		usually plant extracts
Feather	FEA	kg/wings	no	in the case of objects (e.g. pictures) record the number of wings no. objects
Fibre	FIB	kg	m	e.g. plant fibres but includes strings of tennis rackets
Flower	FLO	kg		e.g. made of treefern fibres
flower pot	FPT	no.		
frogs legs	LEG	kg		
Fruit	FRU	kg		
Foot	FOO	no.		e.g. of elephant, rhino, hippo, lion, crocodile, etc.
Gall	GAL	kg		
gall bladder	GAB	no.	kg	
Garment	GAR	no.		incl. gloves and hats but not shoes; incl. trimming or decoration on garments
graft rootstock	GRS	no.		
Hair	HAI	kg		incl. all animal hair, e.g. of elephant, yak, vicugna, guanaco
Horn	HOR	no.	kg	incl. antlers
Leather product (small)	LPS	no.		small manufactured products of leather, e.g. belts, braces, bicycle saddles, cheque book or credit card holders, earrings, handbags, key fobs, notebooks, purses, tobacco pouches, wallets, watch-straps
Leather product	LPL	no.		e.g. briefcases, furniture, suitcases, travel trunks
Live	LIV	no.		
Leaf	LVS	no.	kg	
Meat	MEA	kg		incl. flesh of fish if not whole, also see "body"
Medicine	MED	kg/l		
Musk	MUS	g		
Oil	OIL	kg	l	e.g. from turtles, seals, whales, fish
piece –bone	BOP	kg		pieces of bone, not manufactured
piece –horn	HOP	kg		pieces of horn, not manufactured, incl. scrap
piece –ivory	IVP	kg		ivory pieces, not manufactured, incl. scrap
Plate	PLA	m ²		plates of fur skins - incl. rugs if made of several skins
Root	ROO	no.	kg	roots, bulbs, corms pr tubers
saw-logs	SAL	no/ m ^{3/kg*}		substantially whole tree trunks use kg only in

				the case of special purpose timbers traded by weight rather than by volume, e.g. <i>Guaiacum spp.</i>)
sawn wood	SAW	m^3/kg^*		tree trunks sawn into unworked planks, beams, blocks, etc. (* use kg only in the case of special purpose timbers traded by weight rather than by volume, e.g. <i>Guaiacum spp.</i>)
Scale	SCA	kg		of e.g. turtle, other reptiles, pangolins, fish
Seed	SEE	kg		
shell eggs	SHE	no.	kg	raw or unworked shell of molluscs or eggshell except whole
Side	SID	no		sides or flanks, does not include Tinga frames
Skeleton	SKE	no.		substantially whole skeletons
Skin	SKI	no.		substantially whole skins, raw or tanned, incl. Tinga frames
skin piece	SKP	no.		incl. scraps, raw or tanned
Skull	SKU	no.		
Soup	SOU	kg	l	e.g. of turtle
Specimen(scientific)	SPE	kg/l/ml		incl. blood, tissue, e.g. kidney, spleen, etc.
Stem	STE	no.	kg	plant stems
Tail	TAI	no.	kg	e.g. of caiman (for leather) or fox (for garment trimming, collars, boas, etc.)
Tooth	TEE	no.	kg	e.g. of whale, lion, hippo, crocodile, etc.
Timber	TIM	m^3	kg	raw timber except saw-logs and sawn wood
Trophy	TRO	no.		all the trophy parts of one animal if they are exported- together: e.g. horns (2), skull, cape, backskin, tail and feet (i.e. ten specimens) constitute one trophy. But if, for example, the skull and horns are the only specimens of an animal that are exported, then these items together should be recorded as one trophy. Otherwise the items should be recorded separately. A whole stuffed body is recorded under BOD. A skin alone is recorded under SKI.
Tusk	TUS	no.	kg	substantially whole tusks, whether or not worked, incl. tusks of elephant, hippo, walrus, narwhal, but not other teeth
Veneer	VEN	m^2	kg	m^2 for sliced veneer,
		m^3	kg	m^3 for rotary veneer
Wax	WAX	kg		incl. Ambergris

List B

Units of measure to be used in description of Net Mass

g = grams

kg = kilograms

l = litres

cm³= cubic centimetres

ml = millilitres

m = metres

m² = square metres

m³ = cubic metres

no. = number of specimens

List C

Codes for the indication in permits and certificates of the source of specimens

- W** Specimens taken from the wild
- R** Specimens of animals reared in a controlled environment, taken as eggs or juveniles from the wild, where they would otherwise have had a very low probability of surviving to adulthood
- D** Annex A animals bred in captivity for commercial purposes in operations included in the Register of the CITES Secretariat, in accordance with Resolution Conf 12.10 (Rev.CoP15) and Annex A plants artificially propagated for commercial purposes in accordance with Chapter XIII of Regulation (EC) No. 865/2006, as well as parts and derivatives thereof **See note below.**
- A** Annex A plants artificially propagated for non-commercial purposes and Annexes B and C plants artificially propagated in accordance with the Commission Regulation, as well as parts and derivatives thereof
- C** Animals bred in captivity in accordance with Chapter XIII of Regulation (EC) No. 865/2006, as well as parts and derivatives thereof **See note below.**
- F** Animals born in captivity, but for which the criteria of the Commission Regulation are not met, as well as parts and derivatives thereof

- I** Confiscated or seized specimens (only to be used in conjunction with another source code)
- O** Pre-Convention (only in conjunction with another source code)
- U** Source unknown (must be justified)
- X** Specimens taken in the marine environment not under the jurisdiction of any State.

Note: It is the applicant's responsibility to ensure that the correct code is given for captive bred and artificially propagated specimens and to decide whether source code C or D is most appropriate.

List D

Codes for the indication in permits and certificates of the purpose of a transaction

- B** Breeding in captivity or artificial propagation
- E** Educational
- G** Botanical gardens
- H** Hunting trophies
- L** Enforcement
- M** Bio-medical research
- N** Reintroduction or introduction into the wild
- P** Personal
- Q** Circuses and travelling exhibitions
- S** Scientific
- T** Commercial
- Z** Zoos

THINGS YOU SHOULD KNOW WHEN MAKING A CITES APPLICATION

Completing the application form

We know the form can be difficult to complete but unfortunately its format is set out in the EU CITES Regulations and cannot be changed.

If you are applying for an import permit you need to acquire a copy of the export permit BEFORE you submit the application. If there is any problem with your application or we need more information a caseofficer will contact you.

Acknowledgement

We will acknowledge receipt of your application by email if you have included your email address on the application form. If you would like an acknowledgement but have no email address, please write "acknowledgement required" at the top of your application form and we will send you a pre-printed postcard.

Consideration

Once we receive your application it will be assigned to a particular case-officer, who are assigned alphabetically, either by your surname or business name. They will log your application onto our system and complete the necessary steps to determine whether the documents can be issued. Applications may be referred to our Scientific Advisors the Joint Nature Conservation Committee

(JNCC) or the Royal Botanical Gardens at Kew, for scientific advice and the more information you are able to supply with your application the quicker it will be processed. It is not part of our role to pursue information or fill in parts of the form on your behalf. If there is not enough information, your application may be returned to you and it is possible it may be refused.

Targets for processing applications

Our targets for processing applications are calculated from the date we receive all the information we need. This may not be the date we receive your application, as we may need to ask you for further information. We aim to process

- 10% of complete applications within 5 working days (1 week)
- 90% of complete applications within 15 working days (3 weeks)
- 100% of complete applications within 30 working days (6 weeks)

Releasing information to agents (etc) (Separate advice for agents can be found below)

We can only release information about an application to the person who has made and signed the application. To avoid delays and any chance of misunderstanding, **you must let us know in writing at the time you make the application** if you:

- are going to be using an agent
- will need us to release information to your spouse or partner
- have authorised some-one else to sign applications on your behalf

We will need to know their name and details of what information you are happy for us to release to them. If we do not have this information in advance we will have to refuse their enquiry, or contact you separately for confirmation.

Fees

Applications cannot be processed unless they are accompanied by the appropriate fee. The schedule of fees can be found on our [website](#). Payments can be submitted by cheque or postal order made payable to "APHA", or you can pay by credit card by calling 01633 631800. Alternatively you can set up a BACS account with us by contacting this office on 0117 372 3700 for further details.

Returning the form and general enquiries

The completed form can be returned by post or emailed to:

Animal and Plant Health Agency
Centre for International Trade -
Bristol Floor 3 Horizon House
Deanery Road
Bristol
BS1 5AH

Phone: 0117 372 3700
Fax: 0208 415 2510
E-mail: wildlife.licensing@apha.gsi.gov.uk
Website:<https://www.gov.uk/cites-imports-and-expo>

If you have any queries about CITES licensing please visit our website above or phone us and we will find the right person to advise you. If you would prefer to email please send your enquiry with as much information as possible.

ADVICE TO AGENTS MAKING AN APPLICATION ON BEHALF OF OTHERS

Making an application on behalf of a UK resident

If you are making an application on behalf of a person or organisation residing in the UK, you must complete the form with the full name and address of the actual (re-)exporter/ importer or holder in box 1 or 3, and not your own. This is a legal requirement, which allows any compliance action to be taken against the owner of the specimen.

Your own name and address details must be included in box 23 of the (re-)export/import application form, or box 20 of the EC Certificate application form.

Each application you submit on behalf of a UK resident must be accompanied by written confirmation of this arrangement, signed by the person on whose behalf you are making the application. This written confirmation must make it clear that the specimen's owner has given you permission to sign the application on their behalf, and for us to release information to you about the application. We will accept photocopies of the original confirmation letter.

Making an application on behalf of a non-UK resident

If you are making an application for an import, export or re-export permit on behalf of a person living outside the UK, you are deemed to be the applicant because applications must be made from a UK address. You must therefore complete the application form with your own details.

You must make it clear where permits and/or certificates are to be sent on the application form, providing a name and address in box 23 of the (re-)export/import application form, or box 20 of the EC Certificate application form.
