The Government's mandate to NHS England for 2017-18

March 2017

The Government's mandate to NHS England for 2017-18

A mandate from the Government to NHS England:
April 2017 to March 2018

Presented to Parliament pursuant to Section 13A(1) of the National Health Service Act 2006

Foreword

The NHS has a unique place at the heart of our society and is – by some distance – the institution that makes us most proud to be British.

It is because of this that the 2017-18 mandate to NHS England goes further than ever before to ensure that we not only deliver the best care and support to today's NHS patients, but also deliver the reform and renewal needed to sustain the NHS for the future.

There is widespread recognition that the NHS has been under sustained pressure for a number of years. Since 2010, the number of people over 80 has risen by 340,000 and life expectancy is up by twelve months. Demand is unprecedented: every day, the NHS undertakes 5,000 more operations, looks after 1,400 more mental health patients and treats 130 more cancer patients than it did just six years ago.

And yet despite these pressures, the NHS approaches its 70th year delivering outstanding care and with record levels of public support. Research shows that we feel safer in NHS hospitals and that patients are treated with more dignity and respect than ever before. The NHS continues to be rated as one of the best health services in the world, with some of the fastest improvements in Europe for stroke care and heart disease prevention and with cancer survival rates at a record high. All of this is testament to the diligence, professionalism and expertise of the NHS's 1.3 million staff, who go above and beyond to deliver outstanding care for patients, each and every day, across the country.

And yet we know that there is more to do, which is why, at the heart of this mandate, is a commitment by the Government to support the NHS's own reform programme. We have backed this with a real terms increase in NHS funding every year of this Parliament, which will transform the service for the years to come.

To drive this transformation, 2017-18 should be the year in which we see concrete progress on local Sustainability and Transformation Plans, with NHS England supporting local leaders to work with their communities to drive real improvements in patient care and outcomes. As part of this effort, the Government has already made £325 million of capital funding available for the best STPs over the next three years. In the autumn a further round of local proposals will be considered.

2017-18 should also be the year when the NHS delivers the productivity and efficiency gains necessary to maintain financial balance by tackling unwarranted variation, reducing waste, bearing down on the exorbitant costs of agency staff and better managing demand. In this way, NHS leaders can ensure that the Government's investment is spent on better care and treatment for patients.

This mandate also makes clear that the NHS must continue to put quality and safety at the heart of everything it does. I am proud of our record levels of harm-free care, but I am clear that

The Government's mandate to NHS England for 2017-18

more needs to be done to transform clinical standards across specialities, create a strong learning culture and deliver truly high quality services seven days a week. This will be as true for mental health as it is for physical health conditions, which is why this mandate sets out our commitment to one of the most ambitious expansion plans for mental health services in Europe, ensuring one million more people can access services by 2020.

I have been clear that a critical element of patient safety is A&E performance, and equally clear that there have been instances of unacceptable performance in some hospitals in recent months. That is why, central to this mandate, is delivery of the NHS's A&E turnaround plan which should see hospitals return to meeting the 4 hour target, supported by £2 billion extra investment in social care and £100 million in capital funding for A&E departments.

By working closely with leaders across the health and care system, this mandate is about making real progress to deliver the care that our patients need, not only safeguarding the NHS's immediate future but also ensuring this for generations to come. I expect to see clear progress against the measures in this mandate in the months ahead.

Rt Hon Jeremy Hunt MP
Secretary of State for Health

1. Introduction

- 1.1. The Government is committed to providing for patients and the public the highest quality, most compassionate health and care service in the world, built on the guiding principles of the NHS: that access to health care is based on need and not the ability to pay, and that services are comprehensive and available to all.

The mandate to NHS England

- 1.2. NHS England is responsible for arranging the provision of health services in England. The mandate to NHS England sets the Government's objectives and any requirements for NHS England, as well as its budget.¹ In doing so, the mandate sets the direction for the NHS, and helps ensure the NHS is accountable to Parliament and the public. Every year, the Secretary of State must publish a mandate to ensure that NHS England's objectives remain up to date.²
- 1.3. Every government department has produced a plan setting out its objectives to 2020 and how it will achieve them. The mandate sets out NHS England's contribution to the Government's goals for the health and care system as a whole, as outlined in the Department of Health's single departmental plan, in line with the manifesto commitments.
- 1.4. The mandate for 2016-17 set out enduring objectives to 2020, and set NHS England's budget for five years. Setting a multi-year mandate with a multi-year budget enabled the NHS to plan more effectively to deliver our long-term aims. For the first time, the objectives in the 2016-17 mandate were underpinned by specific annual deliverables, and goals to be achieved by 2020 or beyond, as set out in the Annex.
- 1.5. This mandate continues the approach set out for 2016-17, maintaining the direction set and defining annual deliverables for 2017-18 that will keep us on track for meeting our longer-term goals. In some objectives, there are changes and clarifications to reflect developments since the 2016-17 mandate was set.
- 1.6. NHS England is legally required to seek to achieve the objectives, and comply with the requirements in this document.³ In doing so, NHS England is **required** to comply with its responsibilities and delegated authorities as set out in the *Framework Agreement between the Department of Health and NHS England*⁴ and *Managing Public Money*⁵.
- 1.7. We will assess NHS England's performance against its objectives, by reviewing progress against agreed yearly deliverables and metrics, alongside improvement in outcomes measures. Our assessment will be published in the Secretary of State's annual assessment of NHS England. In turn, we expect NHS England to ensure clinical commissioning groups (CCGs) play their part in delivering the mandate.

¹ NHS England's legal name is the National Health Service Commissioning Board.

² In accordance with section 13A(1) of the National Health Service Act 2006, as amended by the Health and Social Care Act 2012.

³ This requirement is at section 13A(7) of the National Health Service Act 2006.

⁵ <https://www.gov.uk/government/publications/managing-public-money>

The Five Year Forward View and a seven-day NHS

- 1.8. The Government is committed to delivering an NHS that offers all its citizens the safest, most compassionate, highest quality healthcare in the world. Spending will continue to increase in real terms every year in this Parliament, and the NHS will receive £10 billion more per year above inflation by 2020-21 than in 2014-15. This investment supports the NHS's Five Year Forward View, published in October 2014.⁶
- 1.9. In this mandate to NHS England to 2020, the Government is entrusting NHS England with the NHS budget to help deliver these commitments, and to meet the evolving needs of the population in a way that is sustainable now and into the future. We believe the NHS should be there when you need it and be accessed easily and conveniently. The quality of care you receive shouldn't depend on the day of the week that you access it and access to crisis care shouldn't depend on your condition. The objectives the Government has set for NHS England will help the NHS to deliver changes and seven-day services that mean:
 - Access to consistent standards of urgent and emergency hospital care, senior doctors and diagnostics no matter which day of the week you are admitted.
 - Weekend and evening access to primary care.
 - Faster, more streamlined access to urgent care, seven days a week through the 111 phone number.
 - 24/7 access to mental health crisis care in both community and A&E settings.
- 1.10. We will hold NHS England to account for its leadership of and contribution to delivery of the Five Year Forward View, including progress made towards a seven-day NHS.

Key measures of success

- 1.11. We expect the NHS to deliver the Five Year Forward View and close the gaps in the quality of health, care and NHS finances through Sustainability and Transformation Plans (STPs). For the first time local service leaders in every part of England, both on the commissioner and provider side, have come together to develop these plans, with the aim of transforming health and care in the communities they serve. A number of metrics will be used to measure progress across STP footprints in delivering the Five Year Forward View, linking performance of the NHS at a local level more explicitly to national accountability.

⁶ <https://www.england.nhs.uk/ourwork/futurenhs/>

2. NHS England's objectives

- 2.1. This mandate is based on the shared priorities of Government and its partner organisations for health and care – the priorities we believe are central to delivering the changes needed to ensure the NHS is always there whenever people need it most. As leader of the commissioning system, but working with others, NHS England has a central role to play. This mandate sets objectives for NHS England that reflect its contribution to these ambitions to 2020.
- **OBJECTIVE 1: Through better commissioning, improve local and national health outcomes, and reduce health inequalities.**
 - 2.2. To do this, we need greater transparency about the quality and outcomes of care. We expect NHS England to maintain the CCG improvement and assessment framework, to enable local areas to see how their services and outcomes compare to others and make consistent improvements. We expect NHS England to demonstrate improvements against the NHS Outcomes Framework, and work with CCGs to reduce inequalities in access, quality of care and outcomes at a local level.⁷ NHS England must ensure commissioning focuses on measurable reductions in inequalities in access to health services, in people's experience of the health system, and across a specified range of health outcomes, which contribute to reducing inequalities in life expectancy and healthy life expectancy.
 - **OBJECTIVE 2: To help create the safest, highest quality health and care service.**
 - 2.3. Everyone deserves high quality care that is safe, compassionate and effective, at all times and which is right for them, regardless of their condition. We want NHS England to help ensure the NHS provides the same standards of care, seven days a week, for people who need urgent and emergency hospital care, and that harm is minimised by avoiding unnecessary complications or admissions to hospital. We want the NHS to become the world's largest learning organisation, with a culture that uses all sources of insight, including from complaints⁸, to improve services and quality of care, particularly for the most vulnerable. NHS England should ensure the NHS helps to identify violence and abuse early and supports victims to get their lives back sooner, including through improved data sharing with community partners.
 - 2.4. NHS England should ensure the NHS meets the needs of each individual with a service where people's experience of their care is seen as an integral part of overall quality. We want people to be empowered to shape and manage their own health and care and make meaningful choices, particularly for maternity services, people with long term conditions and as set out in the Government's response to the end-of-life care Choice Review.⁹ Carers should routinely be identified and given access to information and advice about the support available.

⁷ <https://www.gov.uk/government/publications/nhs-outcomes-framework-2016-to-2017>

⁸ <http://www.healthwatch.co.uk/resource/my-expectations-raising-concerns-and-complaints-report>

⁹ <https://www.gov.uk/government/publications/choice-in-end-of-life-care-government-response>

- 2.5. A priority for NHS England will be to improve early diagnosis, services and outcomes for cancer patients, as outlined in Achieving World-Class Cancer Outcomes: A strategy for England 2015-20.¹⁰
- **OBJECTIVE 3: To balance the NHS budget and improve efficiency and productivity.**
 - 2.6. Meeting the demands of today's and tomorrow's patients and carers from within the existing NHS budget depends on the system stabilising its finances and delivering the wider changes called for by the Five Year Forward View. The Government is supporting the NHS's Five Year Forward view, increasing its annual funding by £10 billion above inflation by 2020-21, compared to 2014-15. This funding and the NHS budget is entrusted to NHS England.
 - 2.7. We expect NHS England to ensure overall financial balance in the NHS, working with NHS Improvement (which has statutory responsibility for trust financial control) to support local areas in developing credible, financially balanced operational plans, which build on, and align with, STPs.
 - 2.8. We want NHS England to ensure that aggregate spending by commissioners does not exceed mandate funding, that appropriate contingency funding is maintained and to make sure that commissioners discharge their duties in a way which enables all parts of the system (commissioners and providers) to meet their control totals. We also expect commissioners to work collaboratively with local authorities to make the most efficient and effective use of health and social care funding. Working with NHS Improvement, NHS England should determine pricing arrangements that are affordable for commissioners and allow providers to meet their financial duties – in doing so helping to spend taxpayers' money more efficiently and reduce waste, and ensuring we get maximum value for patients, their carers and service users from every pound spent.
 - 2.9. NHS England must seek to achieve this whilst continuing to deliver high quality care and delivering against the objectives set out in this mandate.
 - **OBJECTIVE 4: To lead a step change in the NHS in preventing ill health and supporting people to live healthier lives.**
 - 2.10. The escalating demands of ill health driven by our lifestyles also threaten the long-term sustainability of the NHS. Across the health and care system, we want the NHS to do more with partners on the broader prevention agenda, such as tackling smoking, alcohol and drug misuse and physical inactivity. We fully support the focus in the Five Year Forward View on preventing avoidable ill health and premature mortality. We ask NHS England to lead a step-change in the NHS on helping people to live healthier lives by tackling obesity and preventable illness. In particular, this includes contributing to the Government's goal to reduce child obesity and doing more to reach the five million people at high risk of diabetes and improve the management and care of people with diabetes. As part of the 2020 Dementia Challenge, we expect NHS England to make measurable improvements in the quality of care and support for people with dementia, and to increase public awareness.

¹⁰ <https://www.england.nhs.uk/cancer/strategy/>

- **OBJECTIVE 5: To maintain and improve performance against core standards.**

2.11. Our NHS should always provide the best care for everyone – wherever they are and whenever they need it, in line with the NHS Constitution. The Government has committed to real terms growth in the NHS budget to ensure that the service can continue to perform well over the next four years, with the capacity to deal with rises in demand during the winter months, and to play its part in any national emergency. We expect NHS England to support the NHS to improve and, where possible, maintain access to timely, quality services for all patients.

- **OBJECTIVE 6: To improve out-of-hospital care.**

2.12. We want to see more services provided out of hospitals, a larger primary care workforce and greater integration with social care, so that care is more joined up to meet people's physical health, mental health and social care needs. We expect NHS England to ensure everyone has easier and more convenient access to planned GP services, including appointments in the evenings and at weekends where this is more convenient for them, and effective access to quality urgent and emergency care 24 hours a day across the whole week.

2.13. We want to see more power and control devolved to more areas, enabling communities to design and develop new models of care tailored to meet the needs of their local populations. NHS England should support the NHS to achieve the Government's aim that health and social care are integrated across the country by 2020, including through the Better Care Fund.

2.14. People with mental health problems should receive better quality care at all times, accessing the right support and treatment throughout all stages of life. We expect NHS England to strive to reduce the health gap between people with mental health problems, learning disabilities and autism and the population as a whole, and support them to live full, healthy and independent lives. This will require great strides in improving care and outcomes through prevention, early intervention and improved access to integrated services to ensure physical health needs are addressed too. In particular, vulnerable children, homeless people, veterans, unpaid carers, offenders and people in places of detention, including immigration removal centres, should receive high quality, integrated seven-day services that meet their health needs. To close the health gap for people of all ages, we want to see a system-wide transformation in children and young people's mental health¹¹, with a greater focus on prevention and early intervention, as well as improvements to perinatal mental health. Central to this approach, we expect NHS England to work with partners to deliver, and support the delivery of, the Five Year Forward View Implementation Plan. Overall there should be measurable progress towards the parity of esteem for mental health enshrined in the NHS Constitution, particularly for those in vulnerable situations.

- **OBJECTIVE 7: To support research, innovation and growth.**

2.15. Just as a strong NHS depends on a strong economy, so a strong NHS can contribute to the growth of a strong economy, especially in health and life sciences. We ask NHS England to promote and support participation by NHS organisations, patients and carers

¹¹ <https://www.gov.uk/government/publications/improving-mental-health-services-for-young-people>

in research funded both by commercial and non-commercial organisations, so that the NHS supports and harnesses the best research and innovations and becomes the research partner of choice. We expect to see NHS England help the NHS contribute to economic growth, to support the NHS to reduce the impact of ill health and disability, and to support and harness research and innovation to enable cost effective, affordable, transformative new treatments to reach patients and their carers more quickly, whilst also securing better value from companies. As part of this, we expect NHS England to work with the life sciences sector and Government as it develops a life sciences strategy that makes the UK the best place in the world to invest in life sciences and develop innovative, cost effective and affordable new products. NHS England should also support the NHS to make better use of digital services and technology to transform patients' and their carers' access to and use of health and care, including online access to their personal health records.

3. NHS England's budget

- 3.1. NHS England's indicative revenue and capital budgets for each year of the Parliament were set out in the mandate for 2016-17.¹² Details of NHS England's revenue and capital budgets for 2017-18 and the indicative budgets for the remaining years of this Parliament are set out in the table below. A further breakdown of these figures is provided in the financial directions.¹³

	2016-17 (Revised)	2017-18	2018-19 (Indicative budget)	2019-20 (Indicative budget)	2020-21 (Indicative budget)
Total revenue budget (£m)	106,528	109,960	112,461	115,506	119,606
Capital budget (£m)	260	260	260	305	305

- 3.2. NHS England will need to comply with the financial directions made under the National Health Service Act 2006, which set out further technical limits, including spending on administration.
- 3.3. NHS England is responsible for allocating the budgets for commissioning NHS services. This prevents any perception of political interference in the way that money is distributed between different parts of the country. The Government expects the principle of ensuring equal access for equal need to be at the heart of NHS England's approach to allocating budgets. This process must be transparent, and must ensure that changes in allocations do not result in the destabilising of local health economies.
- 3.4. NHS England will ensure overall financial balance in the NHS, working with NHS Improvement, which has statutory responsibility for trust financial control. To support this, £1.8bn of NHS England's budget for 2017-18 will be allocated through the Sustainability and Transformation Fund to support providers, in particular of emergency services, payable through commissioning or as other support.

¹² The 2016-17 figures have been revised to take account of updated budget figures.

¹³ See section 223D of the NHS Act 2006 (financial duties of the Board); the revenue and capital budgets are the amounts specified as the limits on total resource use under subsections (2) and (3).

Annex: How we will assess NHS England's performance

The table below shows NHS England's objectives with an overall measurable goal for this Parliament and clear priority deliverables for 2017-18. The majority of these goals will be achieved in partnership with the Department of Health, NHS Improvement and other health bodies such as Public Health England, Health Education England, the Care Quality Commission and NHS Digital. It also sets out requirements for NHS England to comply with in paragraph 6.2.

We expect NHS England to provide assurance about how they will meet the deliverables set out below.

<p>1.</p>	<p>Through better commissioning, improve local and national health outcomes, particularly by addressing poor outcomes and inequalities.</p>
<p>1.1 CCG and STP performance</p>	<p>Overall 2020 goals:</p> <ul style="list-style-type: none"> • Consistent improvement in performance of CCGs against the CCG improvement and assessment framework, increasing the proportion of CCGs that are rated 'Good' or 'Outstanding'. • With NHS Improvement, support local areas to ensure delivery of agreed plans within each STP area, including progress against metrics. <p>2017-18 deliverables:</p> <ul style="list-style-type: none"> • By July 2017, publish the results of the CCG improvement and assessment framework for 2016-17. This will continue to include independent assessment of CCG performance for each of cancer, dementia, maternity, mental health, learning disabilities and diabetes. • With NHS Improvement, ensure commissioners and providers deliver their 2017-18 operational plans, which will deliver year one of locally agreed STPs.
<p>2.</p>	<p>To help create the safest, highest quality health and care service.</p>
<p>2.1 Improving service quality and achieving seven-day services</p>	<p>Overall 2020 goals:</p> <ul style="list-style-type: none"> • Roll out of seven-day services in hospital to 100% of the population (four priority clinical standards in all relevant specialities, with progress also made on the other six standards), so that patients receive the same standards of care, seven days a week. • Working with NHS Improvement, continue to support providers to develop and publish a Board level service quality improvement plan that will achieve significant and measureable improvements in the quality of services, thereby reducing deaths, severe harm and other adverse outcomes attributable to problems in healthcare. • Support NHS Improvement to significantly increase the number of trusts rated 'Good' or 'Outstanding', including significantly reducing the length of time trusts remain in special measures.

	<ul style="list-style-type: none"> • Under the Maternity Transformation Programme¹⁴, work with the Department of Health and partners in a system-wide effort to achieve the national maternity ambition, to reduce the 2010 rate of stillbirths, neonatal deaths, maternal deaths and brain injuries in babies that occur during or soon after birth by 20% by 2020, demonstrating progress towards the national ambition to reduce rates by 50% by 2030. • Support the NHS to be well-led and demonstrate open, learning cultures with good leadership and quality interactions evident across and between organisations; where staff feel valued, feedback on care and workplaces is welcomed and problem behaviours are tackled promptly. • Measurable improvement in antimicrobial prescribing, resistance rates and healthcare associated infection rates to support the Government to meet its ambition to halve inappropriate prescribing of antibiotics and halve Gram-negative infections by 2020. <p>2017-18 deliverables:</p> <ul style="list-style-type: none"> • By working with NHS Improvement, rollout the seven-day services in hospitals four priority clinical standards to (1) 50% of the population by April 2018 and (2) the whole population for five specialist services (vascular, stroke, major trauma, heart attack and paediatric intensive care) by November 2017. • Work with NHS Improvement to ensure that providers improve transparency and public engagement in developing their service quality improvement plan, using data on adverse outcomes as a catalyst for positive change. • Begin implementation of the Maternity Transformation Programme, including the Saving Babies' Lives care bundle. • With the Department of Health, support the development and publication of a baseline on brain injuries in babies that occur during or soon after birth. • Continue to participate in the Leadership Development and Improvement Board and deliver actions agreed as part of the Leadership Development and Improvement framework for 2017-18. • Support the Government's ambitions on antimicrobial resistance by taking action to improve prescribing and surveillance and reduce E.Coli blood stream infections in line with performance set out in the quality premium indicator for 2017-18. • Work with partners to ensure NHS services play their part in the Government's Prevent programme, including involvement of services in multi-agency processes and response to individuals' health needs.
2.2 Patient experience	<p>Overall 2020 goals:</p> <ul style="list-style-type: none"> • With NHS Improvement, improve the percentage of NHS staff who report that patient and service user feedback is used to make informed improvement decisions.

¹⁴ <https://www.england.nhs.uk/ourwork/futurenhs/mat-transformation/>

	<ul style="list-style-type: none"> • Ensure that patients, their families and carers are involved, through co-production, in defining what matters most in the quality of experience of services and assessing and improving the quality of NHS services. • 50,000-100,000 people to have a personal health budget or integrated personal budget (up from current estimate of 7,600). • Significantly improve patient choice, including in maternity, end-of-life care, elective care and for people with long-term conditions. <p>2017-18 deliverables:</p> <ul style="list-style-type: none"> • Implement findings from phase 1 and 2 of the Maternity Experience Challenge Fund to strengthen the perceived value of and cultural approach to feedback, ensuring the effectiveness of the Friends and Family Test (FFT) alongside other sources of feedback to drive service improvements, and that any changes to the FFT guidance are put in place for April 2018. • Development and adoption of externally validated co-production improvement methodologies, including the rollout of always events in 100 providers by April 2018. • Develop proposals for how complaints, whistleblowing and wider feedback can be used more effectively to support patients, their carers and staff, to drive up quality and improve patient safety in primary care and specialised commissioning. • Continue to make measurable progress to embed Personal Health Budgets for those with a legal right and expand their use in other groups, including wheelchair users, those with learning disabilities, and in end-of-life care and expand the Integrated Personal Commissioning programme. • Identify metrics to assess quality and choice in end-of-life care, ready for inclusion in the CCG improvement and assessment framework for 2018-19. • Develop an implementation plan with clear milestones and metrics for taking forward the recommendations set out in the Government's response to the end-of-life care Choice Review¹⁵, in collaboration with partners.
<p>2.3 Cancer</p>	<p>Overall 2020 goals:</p> <ul style="list-style-type: none"> • Deliver recommendations of the Independent Cancer Taskforce. <p>2017-18 deliverables:</p> <ul style="list-style-type: none"> • Set out clear priority milestones for 2017-19 and deliver those agreed for 2017-18, building on Achieving World-Class Cancer Outcomes: Taking the strategy forward.¹⁶ • Achieve the 62-day cancer waiting times standard, and maintain performance against the other cancer waiting times standards.

¹⁵ <https://www.gov.uk/government/publications/choice-in-end-of-life-care-government-response>

¹⁶ <https://www.england.nhs.uk/cancer/strategy/>

	<ul style="list-style-type: none"> • With partners, including NHS Digital, develop IT infrastructure and national guidance to enable routine collection of data for the new 28-day faster diagnosis standard to begin in April 2018. • Improve the proportion of cancers diagnosed at stages 1 and 2 over the previous year. • Work with partners across the cancer community to pilot an approach to measuring long-term quality of life for people living with and beyond cancer, and agree an implementation plan to begin data collection in 2018-19. • Invest up to £340m in providing cancer treatments through the Cancer Drugs Fund (CDF), including those recommended by NICE for use in the CDF.
<p>3.</p>	<p>To balance the NHS budget and improve efficiency and productivity.</p>
<p>3.1 Balancing the NHS budget</p>	<p><i>Overall 2020 goals:</i></p> <ul style="list-style-type: none"> • Ensure overall financial balance in the NHS, working with NHS Improvement, which has statutory responsibility for trust financial control, and that the necessary efficiency and productivity improvements are realised, while continuing to improve the quality of care. • Ensure that commissioners discharge their duties in a way which enables all parts of the system (commissioners and providers) to live within their control totals, as individual organisations, across Sustainability and Transformation Plan footprints, and in aggregate. • With the Department of Health and NHS Improvement, achieve year on year improvements in NHS efficiency and productivity (2-3% each year), including from reducing growth in activity, improving the quality of care and maximising cost recovery. • Work with NHS Improvement to determine pricing arrangements that are affordable for commissioners, allow providers to meet their financial duties, and are consistent with the strategic direction of the Five Year Forward View. • With NHS Improvement, support the Government's goal to raise £2bn and free space for 26,000 new homes by 2020 from releasing surplus NHS land. <p><i>2017-18 deliverables:</i></p> <ul style="list-style-type: none"> • Ensure overall financial balance in the NHS, working with NHS Improvement, which has statutory responsibility for trust financial control. • Ensure that aggregate spending by commissioners (NHS England and CCGs) does not exceed mandate funding for 2017-18, including the maintenance of appropriate contingency funding against risks that system control totals are exceeded. • With NHS Improvement, before the end of the 2017-18 contracting round, provide formal assurance to the Department of Health that operational plans deliver mandate objectives and are based on consistent, credible planning assumptions across commissioners and providers, or where not, agree and implement an action plan to address

	<p>outstanding issues.</p> <ul style="list-style-type: none"> • Ensure CCGs take steps to better manage demand in acute services through effective implementation of programmes including New Care Models, Right Care and Self Care. • Measurable improvement in primary care productivity, including through supporting community pharmacy reform. • Ensure commissioning aims are consistent with and support the delivery of provider productivity, including working with NHS Improvement in securing Carter efficiency savings and reducing spend on agency staff. • Support the Department of Health to take forward the Government's commitment for the NHS to recover up to £500m from overseas chargeable patients, including by: <ul style="list-style-type: none"> ○ providing an assessment, by August 2017, of the barriers to CCGs assuring themselves that providers are identifying chargeable patients, and making recommendations for tackling those barriers. ○ working with NHS Improvement, ensuring CCGs contribute to efforts to maximise cost recovery within an initial cohort of 20 trusts identified by NHS Improvement, and disseminating lessons learned across the country. ○ working with the Department of Health and other stakeholders, developing implementation plans to extend charging of overseas patients into primary care, and exploring the practicalities of extending it into A&E. • Ensure that every CCG has a strategic estates strategy that is consistent with progress towards the 2020 national goals.
<p>4.</p>	<p>To lead a step change in the NHS in preventing ill health and supporting people to live healthier lives.</p>
<p>4.1 Obesity, diabetes and prevention</p>	<p><i>Overall 2020 goals:</i></p> <ul style="list-style-type: none"> • Measurable reduction in child obesity as part of the Government's childhood obesity plan.¹⁷ • 100,000 people supported to reduce their risk of diabetes through the NHS Diabetes Prevention Programme. • Measurable reduction in variation in the management and care for people with diabetes, including improving the achievement of the NICE recommended treatment targets whilst driving down variation between CCGs. • With support from Public Health England, contribute to the reduction of preventable illness and associated hospital admissions through the implementation of tangible, preventative interventions in the NHS. <p><i>2017-18 deliverables:</i></p> <ul style="list-style-type: none"> • With the Department of Health, set out, by September 2017, NHS

¹⁷ <https://www.gov.uk/government/publications/childhood-obesity-a-plan-for-action>

	<p>England's contribution to the Government's childhood obesity plan.</p> <ul style="list-style-type: none"> • At least 60,000 people referred to the Diabetes Prevention Programme. • Fund, and deliver with Public Health England, a programme from April 2017 to March 2019, that will support the implementation of identified preventative interventions at scale by the NHS, in collaboration with local health and care partners.
<p>4.2 Dementia</p>	<p>Overall 2020 goals:</p> <ul style="list-style-type: none"> • Deliver the actions as outlined in the Challenge on Dementia 2020 Implementation Plan.¹⁸ <p>2017-18 deliverables:</p> <ul style="list-style-type: none"> • Maintain a minimum of two thirds diagnosis rates for people with dementia. • Continue to develop an evidence based framework for a national treatment and care pathway and agree an affordable implementation plan for the 2020 Dementia Challenge, including to improve the quality of post-diagnosis treatment and support.
<p>5.</p>	<p>To maintain and improve performance against core patient access standards.</p>
<p>5.1 A&E, Ambulances and Referral to Treatment (RTT)</p>	<p>Overall 2020 goals:</p> <ul style="list-style-type: none"> • 95% of people attending A&E seen within four hours. • A 24/7 integrated urgent care service implemented in each footprint, including a clinical hub that supports 111, 999 and out-of-hours calls from the public and all healthcare professionals. • Meet ambulance response time standards for the most urgent calls and the A&E standard. • At least 92% of patients on incomplete non-emergency pathways to have been waiting no more than 18 weeks from referral; no-one waits more than 52 weeks from referral; and less than 1% of patients waiting for a diagnostic test to wait more than 6 weeks from referral. • Ensure the NHS plays its part in significantly reducing delayed transfers of care by developing and applying new incentives. <p>2017-18 deliverables:</p> <ul style="list-style-type: none"> • Co-implement the agreed A&E recovery plan with NHS Improvement and deliver aggregate A&E performance in England above 90% in September 2017, with the majority of trusts meeting 95% in March 2018, and aggregate performance in England at 95% within the course of 2018, including by: <ul style="list-style-type: none"> ○ making A&E streaming mandatory throughout the system. ○ ensuring all care home residents at risk of admission to hospital

¹⁸ <https://www.gov.uk/government/publications/challenge-on-dementia-2020-implementation-plan>

	<p>are first seen by a GP or ambulance 'see and treat' model.</p> <ul style="list-style-type: none"> ○ implementing the agreed process to address hospital bed capacity issues. ○ implementing changes to ambulance and 111 delivery models to reduce the rate of growth in demand for A&E services. <ul style="list-style-type: none"> • Agree a plan for staged rollout of integrated urgent care to 2020, and implement for 2017-18. • With NHS Improvement, meet agreed standards on A&E, ambulances, diagnostics and referral to treatment. • Test new ambulance service performance metrics which reflect the clinical needs and outcomes for patients contacting 999 in England. • Working with NHS Improvement and local government partners, reduce NHS-related delayed transfers of care in support of a total reduction of delayed transfers of care to 3.5% by September 2017 (recognising existing variation between areas) by: <ul style="list-style-type: none"> ○ setting clear trajectories for improvement for each area, based on previous performance. ○ ensuring that each area fully implements evidence-based approaches to reducing delays, including a 'discharge to assess' model, and a 'trusted assessor' agreement. ○ piloting and evaluating models for providing hospital services to people in their own homes, to avoid unnecessary admissions and support more timely discharge. ○ providing targeted intervention and support for the most challenged areas. <p>Continue this performance for the remainder of 2017-18 and set out plans for a more ambitious goal for 2018-19.</p> <ul style="list-style-type: none"> • Develop and implement plans to moderate avoidable growth in demand for elective services, including through sharing benchmarking data with CCGs and advice and guidance services.
<p>6.</p>	<p>To improve out-of-hospital care.</p>
<p>6.1 New models of care and General Practice</p>	<p>Overall 2020 goals:</p> <ul style="list-style-type: none"> • Implementation of the measures to support general practice set out in the General Practice Forward View¹⁹, including: <ul style="list-style-type: none"> ○ improved access to primary care, ensuring 100% of the population has access to weekend/evening routine GP appointments. ○ 5,000 extra doctors in general practice, delivered jointly with Health Education England. • Measurable reduction in age standardised emergency admission rates and inpatient bed-day rates; more significant reductions through the New

¹⁹ <https://www.england.nhs.uk/gp/gpfv/>

	<p>Care Model programme covering at least 50% of the population.</p> <p>2017-18 deliverables:</p> <ul style="list-style-type: none"> • Deliver 2017-18 core requirements for access to enhanced GP services, including evening and weekend access, to a total of 40% of the population. • Work with the Department to agree a programme of work to assess how best to meet the commitment that all over-75s will be able to access a same-day appointment with a GP if they need one. • Support NHS Digital and the Department of Health to provide practices with clinical data by named GP. • Achieve 20% coverage of the population by the New Care Model programme. • Assess progress of the vanguards and identify models consistent with the multispecialty community providers, integrated primary and acute care systems and enhanced health in care homes vanguard frameworks that can be replicated across the country.
<p>6.2 Health and social care integration</p>	<p>Overall 2020 goals:</p> <ul style="list-style-type: none"> • Achieve better integration of health and social care in every area of the country, with significant improvements in performance against relevant indicators within the CCG improvement and assessment framework, including new models of care. Areas can graduate from the Better Care Fund programme management once they can demonstrate they have moved beyond its requirements. <p>2017-18 deliverables:</p> <ul style="list-style-type: none"> • Implement the Better Care Fund in line with the Integration and Better Care Fund Policy Framework for 2017-19. • Working with partners, achieve accelerated implementation of health and social care integration, including through sharing electronic health records and making measurable progress towards integrated assessment and provision. • Work with the Department of Health, other national partners and local areas to agree and support implementation of those local devolution deals which include health proposals, subject to NHS England's devolution criteria, in order to support local transformation objectives for improved population outcomes, experience of care and value for money. • With the Department of Health, increase the proportion of NHS Continuing Healthcare assessments undertaken outside of an acute setting. • Collaborate with local authorities to support the sustainability of social care, including on programmes such as New Care Models, Urgent Care and Right Care. <p>2017-18 requirements:</p> <ul style="list-style-type: none"> • NHS England is required to: <ul style="list-style-type: none"> ○ ring-fence £3.582bn within its allocation to CCGs to establish the

	<p>Better Care Fund in 2017-18, and ensure the amount spent from within this on schemes identified in Better Care Fund plans as 'social care' in 2016-17 is maintained in line with inflation in every area (Better Care Fund national condition 2);²⁰</p> <ul style="list-style-type: none"> ○ consult the Department of Health and the Department for Communities and Local Government before approving BCF plans drawn up by each local area; and ○ consult the Department of Health and the Department for Communities and Local Government before exercising its powers in relation to failure to meet specified conditions attached to the Better Care Fund as set out in the Integration and BCF Policy Framework.
<p>6.3 Mental health, learning disabilities and autism</p>	<p>Overall 2020 goal:</p> <ul style="list-style-type: none"> ● To implement the Mental Health Five Year Forward View²¹ recommendations and ensure 1 million more people with mental health problems are accessing high quality care. ● At least 70,000 more children and young people to access evidence based treatment. <p>2017-18 deliverables:</p> <ul style="list-style-type: none"> ● Deliver the 2017-18 Mental Health Five Year Forward View Implementation Plan²² recommendations. ● Work with system partners to deliver the Mental Health Five Year Data Plan, the Mental Health Workforce Strategy, the Future in Mind recommendations, and support Government priorities and commitments to improving mental health for children and young people and prisoners and offenders in the community. ● Embed access and waiting time standards for mental health services for Early Intervention in Psychosis, Improving Access to Psychological Therapies and eating disorders. ● Develop and implement a 5 year improvement programme for crisis and acute mental health care, including investing in liaison psychiatry and crisis resolution and home treatment teams as part of seven-day services, as well as continuing to collaborate with partners to support the ongoing work to improve care for people detained under s.136 of the Mental Health Act, including provision of health based places of safety. ● Work with the Department of Health and NHS Digital to ensure robust data on acute out of area placements is collected, reporting is embedded and a baseline position is established during 2017-18. Plans should be agreed in 2017-18 to deliver year-on-year reductions to eliminate inappropriate acute out of area placements by 2020-21. ● Reduce reliance on inpatient care for children, young people and adults

²⁰ In addition, within NHS England's indicative budget for 2018-19, NHS England is expected to be required to ring-fence £3.65bn within its allocation to CCGs to establish the Better Care Fund in 2018-19.
