Countryside Stewardship Claims

Start or open a Countryside Stewardship claim

Use these screens to submit a revenue claim for your Countryside Stewardship agreement. Read the 'How to submit your revenue claim online' guide for more information on how to claim online and to find out what supporting information you need to send to Natural England. These guides are available on the gov.uk website and will also assist you if you encounter any problems creating, completing or submitting your claim.

From the Countryside Stewardship page click on the **Countryside Stewardship Claims** link and in the following screen select to **Create a new Countryside Stewardship Revenue Claim**.

Remember to save

It's important that you click any **Save** buttons as you go through your claim. Then, if your power or broadband fails you won't lose the information you've already put into the service. Most of the screens will save information automatically as you update them, but if you see a save button, we recommend you use it regularly so you don't lose any changes you have made.
