**Strategic Export Controls: Country
Pivot Report**

1st October 2016 - 31st December
2016

April 2022

Countries: All countries

Case Types: All case types

All Cases / Incorporation Cases Only: All cases

Ultimate Destinations: All countries

Licence Statuses: All licence statuses

Reasons for Refusal: All reasons for refusal

Case Summaries: All case summaries

Ratings: All control entries

Introduction

This report covers **export licensing decisions made by Her Majesty's Government (HMG)** between 1st October 2016 and 31st December 2016. Licence applications are submitted to and processed by the Export Control Organisation (ECO), part of the Department for International Trade, through a purpose-built online licensing system called Spire. The ECO issues licences for controlling the export of strategic goods.

Whether or not an export licence is required is determined by four factors, the:

- nature of the goods due to be exported
- destination concerned
- ultimate end use of the goods
- licensability of trade activities of the goods due to be exported

Broadly there are two types of licence, individual and general. Licences can be *standard* or *open*.

Each licence names the goods that can be exported and specifies the destinations to which they can be exported, along with other details and restrictions. *General* licences are pre-published and can be used by all eligible exporters whereas *individual* licences are issued following a successful application and allow only those named on the application to export certain goods. Those exporting under *general* licences must adhere to the terms and conditions of the licence under which they wish to export. Exporters must register with the ECO to use a *general* licence and are subject to regular audits to ensure the licence terms and conditions are being adhered to. Those requiring an *individual* licence must submit an application to the ECO where they wish to make exports not covered by the terms and conditions of a *general* licence.

Generally, *open* licences can be used with fewer restrictions than *standard* licences. *Standard* licences tend to name a specific quantity of specific goods that can be exported to a specific destination whereas *open* licences may include a wider range of goods or destinations and generally do not limit the quantity of goods that can be exported.

A glossary of key terms follows this introduction which explains the various licence types and subtypes that can be used or applied for and how information relating to each licence type and subtype is available within this report.

This report and other sources of information

Each of these quarterly reports (from 2015Q1 published in July 2015) is supplemented by a set of *data tables* in spreadsheet format (plus CSV format) and a *statistical commentary* document in addition to this report. The *data tables* provide the same information as presented in this report but in a different format and for **periods back to 1 January 2008**. CSV spreadsheets use a non-proprietary format that facilitates the manipulation of the data by a variety of software (not just Microsoft Excel) and provide the same information as available from the *data tables*. These outputs can be found alongside this report under the 'Quarterly reports' heading here:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>

The 'New Report' tool on the "Strategic Export Controls: Reports and Statistics" web page can also be used to download data. The tool offers a variety of filters that can be applied to allow users to download data of specific interest, such as licences which name a certain destination or licences for the shipment of goods with a certain rating. The tool is available here (registration required):

<https://www.exportcontroldb.trade.gov.uk/sdb/fox/sdb/SDBHOME>

Key terminology and data available in this report

Licences types exist for each combination of *open/standard* and *general/individual* , except for *standard general* . The following table summarises the licence types under each of these headings. Each of these licence type has subtypes (more information available under 'Licence types and subtypes').

	Open	Standard
General	OGELs	Not applicable
Individual	OIELs, OITCLs,	SIELs, SITCLs

Key terms

Strategic goods include military goods and a wide range 'dual-use' goods; civilian goods with a military purpose. Goods are assessed against a **consolidated list of goods that require export authorisation**, available here:

<https://www.gov.uk/government/publications/uk-strategic-export-control-lists-the-consolidated-list-of-strategic-military-and-dual-use-items-that-require-export-authorisation>

It is possible for a licence to be for both military and dual-use goods.

Control Entries are the codes assigned to each good on the **consolidated list of goods that require export authorisation (herein 'consolidated list')**. For example, all control entries beginning 'ML' (such as ML1, ML8 etc) are control entries for military goods. The process of assigning control entries to goods is called **Rating**.

In some cases goods can be made subject to control if they do not appear on the **consolidated list**. Goods that the exporter has been told, knows or suspects are, or may be, intended for "WMD Purposes" are given the rating "End-Use". Goods that the exporter has been told, knows or suspects are, or may be, intended for use as components in, or production or test equipment for, military equipment in an embargoed destination; or may be intended for use as parts of military goods illegally obtained from the UK, irrespective of destination, are given the rating "MEND". Both of these "end-use" ratings are also sometimes referred to as "catch all" ratings.

Case summaries are text descriptions used to classify goods on licences. They are standardised descriptions to explain what the goods are without giving away commercially sensitive details about the goods (such as design or intellectual property). Using standardised descriptions also facilitates comparison and analysis. Often extra detail is communicated by using prefixes. For example, a replacement part for a sporting shotgun may be described as "components for sporting shotguns" rather than just "sporting shotgun".

One or more Control Entry can be used to rate more than one good on a licence. Also, one or more Case Summaries can be used to describe a single Control Entry.

Goods are rated as **Military** (ie, they are assigned a Control Entry from the **UK Military List** within the **consolidated list**) or they are rated as being **Non-military**. Non-military goods:

- appear on other lists within the **consolidated list** , such as the **UK Dual-Use List** .
- also include goods refused to destinations that are placed under **sanctions**, such as trade sanctions or an arms embargo. Licences relating to the goods affected by the sanction do not get approved but also do not get rated against the **consolidated list**. They are instead rated with a **sanction code**, such as 'RUS' for Russia and 'IRN' for Iran.

SIELs for goods covered by the torture regulation (see "Licence types and subtypes") concern trade in certain equipment and products which could be used for capital punishment torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for goods covered by the torture regulation are therefore not

included in the count of non-military goods for other SIEL subtypes.

As noted, goods can also be rated even if they don't appear on the **consolidated list**.

Licence applications can be **Refused** (for standard individual licences) or **Rejected** (for open individual licences). Licences are refused/rejected for one or more pre-specified reasons. All applications for licences are assessed on a case-by-case basis against the **Consolidated EU and National Arms Export Licensing Criteria** and a decision made on either approval or refusal. Depending on the nature of the goods, other policy aspects might also be considered. For example, if the exported goods are due to be incorporated into another system, equipment or plant, then the items are also assessed against the UK's incorporation factors policy.

Applications for licences can be refused if it is deemed to fail one or more of the Consolidated EU and National Arms Export Licensing Criteria. These 8 criteria include, for example, *Preservation of regional peace, security and stability (criterion 4) or Respect for the UK's international obligations and commitments, in particular sanctions adopted by the UN Security Council or the European Union, agreements on non-proliferation and other subjects, as well as other international obligation (criterion 1)*. More information about the criteria is available here:

<https://www.gov.uk/government/publications/consolidated-eu-and-national-arms-export-licensing-criteria>

Licences can also be **Revoked** at any time after being Issued.

Case & goods footnotes are added to certain cases to provide explanation on the end use and/or end user.

Country footnotes are added to destinations with the aim to help the user understand why certain goods may have been approved, refused/rejected or revoked in the period.

Licence types and subtypes

Export Licences

General Licences

Before data are presented per destination, a table summarises the use of **Open General Export Licences (OGELs)** on page 15. OGELs are pre-published licences allowing the export of certain goods to certain destinations. If exporters are eligible to trade under an OGEL then they should register to use that OGEL. Once registered, there is no need for an exporter to submit further applications to trade under the licence they have registered to use.

Some Open General Transshipment licences exist for the **transshipment** of certain goods through the UK en-route from one country to another, providing in all cases that the relevant conditions are met.

There are no Open General licences for the **incorporation** of goods into another product or higher level systems.

Individual Licences

The vast majority of this report presents information (where available) per destination relating to *standard individual* licences and open individual licences (SIELs, OIELs, SITLs, SITCLs and OITCLs). All destinations are presented in this report, and if information regarding certain licence types is not presented for a destination then this is because no decisions have been made on such licences in this period.

Exporters should check to see whether they are eligible to use an *open general* licence before applying for either a *standard individual* licence (eg SIEL, SITCL) or *open individual* licence (eg OIEL, OITCL), whichever is most appropriate.

Open Individual Licences

Open Individual Export Licences (OIELs) are *specific to an individual exporter and cover multiple shipments of specified items to specified destinations and/or, in some cases, specified consignees*. Licences permitting permanent export are generally valid for up to 5 years from the date of issue. However, OIELs covering the export to EU Member States of goods entered on the Military List and Dealer to Dealer OIELs (an OIEL subtype) are generally valid for 3 years.

Other OIELs:

There are several subtypes of OIELs including **Global Project Licences**, as well as **Dealer-to-dealer, Cryptographic, Media and Continental Shelf OIELs**.

Dealer-to-dealer OIELs (or simply Dealer OIELs) authorise UK registered firearms dealers to export certain categories of firearms and ammunition solely to other registered firearms dealers on the European Union only, provided that copies of valid documentation are forwarded to the Home Office at least 2 working days before each shipment.

Cryptographic OIELs authorise the export of specified cryptography hardware or software and the transfer of specified cryptography technology. These licences do not cover hardware, software or technology which includes certain types of cryptanalytic functions.

Media OIELs authorise the export of military helmets, body armour, non-military 4WD civilian vehicles with

ballistic protection and specially designed components for any of these items, mainly for the protection of aid agency workers and journalists in areas of conflict. The licence permits these goods to be exported to all destinations on a temporary basis only, i.e. the goods must be returned to the United Kingdom when no longer required.

Continental Shelf OIELs authorise the export of controlled goods to the UK sector of the Continental Shelf for the use only on, or in connection with, offshore installation and associated vessels.

Global Project Licences

Global Project Licences (GPL) are a form of export licence that were introduced by Framework Agreement partners (UK, France, Italy, Sweden, Spain and Germany) to streamline the arrangements for licensing military goods and technologies between them, where these transfers relate to their participation in specific collaborative defence projects. In relation to the collaborative project, each Partner state will, as appropriate, issue their own GPLs to permit transfers of specified goods and technology where these are required for that programme. The GPLs operate on a similar basis to UK Open Individual Export Licences. In the UK, applications for GPLs are assessed against the Consolidated Criteria.

Standard Individual Licences

Standard Individual Export Licences (SIELs) are specific to an individual exporter and generally allow shipments of specified items to a specified consignee up to the quantity specified by the licence.

There are 5 main subtypes; permanent, temporary, incorporation, transshipment and SIELs for Goods covered by the torture regulation.

- **Permanent SIELs** are for items that are for permanent export to a destination. They are generally valid for 2 years from date of issue.
- **Temporary SIELs** are for where the export is temporary, for example for the purposes of demonstration, trial or evaluation, and the licence is generally valid for one year only. The goods must be returned before the licence expires. Temporary SIELs can cover more than one destination and in such cases the licence will be counted once per destination. Therefore users should express caution when summing licence details together across countries.
- **Incorporation SIELs** are for goods that are due to be incorporated ie, installing them into another product or higher level system. For incorporation cases there are two end user types. The 'end user' is the person/organisation incorporating the goods. The 'ultimate end user' is defined as the entity that uses the product or the higher level system into which the exported goods are installed or incorporated.
- **Transshipment SIELs** are needed for the transshipment of certain goods through the UK en-route from one country to another, providing certain conditions are met. This subtype of SIEL is also called a Standard Individual Transshipment Licence (SITL). Most other transshipments (of certain goods through the UK en-route from one country to another) can be made under one of the Open General Transshipment Licences, provided in all cases that the relevant conditions are met. There are no Open Individual licences for transshipments.
- **SIELs for Goods covered by the torture regulation** concern trade in certain equipment and products which could be used for capital punishment, torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for Goods covered by the torture regulation are therefore not included in the count of non-military goods for other SIEL subtypes.

It should be noted that the refusal of an application for an OIEL, amendment to exclude a particular destination(s) and/or item(s), or the revocation of an OIEL, does not prevent a company from applying for a SIEL covering some or all of the items concerned to specified consignees in the relevant destinations. Clearly, however, the factors that led to the original decision would be taken into account in the decision on any such application.

Other Individual Licences

Information on Other Individual licences is not included as part of this report, or as part of the Excel or CSV spread sheets released alongside this report. Please see separate documentation entitled 'Data for Other Licences' published alongside this, or previous, reports.

Trade Control Licences

Trade Control licences are required for those brokering the export of strategic goods. Brokering means buying or selling, or arranging or negotiating transactions for the purchase, sale, or supply, of goods located in one third country for transfer to another. There are Open and Standard Trade Control licences

An **Open Individual Trade Control Licence (OITCL)** is *specific to a named trader and covers involvement in trading of a generally unlimited supply of specific goods between specific source and destination countries and/or specified consignors, consignees and end-users*. OITCLs are generally valid for 5 years.

A **Standard Individual Trade Control Licence (SITCL)** is specific to a named trader and covers involvement in trading of a set quantity of specific goods between a specific source and destination country with a specified consignor, consignee and end-user. SITCLs will normally be valid for 2 years. Upon expiry either by time or because the activity has taken place, the licence ceases to be valid and must be returned to the Export Control Organisation. Once the licence expires, a new application must be applied for if further trades are required. Like Individual Export licences, exporters should check to see whether they are eligible to use an OITCL before applying for a SITCL.

Reporting

Summary Tables

Before more detailed information is presented by destination on SIELs, OIELs, SITCLs and OITCLs, data summarising the number of licences Issued, Refused/Rejected and Revoked for each licence type within the period are presented.

Following this is some detailed information on Dealer OIELs, Cryptographic OIELs, Media OIELs, Continental Shelf OIELs and Global Project Licences - as generally there are not many of these per quarter so the information is best summarised for all destinations together in one table. Processing statistics are reported, similar to those presented per destination (see below). A table showing registrations, suspensions and de-registrations for the use of OGELs immediately precedes detailed information per destination.

Information Per Destination

Information for each destination follows the same pattern. The minimum information provided for each destination is processing statistics. Where no such licences decisions were made in the period, there is simply no information presented for such cases.

Processing statistics

The time calculated is the initial processing time, ie, the time elapsed from when the application is first received to when it is closed. All closed cases are counted, including those where the licence is issued or refused/rejected, or where the application is stopped or withdrawn, or where there was No Licence Required (NLR) decision made on the licence. Revocations apply to existing licences only, so are not counted. Time spent by the ECO waiting for documents from applicants or any time where the ECO are waiting for the applicant to respond to a request for further information is excluded. Time taken to make any amendments post-decision is not counted. For more information on how processing time is calculated, please consult the Quality and Methodology Report on the Strategic Export Controls licensing statistics web page:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>.

Separately for SIELs, SITCLs, OIELs and OITCLs the following processing statistics are presented per destination:

- Median processing time
- % and number of licences completed in 20 and 60 working days. For SIELs there are government targets to process 70% of applications within 20 working days and 99% within 60 working days. For OIELs and OITCLs there are government targets to process 60% of applications within 60 working days.

Licensing statistics

The information within the report covers those licences Issued, Refused/Rejected or Revoked within the period. It does not include information where applications were not fully processed, eg stopped or withdrawn, information on goods where there was No Licence Required (NLR), or certain changes to an existing licence - such as re-opening an application to make changes such as extensions to licences, removing good/s (although this is not done for OIELs), removing country/countries, or amending applicant errors.

If goods / countries are added to an application and subsequently end up on a licence they will be reported as a new issue for that period. The existing items will not be re-reported. The same applies for items removed from an application on an amendment, except in this case it will be reported as revoked.

In a small number of cases there may be a subsequent change of status during the same period. There are two

main reasons for such changes: a licence issued during the period may have been issued then subsequently revoked in the same period, for example because of the imposition of trade sanctions or an arms embargo; or a decision during the period to refuse a licence might be overturned because the applicant later appealed successfully and the licence was issued in a later period. These cases are flagged in this report as Rv and A respectively.

For each destination and for each of Issued, Refused and Revoked the following is data is presented in this report, where available, for each **SIEL** subtype (note: information on SITLs can be found under the heading 'SIELs - Transshipment'):

- A count of the number of licences on which goods were Issued, Refused or Revoked categorised by the type of goods; Military, Non-military or Both Military and Non-military (see 'Key Terms'). Examples of when a licence may be for both military and non-military goods could be where the goods are military body armour and civilian body armour, or where bomb detection goods are being sold for use by the military and for civilian use such as at airports. However, the military and non-military goods will not necessarily be of the same type.
- A count of the number of licences on which goods were Issued, Refused or Revoked per Control Entry. Control Entries are presented per category (Military, Non-military or Both Military and Non-military) based on the licence they relate to. The number given is the number of licences on which a Control Entry was used. Please note that more than one Control Entry can apply to goods on an individual licence and each Control Entry is counted only once per individual licence (regardless of the number of goods that have been rated with that Control Entry).
- Data for Issued SIELs includes the value of the goods in each category. However, note that goods covered by issued SITLs merely pass through the UK and it would therefore be misleading to compare the 'value' for these licences in the report with the value of items originating in the UK.
- Case summaries for each of Issued, Refused and Revoked broken down by category (Mil/Non-mil/Both), listed below the appropriate Control Entry table in which they feature. Case summaries for small arms covered by SIELs issued in the period give the number of units in parentheses. If the number of licences using the case summary in the period is more than one then this is also detailed in parentheses (eg "2 licences"). Items that were allowed for Temporary export are indicated by a "T" preceding the description. Items that were originally allowed for Temporary export but then converted to allow Permanent export are indicated by a "T(P)". Note that more than one Case Summary can apply to a single Control Entry. Note that more than one Case Summary can apply to a single Control Entry.
- The ultimate destination/s for goods that are being incorporated.
- For refusals, the number of times each of the 8 Consolidated EU and National Arms Export Licensing Criteria are used to refuse licence applications for the destination is provided.

The Control Entries supplied are less detailed than those listed in the **consolidated list of goods that require export authorisation**. For example, we report ML1 but there are more specific codes such as ML1a, ML1b, ML1c and ML1d. Here is an example to explain how we would count the number of licences containing goods rated ML1:

Issued licences for a given destination	Control Entries applied to goods on licence
Licence 1	ML1a, ML1a, ML1b, ML1c
Licence 2	ML1a, ML2a
Licence 3	ML1a
Licence 4	ML1c
Licence 5	ML2a
<i>Total number of licences containing goods rated ML1</i>	4

In the example the number of licences containing goods rated ML1 is 4 because the more detailed codes (eg ML1a, ML1b etc) are treated as though they are the broader code ML1. Also, each Control Entry is counted a maximum of once per licence, so licence 1, 2, 3 and 4 each have a count of 1 for ML1.

The data on refused SIEL applications does not include those refused during this period following an appeal against an earlier refusal. The SIELs data also does not cover goods that were removed from an application before a licence was issued, applications that were withdrawn or stopped before a decision was reached, or applications where it was determined that no licence was required or that the goods could be exported to the

destination concerned under an Open General Export Licence (OGEL).

In the case of SIELs refused or revoked, only the rating of the goods is provided.

Values are shown to the nearest pound. It should be noted that the actual value of exports made under the licences is likely to be less than shown because some of these licences will not be used to make all of the exports authorised and others will not be used at all. In addition, some items are exported only temporarily and are later returned to the UK.

In some cases SIELs may be issued identifying more than one destination. This normally arises where a licence is issued for the temporary export of items for exhibition or demonstration in more than one destination. Details of these licences are included in the information for each relevant destination. This means that the total number of SIELs issued is lower than the sum of all SIELs issued shown across all the destination pages.

For each destination and for each of Issued, Refused and Revoked the following data is presented in this report, where available, for each OIEL subtype:

- A case summary description of the goods covered by each OIEL, with the items that were allowed for temporary export indicated by a "T" preceding the description, for Issued, Rejected and Revoked licences.

Case summaries are provided for all licences issued in the period or where the coverage of an existing licence was amended during the period by the inclusion or reinstatement of this destination or by the addition of goods. Case summaries are provided for licences fully revoked, refused in full or whose coverage was amended during the period by the removal of items and/or destinations. The destination coverage of an OIEL may be amended for a variety of reasons, but mainly in the light of recommendations received from advisory government departments. Sometimes amendments follow the imposition of an arms embargo, but they may also reflect general concerns about the destination or a relevant change in circumstances there. A decision to exclude a particular country from the coverage of an OIEL does not mean that country is permanently excluded. Where the concerns that led to the original decision are no longer relevant, it might be decided to reinstate that destination.

The OIELs data does not cover applications from which specific goods or destinations were removed before an OIEL was issued, or applications withdrawn before a decision was reached, it was determined that no licence was required or that the items could be exported to the destination concerned under an OGEL.

The information does not cover OIELs whose period of validity was extended temporarily during the period pending a decision on an application for a new OIEL. Such cases amount to a temporary extension of an OIEL granted in an earlier period. The decision on the new application will be covered in this or a future report, depending on the timing of the decision. As OIELs cover multiple shipments of specified goods to specified destinations or specified consignees, exporters holding OIELs are not asked to provide details of the value of goods they propose to ship under an OIEL and it is therefore not possible to provide information on the total value of OIELs issued.

As well as the data presented on SIELs and OIELS, data is presented on **SITCLs and OITCLs**:

- The number of SITCLs or OITCLs (presented separately) Issued, Refused (for SITCLs)/Rejected (for OITCLs) and Revoked in the period

Overall Licensing Statistics

	All licence applications	Issued	Refused/ Rejected	Revoked
SIELs	3427	3339	87	1
- Permanent Standard	2887	2802	84	1
- Temporary Standard	209	206	3	0
- Transshipment	2	2	0	0
- Incorporation	325	325	0	0
- For goods covered by the torture regulation (Permanent or Temporary)	4	4	0	0
SITCLs	82	82	0	0
OIELs	111	105	6	0
- Standard	96	90	6	0
- Dealer-to-dealer	8	8	0	0
- Cryptographic	4	4	0	0
- Media	1	1	0	0
- Continental Shelf	2	2	0	0
Global Project Licences	0	0	0	0
OITCLs	5	4	1	0

Table notes for licensing statistics table:

SIEL and OIEL sub-types are mutually exclusive. SIEL Transshipments and Incorporations are permanent, but counted separately to Standard Permanent and Standard Temporary licences. Counts of licence applications Issued, Refused/Rejected and Revoked count the decisions made during the period on the licence, whenever the case has been closed or re-opened then re-closed.

Overall Processing Statistics

Processing statistics covering the period 1st October 2016 to 31st December 2016

	Applications completed in 20 working days	% applications completed in 20 working days	Applications completed in 60 working days	% applications completed in 60 working days	Median processing time
SIELs	3461	80	4229	98	11 days
- Permanent Standard	3009	80	3651	97	11 days
- Temporary Standard	185	76	240	98	12 days
- Transhipment	4	80	5	100	20 days
- Incorporation	260	77	329	98	12 days
- For goods covered by the torture regulation (Permanent or Temporary)	3	75	4	100	15 days
SITCLs	63	62	101	99	15 days
OIELs	40	27	66	45	65 days

- Continental Shelf	1	33	2	67	41 days
Global Project Licences	n/a	n/a	n/a	n/a	n/a
OITCLs	4	40	5	50	57 days

Open General Export Licences (OGLs)

OGLs can be used to export certain goods to certain destinations providing the terms and conditions of the OGL are met. See further information on military goods OGLs (<https://www.gov.uk/military-goods-ogels>) and dual-use goods OGLs (<https://www.gov.uk/dual-use-open-general-export-licences-explained>).

 components for military support aircraft [See footnote 4].
 military guidance/navigation equipment [See footnote 5].
 military helmets (2 licences) [See footnotes 1, 7].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value

1A004	1	£32,000
-------	---	---------

civil NBC detection systems [See footnote 2].

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1 (Rv)	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 3]

Rv - Some or all of which have subsequently been revoked.

Country Footnotes

1. Arms embargo sanctions in place for Afghanistan apply to those individuals, groups, undertakings and entities designated under the criteria stated in UN Security Council Resolution 2255 (2015), whose names are held on the list established pursuant to UN Security Council Resolution 1988 (2011). The EU implements these measures through Council Decision 2011/486/CFSP, as amended; as well as Council Regulation (EU) No 753/2011, as amended.
2. The Afghanistan (Sanctions) (EU Exit) Regulations 2020, which fully came into force on 31 December 2020, implement UK obligations under United Nations Security Council Resolution 2255 (2015). The Regulations impose trade sanctions prohibitions and requirements which apply to the trade in military goods and military technology, which is to, or for the benefit of a designated person as well as the provision to, or for the benefit of a designated person of certain services which enable or facilitate the conduct of armed hostilities in Afghanistan. The Regulations make provision in respect of exceptions that apply and licences that may be available, in respect of prohibitions under this regime.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Non-military	2	£752,800
Total	2	£752,800

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£2,800
7A103	1	£750,000

inertial equipment [See footnote 1].
information security equipment.

Country Footnotes

1. The UK interprets the OSCE arms embargo for Armenia as prohibiting the export of any military goods or technology to any person, or to any destination, in Armenia. It has been UK practice occasionally to make an exemption in its interpretation of the embargo by approving exports of non-lethal military goods to humanitarian, media or peacekeeping organisations, where it is clear that the embargo was not intended to prevent those exports and there is a strong humanitarian case for them.

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	2	£21,785
Non-military	3	£133,000
Total	5	£154,785

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£19,340
ML11	1	£2,445

military communications equipment.
training hand grenades.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A001	1	£90,000
5A002	1	£33,000
6A002	1	£10,000

direct view imaging equipment.
information security equipment.
T telecommunications interception equipment [See footnote 1].

Country Footnotes

- On 20 June 2011 the EU adopted additional restrictions against Belarus, including prohibitions on the supply of arms and related material, as well as on equipment which might be used for internal repression. Restrictive measures currently in force with respect to Belarus are set out in Council Decision 2012/642/CFSP, as amended; as well as Council Regulation (EC) No 765/2006, as amended.
 All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

- Licence granted for accessories / spare parts. Government end use.
- Licence granted for accessories / spare parts. Civilian / commercial end use.

NBC protective/defensive equipment.

Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

Bosnia and Herzegovina

Processing Statistics (excluding amendments)

Median processing time SIELs	21 days
% and number of SIELs completed in 20 working days	40% (2)
% and number of SIELs completed in 60 working days	100% (5)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	12 days
% and number of OIELs completed in 20 working days	100% (1)
% and number of OIELs completed in 60 working days	100% (1)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	1	£127,000
Non-military	3	£311,258
Total	4	£438,258

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	1	£127,000

T components for military aero-engines.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B201	2	£310,000
2D202	1	£0
2E201	1	£0
5A002	1	£1,258

information security equipment.
 machine tools (2 licences) [See footnote 1].
 software for machine tools.
 technology for machine tools.

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Armed forces end use.

Botswana

Processing Statistics (excluding amendments)

Median processing time SIELs	13 days
% and number of SIELs completed in 20 working days	100% (6)
% and number of SIELs completed in 60 working days	100% (6)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	103 days
% and number of OIELs completed in 20 working days	0% (0)
% and number of OIELs completed in 60 working days	20% (1)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	4	£130,640
Non-military	2	£8,506
Total	6	£139,146

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£122,500
ML6	2	£8,140

general military vehicle components.
military support vehicles.
sporting guns (1).
sporting guns (2).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C351	1	£6
5D002	1	£8,500

information security software.
viruses.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment
2	P	information security equipment, information security software, software for information security equipment, technology for information security equipment
3	P	components for artillery, components for military combat vehicles, components for mortars, components for naval gun installations/mountings, components for naval guns, components for turrets [See footnote 1]
4	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 2]
5	T	accelerometers, guidance/navigation equipment, gyroscopes, inertial equipment

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Armed forces end use.
2. Licence granted for accessories / spare parts. Government end use.

Brazil

Processing Statistics (excluding amendments)

% and number of SIELs completed in 20 working days	93% (38)
% and number of SIELs completed in 60 working days	100% (41)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	89 days
% and number of OIELs completed in 20 working days	18% (2)
% and number of OIELs completed in 60 working days	36% (4)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)

Issued

Types of goods on licence	No. of licences	Value
Military	13	£1,866,343
Non-military	21	£5,999,538
Both Military and Non-military	1	£41,877
Total	35	£7,907,758

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£13,900
ML9	1	£7,388
ML10	6	£777,521
ML11	4	£1,063,000
ML18	1	£4,534

ballistic test equipment [See footnote 9].
 components for combat aircraft (2 licences) [See footnote 10].
 components for military helicopters.
 components for military support aircraft (3 licences).
 components for submarines.
 components for surface-to-surface missiles.
 general military aircraft components.
 military communications equipment.
 military guidance/navigation equipment (3 licences) [See footnote 2].
 software for surface-to-surface missiles.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C003	3	£1,838
1A004	1	£38,307
1C010	1	£450,000
1C234	1	£8,125
1C240	1	£4,000
2B006	1	£10,000
2B350	2	£3,261,897

6A005	1	£84,000
6D002	1	£400
7A002	1	£61,760
7A003	1	£367,000
7A103	3	£148,220
8A002	1	£82,190

civil explosive detection/identification equipment.
 corrosion resistant chemical manufacturing equipment (2 licences) [See footnote 1].
 deuterium compounds (3 licences).
 T dimensional measuring equipment.
 fibrous/filamentary materials.
 guidance/navigation equipment (2 licences).
 gyroscopes.
 inertial equipment (2 licences).
 information security equipment (2 licences).
 information security software.
 lasers.
 nickel powders.
 software for radar equipment.
 submersible equipment.
 technology for corrosion resistant chemical manufacturing equipment [See footnote 11].
 technology for information security software.
 triggered spark gaps.
 zirconium.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£37,877
ML11	1	£4,000

components for military communications equipment.
 information security equipment.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	1	£9,600
Total	1	£9,600

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more

than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	1	£9,600

components for military support aircraft [See footnote 5].

The items being incorporated in this destination are ultimately destined for all or some of the following:

Czech Republic

Portugal

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment
2	P	components for marine position fixing equipment [See footnote 3]
3	P	components for artillery, components for military combat vehicles, components for mortars, components for naval gun installations/mountings, components for naval guns, components for turrets [See footnote 4]
4	P	components for machine guns, components for mortars, equipment for the use of machine guns, equipment for the use of mortars, gun mountings, weapon cleaning equipment [See footnote 6]
5	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 7]
6	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for launching/handling/control/support equipment for unmanned air vehicles, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military radars, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for military underwater remotely operated vehicles, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for

		unmanned air vehicles, general military vehicle components, general naval vessel components, military electronic equipment, naval electrical/electronic equipment, technology for aircraft carriers, technology for combat aircraft, technology for combat helicopters, technology for combat naval vessels, technology for general military vehicle components, technology for general naval vessel components, technology for launching/handling/control/support equipment for unmanned air vehicles, technology for military auxiliary/support vessels, technology for military combat vehicles, technology for military helicopters, technology for military patrol/assault craft, technology for military radars, technology for military support aircraft, technology for military support vehicles, technology for military training aircraft, technology for military underwater remotely operated vehicles, technology for submarines, technology for tanks, technology for unmanned air vehicles [See footnote 8]
7	P	artillery ammunition, components for artillery, components for combat aircraft, components for combat naval vessels, components for launching/handling/control equipment for rockets, components for machine guns, components for military combat vehicles, components for military communications equipment, components for military electronic equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, components for mortars, components for naval gun installations/mountings, components for naval guns, components for pistols, components for sniper rifles, components for sporting guns, components for submarines, general military aircraft components, general military vehicle components, general naval vessel components, military support vehicles, small arms ammunition, surface launched rockets [See footnote 12]

9A004	1	£6,500,000
PL9010	1	£1,200

information security equipment.

materials containing natural uranium.
 products containing depleted uranium.
 software for information security equipment.
 spacecraft.
 sporting shotguns (3).
 technology for information security equipment.
 technology for materials containing enriched uranium (2 licences).
 technology for materials containing plutonium-239 (2 licences).
 technology for nuclear fuel reprocessing equipment.
 technology for nuclear reactor fuel element fabrication equipment (2 licences).
 technology for nuclear reactors.
 tritium.
 viruses.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£6,516
PL9010	2	£1,419

components for sporting guns (2 licences).
 components for sporting shotguns.
 sporting guns (1).
 sporting guns (73).
 sporting shotguns (1).
 sporting shotguns (11).
 weapon sights.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	8	£2,116,474
Total	8	£2,116,474

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML3	2	£11,991
ML5	1	£112,815
ML6	2	£1,927,296
ML10	2	£62,341
ML11	1	£2,031

components for artillery ammunition (2 licences).
 components for combat aircraft.
 components for targeting equipment.
 general military aircraft components.
 general military vehicle components (2 licences).

military electronic equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

- Australia
- Bulgaria
- Ghana
- Greece
- India
- Italy
- Lithuania
- Mexico
- Morocco
- Peru
- Romania
- Saudi Arabia
- Slovakia
- Taiwan
- Turkey
- United States of America

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	assault rifles, blank/inert ammunition, components for assault rifles, components for machine guns, components for pistols, components for rifles, components for sniper rifles, components for sporting guns, machine guns, pistols, rifles, sniper rifles, sporting guns, training small arms ammunition [See footnote 1]
2	P	anti-riot/ballistic shields, body armour, bomb suits, civil body armour, components for all-wheel drive vehicles with ballistic protection, components for anti-riot/ballistic shields, components for body armour, components for bomb suits, components for civil body armour, components for military combat vehicles, components for military helmets, components for military support vehicles, components for military trailers, components for tanks, components for turrets, general military vehicle components, military helmets, technology for all-wheel drive vehicles with ballistic protection, technology for anti-riot/ballistic shields, technology for body armour, technology for bomb suits, technology for general military vehicle components, technology for military combat vehicles, technology for military helmets, technology for military support vehicles, technology for military trailers, technology for tanks, technology for turrets
3	T	components for electronic countermeasure equipment, components for electronic warfare equipment, components for military electronic equipment, components for military infrared/thermal imaging equipment, components for military scenario simulation equipment, components for military training aircraft, electronic countermeasure equipment, electronic warfare equipment, equipment for the use of electronic warfare equipment, military electronic equipment, military infrared/thermal imaging equipment, military scenario simulation equipment, military training aircraft, technology for electronic countermeasure equipment, technology for electronic warfare equipment, technology for military electronic equipment, technology for military infrared/thermal imaging equipment, technology for military scenario simulation equipment [See footnote 2]
4	P	command communications control and intelligence software, software enabling equipment to function as military communications equipment, technology for command communications control and intelligence software

5	P	components for artillery, components for military combat vehicles, components for mortars, components for naval gun installations/mountings, components for naval guns, components for turrets [See footnote 3]
6	P	components for machine guns, components for mortars, equipment for the use of machine guns, equipment for the use of mortars, gun mountings, weapon cleaning equipment [See footnote 4]
7	P	components for gun mountings, components for weapon sights, weapon sights
8	P	technology for composite laminates, technology for composite structures, technology for gas turbine engines, technology for maraging steels, technology for metal alloy materials, technology for metal alloys in particulate form, technology for metal alloys in powder form [See footnote 5]
9	T	projectile launchers
10	T	assault rifles, combat shotguns, components for assault rifles, components for combat shotguns, components for gun mountings, components for machine guns, components for pistols, components for rifles, components for smooth-bore weapons, components for sniper rifles, components for sporting guns, components for sporting shotguns, components for weapon sights, gun mountings, machine guns, pistols, rifles, smooth-bore weapons, sniper rifles, sporting guns, sporting shotguns, weapon cleaning equipment, weapon sights [See footnote 6]

Country Footnotes

1. UN Security Council Resolution 2127 (2013) established an arms embargo to restrict exports of arms, or related material, and of training, technical or financial assistance related to military activities; exemptions apply to some UN, humanitarian, peacekeeping and government entities. UNSCR 2339 (2017) extended the arms embargo until 31 January 2018 and amended the designation criteria.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	3	£762,959
Total	3	£762,959

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	2	£762,533
ML11	1	£176
ML22	1	£250

components for military aircrew life support equipment.
 components for military communications equipment [See footnote 20].
 components for military training aircraft (2 licences).
 military aircraft ground equipment.
 technology for military communications equipment [See footnote 20].

The items being incorporated in this destination are ultimately destined for all or some of the following:

Pakistan
 Singapore

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for marine position fixing equipment [See footnote 32]
2	P	components for military infrared/thermal imaging equipment, components for periscopes, components for weapon night sights, equipment for the production of general military vehicle components, equipment for the production of military infrared/thermal imaging equipment, equipment for the production of periscopes, equipment for the production of weapon night sights, general military vehicle components, periscopes, technology for military infrared/thermal imaging equipment, technology for periscopes, technology for weapon night sights, weapon night sights [See footnote 35]
3	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 40]
4	P	technology for composite laminates, technology for composite structures, technology for gas turbine engines, technology for maraging steels, technology for metal alloy materials, technology for metal alloys in particulate form, technology for metal alloys in powder form [See footnote 41]

Country Footnotes

1. A declaration by the Madrid European Council on 27 June 1989 established an arms embargo on China. The UK interpretation of this embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression.

All licences for this destination were approved in accordance with the sanctions in place.

military helmets [See footnote 1].

Country Footnotes

1. Following the adoption of UNSCR 1807 (2008), the UN arms embargo with respect to the DRC only applies to non-governmental entities and individuals. The embargo was most recently renewed through UNSCR 2293 (2016) which extended the arms embargo until 1 July 2017, and currently prohibits the supply, sale or transfer of arms and related materiel to all non-governmental entities and individuals operating in the DRC; some exports must be approved in advance by the Sanctions Committee.

All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Humanitarian end use.
2. Licence granted for accessories / spare parts. International Organisation end use.
3. Licence granted for accessories / spare parts. Civilian / commercial end use.
4. Licence granted for end use by a international organisation.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	1	£2,500
Total	1	£2,500

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£2,500

gun silencers.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	anti-riot/ballistic shields, body armour, bomb suits, civil body armour, components for all-wheel drive vehicles with ballistic protection, components for anti-riot/ballistic shields, components for body armour, components for bomb suits, components for civil body armour, components for military combat vehicles, components for military helmets, components for military support vehicles, components for military trailers, components for tanks, components for turrets, general military vehicle components, military helmets, technology for all-wheel drive vehicles with ballistic protection, technology for anti-riot/ballistic shields, technology for body armour, technology for bomb suits, technology for general military vehicle components, technology for military combat vehicles, technology for military helmets, technology for military support vehicles, technology for military trailers, technology for tanks, technology for turrets
2	P	command communications control and intelligence software, software enabling equipment to function as military communications equipment, technology for command communications control and intelligence software

Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	T	assault rifles, combat shotguns, components for assault rifles, components for combat shotguns, components for gun mountings, components for machine guns, components for pistols, components for rifles, components for smooth-bore weapons, components for sniper rifles, components for sporting guns, components for sporting shotguns, components for weapon sights, gun mountings, machine guns, pistols, rifles, smooth-bore weapons, sniper rifles, sporting guns, sporting shotguns, weapon cleaning equipment, weapon sights

Ethiopia

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	1	£0
Non-military	2	£1,400,000
Total	3	£1,400,000

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML22	1	£0

technology for military support vehicles [See footnote 1].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A003	1	£1,300,000
PL9010	1	£100,000

imaging cameras.
sporting shotguns (1).

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Government end use.

PL5017	2	£5,365

T blank/inert ammunition.
 components for air-to-air missiles.
 components for air-to-surface missiles.
 components for assault rifles.
 components for combat aircraft.
 components for grenade launchers.
 components for high power RF weapon systems.

- components for launching/handling/control equipment for missiles.
- components for machine guns.
- components for military aero-engines.
- components for military communications equipment.
- T components for military improvised explosive device decoying/detection/disposal/jamming equipment.
- components for NBC detection equipment (3 licences).
- components for pistols.
- components for sporting guns.
- components for submarines.
- components for targeting equipment.
- components for unmanned air vehicles.
- energetic materials additives.
- equipment for the use of military communications equipment.
- T equipment for the use of military improvised explosive device decoying/detection/disposal/jamming equipment.
- equipment for the use of NBC detection equipment (2 licences).
- general naval vessel components (10 licences).
- T machine guns (1).
- military combat vehicles.
- military electronic equipment.
- military guidance/navigation equipment.
- T military improvised explosive device decoying/detection/disposal/jamming equipment.
- military sonars.
- military support vehicles (2 licences).
- NBC detection equipment (4 licences).
- T pistols (13) (2 licences).
- T projectile launchers (2 licences).
- propellants.
- small arms ammunition.
- T small arms ammunition.
- T software for military improvised explosive device decoying/detection/disposal/jamming equipment.
- software for NBC detection equipment (2 licences).
- software for test equipment for military guidance/navigation equipment.
- T sporting guns (1).
- tear gas/riot control agents.
- technology for military image intensifier equipment.
- technology for NBC detection equipment (2 licences).
- technology for submarines.
- training small arms ammunition (2 licences).
- unfinished products for military aero-engines.
- weapon night sights.
- weapon sights.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C001	1	£1,800
1C233	2	£7,735
PL9010	1	£1,000

- devices containing enriched lithium.
- electromagnetic wave absorbing materials.
- products containing enriched lithium.
- sporting shotguns (1).

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£172
ML7	1	£158,244

ML22	1	£410
PL5017	1	£11,884

components for civil NBC detection software.
 components for NBC detection equipment.
 equipment for the use of NBC detection equipment.
 NBC detection equipment.
 technology for NBC detection equipment.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	24	£537,040
Total	24	£537,040

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	4	£42,796
ML5	1	£5,000
ML6	1	£320,000
ML9	7	£73,857
ML10	7	£77,956
ML11	2	£7,431
ML14	1	£4,000
ML21	1	£6,000
ML22	1	£0

components for combat aircraft [See footnote 7].
 components for combat helicopters (4 licences).
 components for launching/handling/control equipment for munitions (3 licences).
 components for military aero-engines.
 components for military helicopters.
 components for military radars.
 components for military scenario simulation equipment.
 components for naval electrical/electronic equipment.
 components for submarines (5 licences).
 components for surface-to-surface missiles.
 equipment for the use of periscopes (2 licences).
 general military vehicle components.
 general naval vessel components.
 software for military radars [See footnote 4].
 technology for military radars [See footnote 4].

The items being incorporated in this destination are ultimately destined for all or some of the following:

Algeria
 Australia
 Belgium
 Egypt

Finland
 France
 Greece
 Israel
 Italy
 Jordan
 Netherlands
 New Zealand
 Norway
 Oman
 Pakistan
 Saudi Arabia
 Singapore
 South Korea
 Spain
 Sweden
 Turkey
 United Arab Emirates
 United Kingdom

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	explosives, non-military detonators [See footnote 1]
2	P	Software for modelling/simulating military operation scenarios, technology for Software for modelling/simulating military operation scenarios
3	P	civil aero-engines, components for civil aero-engines, components for marine engines, technology for civil aero-engines [See footnote 2]
4	P	assault rifles, blank/inert ammunition, components for assault rifles, components for machine guns, components for pistols, components for rifles, components for sniper rifles, components for sporting guns, machine guns, pistols, rifles, sniper rifles, sporting guns, training small arms ammunition [See footnote 3]
5	P	triggered spark gaps
6	P	anti-riot/ballistic shields, body armour, bomb suits, civil body armour, components for all-wheel drive vehicles with ballistic protection, components for anti-riot/ballistic shields, components for body armour, components for bomb suits, components for civil body armour, components for military combat vehicles, components for military helmets, components for military support vehicles, components for military trailers, components for tanks, components for turrets, general military vehicle components, military helmets, technology for all-wheel drive vehicles with ballistic protection, technology for anti-riot/ballistic shields, technology for body armour, technology for bomb suits, technology for general military vehicle components, technology for military combat vehicles, technology for military helmets, technology for military support vehicles, technology for military trailers, technology for tanks, technology for turrets

7	T	components for electronic countermeasure equipment, components for electronic warfare equipment, components for military electronic equipment, components for military infrared/thermal imaging equipment, components for military scenario simulation equipment, components for military training aircraft, electronic countermeasure equipment, electronic warfare equipment, equipment for the use of electronic warfare equipment, military electronic equipment, military infrared/thermal imaging equipment, military scenario simulation equipment, military training aircraft, technology for electronic countermeasure equipment, technology for electronic warfare equipment, technology for military electronic equipment, technology for military infrared/thermal imaging equipment, technology for military scenario simulation equipment [See footnote 5]
8	P	components for combat helicopters, components for military aero-engines, environmental test facilities for military aero-engines, equipment for the production of military aero-engines, equipment for the use of military aero-engines, military aero-engines, military aircraft ground equipment, software for military aero-engines, technology for combat helicopters, technology for environmental test facilities for military aero-engines, technology for equipment for the production of military aero-engines, technology for military aero-engines, technology for military aircraft ground equipment, technology for unfinished products for military aero-engines, unfinished products for military aero-engines [See footnote 6]
9	T	projectile launchers
10	P	command communications control and intelligence software, software enabling equipment to function as military communications equipment, technology for command communications control and intelligence software
11	P	neutron generators, non-military detonators, non-military firing sets
12	P	software for uranium isotope separation equipment, technology for uranium isotope separation equipment [See footnote 8]
13	P	devices for initiating explosives, explosives, linear cutting explosive charges, linear shaped cutting charges, non-military detonators, non-military firing sets

Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	T	assault rifles, combat shotguns, components for assault rifles, components for combat shotguns, components for gun mountings, components for machine guns, components for pistols, components for rifles, components for smooth-bore weapons, components for sniper rifles, components for sporting guns, components for sporting shotguns, components for weapon sights, gun mountings, machine guns, pistols, rifles, smooth-bore weapons, sniper rifles, sporting guns, sporting shotguns, weapon cleaning equipment, weapon sights

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	6	£1,949,371
Non-military	44	£47,952,835
Total	50	£49,902,206

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£1,232
ML3	1	£756,000
ML4	3	£1,191,639
ML13	1	£500

blank/inert ammunition [See footnote 1].

body armour.

components for military improvised explosive device decoying/detection/disposal/jamming equipment (2 licences).

military improvised explosive device decoying/detection/disposal/jamming equipment (2 licences) [See footnote 12].

weapon sights [See footnote 9].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	2	£66,080
1C351	3	£1,154
3A001	1	£5,590
3A101	1	£8,900,000
3E101	1	£120,000
5A002	26	£29,959,068
5D002	10	£8,206,660
5E002	1	£43,592
6A001	1	£6,018
6A002	2	£480,000
6A003	4	£107,010
6A203	1	£27,642
7A101	1	£20
7A103	1	£30,000

accelerometers [See footnote 2].

bacteria.

civil explosive detection/identification equipment.

T

civil explosive detection/identification equipment.

extended temperature range integrated circuits.
 focal plane arrays (2 licences).
 imaging cameras (4 licences).
 inertial equipment.
 information security equipment (26 licences) [See footnote 11].
 information security software.
 instrumentation cameras.
 software for information security equipment (9 licences).
 technology for information security equipment [See footnote 11].
 technology for X-ray generators [See footnote 8].
 T towed hydrophone arrays.
 toxins (2 licences).
 X-ray accelerators [See footnote 8].
 X-ray generators [See footnote 8].

SIELs for goods covered by the torture regulation

Issued

Types of goods on licence	No. of licences	Value
Goods covered by the torture regulation	1	£7,566
Goods covered by the torture regulation and Military	0	£0
Goods covered by the torture regulation and Non-military	0	£0
Goods covered by the torture regulation and Both Military and Non-military	0	£0
Total	1	£7,566

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Goods covered by the torture regulation

Control Entry	No. of licences with goods rated using Control Entry	Value
HR AIII	1	£7,566

shackles [See footnote 10].

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for military infrared/thermal imaging equipment, components for periscopes, components for weapon night sights, equipment for the production of general military vehicle components, equipment for the production of military infrared/thermal imaging equipment, equipment for the production of periscopes, equipment for the production of weapon night sights, general military vehicle components, periscopes, technology for military infrared/thermal imaging equipment, technology for periscopes, technology for weapon night sights, weapon night sights [See footnote 3]
2	P	information security equipment, information security software [See footnote 4]
3	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components

		for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 5]
4	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 6]
5	P	technology for composite laminates, technology for composite structures, technology for gas turbine engines, technology for maraging steels, technology for metal alloy materials, technology for metal alloys in particulate form, technology for metal alloys in powder form [See footnote 7]

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.
2. Licence granted for accessories / spare parts. Civilian / commercial end use.
3. Licence granted for accessories / spare parts. Civilian / commercial end use.
4. Licence granted for cryptographic equipment for commercial use. Civilian / commercial end use.
5. Licence granted for accessories / spare parts. Government end use.
6. Licence granted for accessories / spare parts. Civilian / commercial end use.
7. Licence granted for accessories / spare parts. Civilian / commercial end use.
8. Licence granted for accessories / spare parts. Civilian / commercial end use.
9. Licence granted for accessories / spare parts. Civilian / commercial end use.
10. Licence granted for accessories / spare parts. Law enforcement agency end use.
11. Licence granted for equipment to improve broadband connectivity. Civilian / commercial end use.
12. Licence granted for explosive detection / disposal purposes. Law enforcement agency end use.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	5	£3,566,926
Non-military	1	£191
Total	6	£3,567,117

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML9	1	£27,158
ML10	4	£3,539,767

components for military aircraft ground equipment.
 components for military helicopters (3 licences).
 general naval vessel components [See footnote 29].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C202	1	£191

metal alloy cylindrical forms.

The items being incorporated in this destination are ultimately destined for all or some of the following:

- Spain

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment
2	P	military auxiliary/support vessels, military electronic equipment, military underwater remotely operated vehicles, naval communications equipment, naval electrical/electronic equipment, technology for military auxiliary/support vessels, technology for military electronic equipment, technology for military underwater remotely operated vehicles, technology for naval communications equipment, technology for naval electrical/electronic equipment [See footnote 7]
3	P	components for combat aircraft, components for military training aircraft, equipment for the use of combat aircraft, equipment for the use of military training aircraft, military aircraft ground equipment, technology for combat aircraft, technology for military aircraft ground equipment, technology for military training aircraft [See footnote 11]
4	P	aircraft cannons, components for aircraft cannons, components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military helicopters, components for military support aircraft, components for military training aircraft, components for submarines, components for weapon mountings, equipment for the use of aircraft cannons, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, general naval vessel components, military aircraft ground equipment, military patrol/assault craft [See footnote 18]
5	P	components for air launched rockets, components for air-to-air missiles, components for bombs, components for decoying/countermeasure equipment, components for devices containing military pyrotechnic materials, components for surface launched rockets, components for surface-to-air missiles, components for torpedoes, technology for air launched rockets, technology for air-to-air missiles, technology for decoying/countermeasure equipment, technology for devices containing military pyrotechnic materials, technology for surface launched rockets, technology for surface-to-air missiles, technology for torpedoes [See footnote 22]

6	P	components for combat helicopters, components for military aero-engines, environmental test facilities for military aero-engines, equipment for the production of military aero-engines, equipment for the use of military aero-engines, military aero-engines, military aircraft ground equipment, software for military aero-engines, technology for combat helicopters, technology for environmental test facilities for military aero-engines, technology for equipment for the production of military aero-engines, technology for military aero-engines, technology for military aircraft ground equipment, technology for unfinished products for military aero-engines, unfinished products for military aero-engines [See footnote 28]
7	P	artillery, components for artillery, components for equipment for the use of artillery, components for fire location equipment, components for military guidance/navigation equipment, components for military radars, components for targeting equipment, components for weapon control equipment, components for weapon night sights, equipment for the use of artillery, fire location equipment, military guidance/navigation equipment, military radars, targeting equipment, weapon control equipment, weapon night sights, weapon sight mounts, weapon sights [See footnote 31]
8	P	military aircraft head-up/down displays, military guidance/navigation equipment, software for military aircraft head-up/down displays, software for military guidance/navigation equipment, software for targeting equipment, targeting equipment, technology for military aircraft head-up/down displays, technology for military guidance/navigation equipment, technology for targeting equipment
9	P	components for air-to-air missiles, components for equipment for the production of air-to-air missiles, components for launching/handling/control equipment for missiles, components for military aircraft head-up/down displays, components for military electronic equipment, equipment for the production of air-to-air missiles, equipment for the use of air-to-air missiles, equipment for the use of military aircraft ground equipment, equipment for the use of military aircraft head-up/down displays, equipment for the use of military electronic equipment, inert air-to-air missiles, launching/handling/control equipment for missiles, military aircraft ground equipment, military aircraft head-up/down displays, military electronic equipment, technology for air-to-air missiles, technology for launching/handling/control equipment for missiles, technology for military aircraft head-up/down displays, technology for military electronic equipment, technology for production installations for air-to-air missiles, technology for production installations for launching/handling/control equipment for missiles, unfinished products for air-to-air missiles [See footnote 32]
10	P	spacecraft [See footnote 34]
11	P	components for military training aircraft, general military aircraft components [See footnote 36]
12	P	information security equipment, information security software [See footnote 37]
13	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 38]
14	P	components for military training aircraft, general military aircraft components [See footnote 39]
15	P	components for combat aircraft, components for equipment for the production of combat aircraft, equipment for the production of combat aircraft, military aircraft ground equipment, technology for military helicopters [See footnote 40]
16	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for launching/handling/control/support equipment for unmanned air vehicles,

		components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military radars, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for military underwater remotely operated vehicles, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for unmanned air vehicles, general military vehicle components, general naval vessel components, military electronic equipment, naval electrical/electronic equipment, technology for aircraft carriers, technology for combat aircraft, technology for combat helicopters, technology for combat naval vessels, technology for general military vehicle components, technology for general naval vessel components, technology for launching/handling/control/support equipment for unmanned air vehicles, technology for military auxiliary/support vessels, technology for military combat vehicles, technology for military helicopters, technology for military patrol/assault craft, technology for military radars, technology for military support aircraft, technology for military support vehicles, technology for military training aircraft, technology for military underwater remotely operated vehicles, technology for submarines, technology for tanks, technology for unmanned air vehicles [See footnote 42]
17	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 43]
18	P	technology for composite laminates, technology for composite structures, technology for gas turbine engines, technology for maraging steels, technology for metal alloy materials, technology for metal alloys in particulate form, technology for metal alloys in powder form [See footnote 44]
19	P	components for military combat vehicles, components for military support vehicles, general military vehicle components [See footnote 46]
20	T	assault rifles, combat shotguns, components for assault rifles, components for combat shotguns, components for gun mountings, components for machine guns, components for pistols, components for rifles, components for smooth-bore weapons, components for sniper rifles, components for sporting guns, components for sporting shotguns, components for weapon sights, gun mountings, machine guns, pistols, rifles, smooth-bore weapons, sniper rifles, sporting guns, sporting shotguns, weapon cleaning equipment, weapon sights [See footnote 50]

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	38	£33,193,741
Non-military	19	£2,333,927
Both Military and Non-military	2	£444,750
Total	59	£35,972,418

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	5	£788,837
ML2	1	£164,000
ML4	1	£2,000
ML5	4	£189,348
ML9	1	£725,000
ML10	20	£30,131,137
ML11	6	£903,317
ML13	1	£5,887
ML15	2	£153,420
ML21	5	£108,330
ML22	6	£21,461
PL5017	3	£1,004

- T body armour [See footnote 5].
- combat helicopters.
- T components for attack alerting/warning equipment.
- T components for body armour [See footnote 5].
- components for combat aircraft.
- components for combat helicopters.
- components for combat naval vessels.
- components for gun mountings [See footnote 10].
- components for military aircrew life support equipment.
- components for military communications equipment (3 licences).
- T components for military communications equipment.
- components for military electronic equipment.
- components for military helicopters (4 licences).
- components for military support aircraft (5 licences).
- components for military training aircraft (5 licences).
- components for sniper rifles (2 licences) [See footnotes 10, 6].
- T components for surface-to-air missiles [See footnote 3].
- T components for surface-to-surface missiles [See footnote 3].
- T components for weapon cleaning equipment.
- T equipment for the use of attack alerting/warning equipment.
- T equipment for the use of electronic countermeasure equipment.
- equipment for the use of sniper rifles [See footnote 6].
- gun mountings [See footnote 10].
- gun silencers [See footnote 10].
- T launching/handling/control equipment for man portable air defence system missiles [See footnote 3].
- military aircraft ground equipment (3 licences).
- military communications equipment.
- T military communications equipment.
- T military guidance/navigation equipment [See footnote 19].
- T military helmets [See footnote 5].
- military image intensifier equipment.
- T military image intensifier equipment [See footnote 19].
- T military infrared/thermal imaging equipment [See footnote 19].
- periscopes [See footnote 9].
- T projectile launchers [See footnote 5].
- T rangefinding equipment [See footnote 19].
- sniper rifles (56) [See footnote 10].
- software enabling equipment to function as military communications equipment.
- software for attack alerting/warning equipment.
- software for military aircraft ground equipment.
- software for military communications equipment (2 licences).
- technology for combat helicopters.
- technology for military communications equipment (3 licences).
- technology for military training aircraft.

- T technology for sniper rifles [See footnote 10].
- T unmanned air vehicles [See footnote 5].
- weapon cleaning equipment (2 licences) [See footnotes 10, 6].
- T weapon cleaning equipment.
- T weapon night sights [See footnote 19].
- weapon sight mounts [See footnote 10].
- weapon sights (3 licences) [See footnote 10].
- T weapon sights [See footnote 19].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	3	£433,670
1C006	1	£5,500
1C350	1	£2,340
2B350	5	£42,878
2B351	1	£5,099
5A001	1	£200,000
5A002	3	£1,179,185
5E002	1	£1
6A003	5	£465,254

- chemicals used for industrial/commercial processes.
- civil explosive detection/identification equipment.
- civil NBC detection systems (2 licences) [See footnote 1].
- components for corrosion resistant chemical manufacturing equipment.
- corrosion resistant chemical manufacturing equipment (4 licences) [See footnote 12].
- electronics cooling fluids.
- imaging cameras (5 licences) [See footnotes 16, 4, 7, 8].
- information security equipment (3 licences) [See footnote 8].
- technology for information security equipment [See footnote 8].
- T telecommunications interception equipment [See footnote 14].
- toxic gas monitoring equipment.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A002	1	£26,500
6A003	1	£68,250
9A012	1	£250,000
ML5	1	£100,000
ML10	1	£0
ML15	1	£0
ML22	1	£0

- aircraft military communications equipment.
- civil unmanned air vehicles.
- command/control equipment for unmanned air vehicles.
- T direct view imaging equipment [See footnote 2].
- T imaging cameras [See footnote 2].
- launching/ground support equipment for unmanned air vehicles.
- military image recording/processing equipment.
- military infrared/thermal imaging equipment.
- T targeting equipment [See footnote 2].
- technology for aircraft military communications equipment.
- technology for military image recording/processing equipment.
- technology for military infrared/thermal imaging equipment.
- technology for unmanned air vehicles.
- unmanned air vehicles.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	1	£1,000
Total	1	£1,000

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£1,000

components for decoying/countermeasure equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

South Korea

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment
2	P	accessories for military cameras/photographic equipment, accessories for military image recording/processing equipment, aircraft military communications equipment, attack alerting/warning equipment, components for aircraft military communications equipment, components for attack alerting/warning equipment, components for combat aircraft, components for decoying/countermeasure equipment, components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of combat aircraft, components for equipment for the use of military training aircraft, components for launching/handling/control equipment for missiles, components for military aero-engines, components for military aircraft ground equipment, components for military aircraft head-up/down displays, components for military aircraft pressure refuellers, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military parachutes, components for military radars, components for military scenario simulation equipment, components for military training aircraft, components for military training equipment, components for sensor integration equipment, components for targeting equipment, components for weapon control equipment, decoying/countermeasure equipment, electronic countermeasure equipment, equipment for the development of combat aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the use of attack alerting/warning equipment, equipment for the use of combat aircraft, equipment for the use of electronic countermeasure equipment, equipment for the

		use of military radars, equipment for the use of military training aircraft, equipment for the use of sensor integration equipment, equipment for the use of targeting equipment, equipment for the use of weapon control equipment, launching/handling/control equipment for missiles, military aero-engines, military aircraft ground equipment, military aircraft head-up/down displays, military aircraft pressure refuellers, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military guidance/navigation equipment, military image intensifier equipment, military image recording/processing equipment, military imaging radar sensor equipment, military infrared/thermal imaging equipment, military parachutes, military radars, military scenario simulation equipment, military training equipment, sensor integration equipment, software for combat aircraft, software for military communications equipment, software for military guidance/navigation equipment, software for military training aircraft, targeting equipment, technology for combat aircraft, technology for military training aircraft, technology for software for combat aircraft, technology for software for military communications equipment, technology for software for military guidance/navigation equipment, technology for software for military training aircraft, test models for combat aircraft, test models for military training aircraft, unfinished products for combat aircraft, unfinished products for military training aircraft, weapon control equipment [See footnote 11]
3	P	components for marine position fixing equipment [See footnote 13]
4	P	components for combat aircraft, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, general military aircraft components [See footnote 15]
5	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 17]
6	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 18]

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Government end use.
2. Licence granted for demonstration to potential customers. Government end use.

3. Licence granted for goods which will be returned to the UK.
4. Licence granted for accessories / spare parts. Armed forces end use.
5. Licence granted for demonstration to potential customers. Armed forces end use.
6. Licence granted for accessories / spare parts. Armed forces end use.
7. Licence granted for accessories / spare parts. Armed forces end use.
8. Licence granted for accessories / spare parts. Law enforcement agency end use.
9. Licence granted for accessories / spare parts. Armed forces end use.
10. Licence granted for accessories / spare parts. Armed forces end use.
11. Licence granted for accessories / spare parts. End use by the Air Force.

Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	marine vessel equipment, software for marine vessel equipment, technology for marine vessel equipment, technology for software for marine vessel equipment

Country Footnotes

1. On 12 April 2011, the EU adopted additional sanctions on Iran in response to the deterioration of the human rights situation. Council Decision 2011/235/CFSP, as amended, includes restrictions on the supply of equipment which might be used for internal repression, as well as of monitoring and interception equipment.

All exports for this destination were approved in accordance with the sanctions in place.

2. Following the implementation of the Joint Comprehensive Plan of Action, the flow of certain goods and services to Iran that were previously prohibited are now permitted. The restrictions currently in force with respect to Iran (counter proliferation) are set out in Council Decision 2010/413/CFSP (as amended) and EU Council Regulation 267/2012 (as amended). Measures include an arms embargo, which has one exemption for the export of non-combat vehicles with ballistic protection intended solely for protective use of EU and Member States personnel.

All exports for this destination were approved in accordance with the sanctions in place.

 promoting the supply of weapon cleaning equipment [See footnote 16].
 promoting the supply of weapon control equipment [See footnote 14].
 promoting the supply of weapon night sights [See footnote 14].
 promoting the supply of weapon sights [See footnote 14].
 sniper rifles (5).
 surface launched rockets.
 targeting equipment.
 weapon cleaning equipment.
 weapon sights.

Country Footnotes

1. General trade sanctions against Iraq, except prohibitions related to the sale or supply of arms and related materiel, were revoked by the UN Security Council resolution 1483 (22 May 2003), implemented in UK legislation on 14 June 2003 by the Iraq (United Nations Sanctions) Order 2003 [S.I. 2003/1519]. UNSCR 1546 (2004) continues the embargo on arms and related materiel against Iraq, but provides exemptions for equipment required by the Government of Iraq to serve the purposes of UNSCR 1546 (2004).

All exports for this destination were approved in accordance with the sanctions in place.

- components for decoying/countermeasure equipment.
- components for military communications equipment.

- T components for military equipment for initiating explosives.
components for military improvised explosive device decoying/detection/disposal/jamming equipment.
components for military support aircraft (4 licences).
components for military training aircraft (6 licences).
components for torpedoes.
components for unmanned air vehicles.
decoying/countermeasure equipment (2 licences).
equipment for the production of air-to-surface missiles.
general military aircraft components (2 licences).
military aero-engines.
military communications equipment.
- T military equipment for initiating explosives.
military helicopters.
military helmets (2 licences).
military improvised explosive device decoying/detection/disposal/jamming equipment.
- T military improvised explosive device decoying/detection/disposal/jamming equipment.
- T pistols (4).
- T small arms ammunition.
sporting guns (1).
- T sporting guns (1).
sporting guns (2).
technology for decoying/countermeasure equipment (3 licences).
training small arms ammunition.
unfinished products for military helicopters.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
PL9010	2	£9,730

- components for sporting shotguns.
- sporting shotguns (19).

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	63	£17,351,893
Both Military and Non-military	1	£52,085
Total	64	£17,403,979

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	2	£7,770
ML5	6	£167,784
ML9	1	£48,500
ML10	36	£16,704,725

ML11	8	£232,282
ML15	2	£66,585
ML16	8	£124,247
ML22	6	£0

components for air-to-surface missiles.
 components for combat aircraft (5 licences) [See footnote 13].
 components for combat helicopters (6 licences).
 components for electronic warfare equipment (6 licences) [See footnotes 2, 5, 8].
 components for military aero-engines (3 licences) [See footnotes 12, 9].
 components for military communications equipment.
 components for military electronic equipment (2 licences).
 components for military helicopters (11 licences).
 components for military imaging radar sensor equipment (2 licences).
 components for military radars (6 licences).
 components for military support aircraft (2 licences).
 components for military training aircraft (6 licences) [See footnotes 14, 16].
 components for naval electrical/electronic equipment.
 components for unmanned air vehicles [See footnote 1].
 general military aircraft components.
 launching/handling/control equipment for munitions.
 military aero-engines [See footnote 3].
 technology for combat aircraft (3 licences) [See footnotes 10, 7].
 technology for military support aircraft.
 technology for unfinished products for combat aircraft [See footnote 11].
 technology for unmanned air vehicles [See footnote 1].
 unfinished products for combat aircraft (4 licences) [See footnotes 10, 11, 7].
 unfinished products for general military aircraft components.
 unfinished products for military aero-engines.
 unfinished products for military radars.
 unfinished products for military support aircraft.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£24,503
5E002	1	£0
ML11	1	£27,302
ML21	1	£280

components for military communications equipment.
 information security equipment.
 military communications equipment.
 software for military communications equipment.
 technology for information security equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Algeria
 Australia
 Austria
 Azerbaijan
 Belgium
 Botswana
 Brazil
 Bulgaria
 Canada
 Chad
 Democratic Republic of Congo
 Denmark

Ecuador
 Finland
 France
 Germany
 Greece
 India
 Indonesia
 Israel
 Japan
 Kuwait
 Lithuania
 Luxembourg
 Malaysia
 Mexico
 Morocco
 Netherlands
 New Zealand
 Norway
 Oman
 Pakistan
 Peru
 Poland
 Portugal
 Qatar
 Romania
 Saudi Arabia
 Singapore
 Slovakia
 Spain
 Sweden
 Taiwan
 Turkey
 Turkmenistan
 United Arab Emirates
 United Kingdom
 United States of America

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	assault rifles, blank/inert ammunition, components for assault rifles, components for machine guns, components for pistols, components for rifles, components for sniper rifles, components for sporting guns, machine guns, pistols, rifles, sniper rifles, sporting guns, training small arms ammunition [See footnote 4]
2	P	triggered spark gaps

3	P	anti-riot/ballistic shields, body armour, bomb suits, civil body armour, components for all-wheel drive vehicles with ballistic protection, components for anti-riot/ballistic shields, components for body armour, components for bomb suits, components for civil body armour, components for military combat vehicles, components for military helmets, components for military support vehicles, components for military trailers, components for tanks, components for turrets, general military vehicle components, military helmets, technology for all-wheel drive vehicles with ballistic protection, technology for anti-riot/ballistic shields, technology for body armour, technology for bomb suits, technology for general military vehicle components, technology for military combat vehicles, technology for military helmets, technology for military support vehicles, technology for military trailers, technology for tanks, technology for turrets
4	T	components for electronic countermeasure equipment, components for electronic warfare equipment, components for military electronic equipment, components for military infrared/thermal imaging equipment, components for military scenario simulation equipment, components for military training aircraft, electronic countermeasure equipment, electronic warfare equipment, equipment for the use of electronic warfare equipment, military electronic equipment, military infrared/thermal imaging equipment, military scenario simulation equipment, military training aircraft, technology for electronic countermeasure equipment, technology for electronic warfare equipment, technology for military electronic equipment, technology for military infrared/thermal imaging equipment, technology for military scenario simulation equipment [See footnote 6]
5	P	command communications control and intelligence software, software enabling equipment to function as military communications equipment, technology for command communications control and intelligence software
6	P	neutron generators, non-military detonators, non-military firing sets
7	P	technology for air-to-surface missiles
8	P	body armour, components for body armour, military helmets
9	P	components for air-to-surface missiles, components for launching/handling/control equipment for missiles, environmental test facilities for air-to-surface missiles, equipment for the development of air-to-surface missiles, equipment for the production of air-to-surface missiles, equipment for the use of air-to-surface missiles, launching/handling/control equipment for missiles, software for air-to-surface missiles, software for launching/handling/control equipment for missiles, technology for air-to-surface missiles, technology for launching/handling/control equipment for missiles, technology for production installations for air-to-surface missiles, training air-to-surface missiles, unfinished products for air-to-surface missiles [See footnote 15]

Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	T	assault rifles, combat shotguns, components for assault rifles, components for combat shotguns, components for gun mountings, components for machine guns, components for pistols, components for rifles, components for smooth-bore weapons, components for sniper rifles, components for sporting guns, components for sporting shotguns, components for weapon sights, gun mountings, machine guns, pistols, rifles, smooth-bore weapons, sniper rifles, sporting guns, sporting shotguns, weapon cleaning equipment, weapon sights

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	1	£14,000
Non-military	4	£1,463,390
Total	5	£1,477,390

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML13	1	£14,000

bomb suits [See footnote 6].
 components for bomb suits [See footnote 6].
 military helmets [See footnote 6].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C351	1	£3
5A002	2	£1,348,000
5D002	2	£115,387

information security equipment (2 licences).
information security software.
software for information security equipment.
viruses.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 2]
2	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment
3	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 5]

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Non-military	4	£53,124
Total	4	£53,124

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£24,411
5D002	2	£4,857
6A001	1	£23,856

T information security equipment.
information security software (2 licences).
marine position fixing equipment.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment
2	T	accelerometers, guidance/navigation equipment, gyroscopes, inertial equipment

Rejected

Applications to this destination refused in full.

No.	Type	Goods Summary
1	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment

1	T	accelerometers, guidance/navigation equipment, gyroscopes, inertial equipment

Country Footnotes

- UN Security Council Resolution 1970 of 26 February 2011 established an embargo on the supply of arms and related material to Libya. The embargo was amended by Resolutions 2009 (2011) and 2095 (2013). Exemptions exist, with approval from the UN Sanctions Committee, for supplies of non-lethal military equipment and protective clothing for use by United Nations personnel, representatives of the media and humanitarian and development workers. Arms and related material intended solely for security or disarmament assistance to the Libyan government are also subject to exemption criteria.

EU Council Decision 2011/137/CFSP, as amended, restricts the provision of arms and related material; as well as of equipment that might be used for internal repression. Exemptions are in place for internal repression equipment intended solely for humanitarian or protective use, and for temporary export of protective clothing for use by United Nations and EU personnel, representatives of the media and humanitarian and development workers.

All exports for this destination must be in accordance with the sanctions in place.

Case & goods Footnotes

- Licence granted for cryptographic equipment for commercial use. Civilian / commercial end use.

Country Footnotes

1. A declaration by the Madrid European Council on 27 June 1989 established an arms embargo on China. This embargo also extends to arms exports to Macao. The UK interpretation of the embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression. All exports for this destination were approved in accordance with the sanctions in place.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Non-military	2	£157,000
Total	2	£157,000

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£32,000
7A103	1	£125,000

civil NBC detection systems.
inertial equipment.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 1]
2	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 2]

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.
2. Licence granted for accessories / spare parts. Civilian / commercial end use.

SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)

Issued

Types of goods on licence	No. of licences	Value
Military	4	£2,011,399
Total	4	£2,011,399

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	2	£8,399
ML10	1	£2,000,000
ML13	1	£3,000

military equipment for initiating explosives (2 licences).
military helicopters [See footnote 2].
military helmets.

SIELs - Transshipment

Issued

Types of goods on licence	No. of licences	Value
Military	1	£26,702
Total	1	£26,702

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry')As the items covered by issued SITLs merely pass through the UK, it would be misleading to compare the 'value' for these licences with the value of items originating in the UK.:

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML3	1	£26,702

small arms ammunition [See footnote 1].

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	12	£1,623,506
Non-military	1	£600
Both Military and Non-military	2	£778,716
Total	15	£2,402,822

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£985,139
ML3	1	£650
ML5	1	£6,195
ML7	5	£557,689
ML9	1	£68,964
ML13	1	£4,400
PL5017	1	£470

body armour.
 components for body armour.
 components for military radars.

- components for NBC protective/defensive equipment (5 licences).
- equipment for the use of military improvised explosive device decoying/detection/disposal/jamming equipment.
- T general naval vessel components.
- machine guns (1).
- military helmets.
- training wall/door breaching projectiles/ammunition.
- weapon night sights.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C001	1	£600

electromagnetic wave absorbing materials.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£4,470
6A003	1	£13,000
8A002	1	£5,000
ML3	1	£738,446
ML7	1	£11,700
ML11	1	£6,000
ML17	1	£100
PL9002	1	£0

- T civil NBC protection equipment.
- T civil riot control agent protection equipment.
- T components for NBC protective/defensive equipment.
- T imaging cameras.
- T military communications equipment.
- T military laser protection equipment.
- T NBC protective/defensive equipment.
- non-military energetic materials.
- T rebreathing swimming equipment.
- small arms ammunition.
- tear gas/irritant ammunition.
- training small arms ammunition.
- wall/door breaching projectiles/ammunition.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	8	£830,306
Total	8	£830,306

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML5	3	£15,986
ML10	5	£814,320

components for military helicopters (4 licences).
components for military radars (3 licences).
components for unmanned air vehicles.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	assault rifles, blank/inert ammunition, components for assault rifles, components for machine guns, components for pistols, components for rifles, components for sniper rifles, components for sporting guns, machine guns, pistols, rifles, sniper rifles, sporting guns, training small arms ammunition [See footnote 1]
2	P	components for air launched rockets, components for air-to-air missiles, components for bombs, components for decoying/countermeasure equipment, components for devices containing military pyrotechnic materials, components for surface launched rockets, components for surface-to-air missiles, components for torpedoes, technology for air launched rockets, technology for air-to-air missiles, technology for decoying/countermeasure equipment, technology for devices containing military pyrotechnic materials, technology for surface launched rockets, technology for surface-to-air missiles, technology for torpedoes [See footnote 2]
3	P	anti-riot/ballistic shields, body armour, bomb suits, civil body armour, components for all-wheel drive vehicles with ballistic protection, components for anti-riot/ballistic shields, components for body armour, components for bomb suits, components for civil body armour, components for military combat vehicles, components for military helmets, components for military support vehicles, components for military trailers, components for tanks, components for turrets, general military vehicle components, military helmets, technology for all-wheel drive vehicles with ballistic protection, technology for anti-riot/ballistic shields, technology for body armour, technology for bomb suits, technology for general military vehicle components, technology for military combat vehicles, technology for military helmets, technology for military support vehicles, technology for military trailers, technology for tanks, technology for turrets
4	T	components for electronic countermeasure equipment, components for electronic warfare equipment, components for military electronic equipment, components for military infrared/thermal imaging equipment, components for military scenario simulation equipment, components for military training aircraft, electronic countermeasure equipment, electronic warfare equipment, equipment for the use of electronic warfare equipment, military electronic equipment, military infrared/thermal imaging equipment, military scenario simulation equipment, military training aircraft, technology for electronic countermeasure equipment, technology for electronic warfare equipment, technology for military electronic equipment, technology for military infrared/thermal imaging equipment, technology for military scenario simulation equipment [See footnote 3]

5	P	components for combat helicopters, components for military aero-engines, environmental test facilities for military aero-engines, equipment for the production of military aero-engines, equipment for the use of military aero-engines, military aero-engines, military aircraft ground equipment, software for military aero-engines, technology for combat helicopters, technology for environmental test facilities for military aero-engines, technology for equipment for the production of military aero-engines, technology for military aero-engines, technology for military aircraft ground equipment, technology for unfinished products for military aero-engines, unfinished products for military aero-engines [See footnote 4]
6	P	neutron generators, non-military detonators, non-military firing sets
7	P	command communications control and intelligence software, technology for command communications control and intelligence software [See footnote 5]
8	T	assault rifles, combat shotguns, components for assault rifles, components for combat shotguns, components for gun mountings, components for machine guns, components for pistols, components for rifles, components for smooth-bore weapons, components for sniper rifles, components for sporting guns, components for sporting shotguns, components for weapon sights, gun mountings, machine guns, pistols, rifles, smooth-bore weapons, sniper rifles, sporting guns, sporting shotguns, weapon cleaning equipment, weapon sights [See footnote 6]

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	44	£18,435,393
Non-military	9	£178,070
Both Military and Non-military	2	£1,630,913
Total	55	£20,244,376

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	4	£10,987,958
ML4	2	£145,264
ML5	3	£20,305
ML6	22	£168,278
ML10	6	£430,395
ML11	2	£633
ML13	1	£195
ML14	3	£5,872,372
ML15	1	£2,882
ML21	3	£383,356
ML22	4	£208
PL5017	4	£423,547

- T aerial target equipment.
- body armour.
- T components for aerial target equipment.
- components for combat aircraft.
- T components for electronic countermeasure equipment.
- T components for electronic warfare equipment.
- components for ground vehicle military communications equipment (2 licences).
- components for gun mountings.
- components for machine guns (2 licences) [See footnote 5].
- components for military combat vehicles (9 licences).
- components for military communications equipment.
- components for military image intensifier equipment.
- components for military improvised explosive device decoying/detection/disposal/jamming equipment.
- components for military radars.
- T components for military scenario simulation equipment.
- components for military support aircraft (2 licences).
- components for military training aircraft.
- T components for military training aircraft.
- components for small arms training equipment.
- components for tanks (7 licences).
- components for weapon night sights.
- T electronic countermeasure equipment.
- T electronic warfare equipment.
- equipment for the operation of military aircraft in confined areas.
- T equipment for the use of aerial target equipment.
- equipment for the use of machine guns.
- general military vehicle components (5 licences).

- gun mountings (2 licences).
- machine guns (660).
- machine guns (740) [See footnote 5].
- military helmets.
- military improvised explosive device decoying/detection/disposal/jamming equipment (2 licences).
- T military scenario simulation equipment.
- T military training aircraft.
- military training equipment.
- software enabling equipment to function as military guidance/navigation equipment.
- software enabling equipment to function as military training equipment.
- software for military training equipment.
- T technology for aerial target equipment.
- technology for combat naval vessels (2 licences).
- T technology for electronic countermeasure equipment.
- T technology for equipment for the use of aerial target equipment.
- technology for military auxiliary/support vessels (2 licences).
- technology for military patrol/assault craft (2 licences).
- T technology for military scenario simulation equipment.
- T technology for military training aircraft.
- technology for software enabling equipment to function as military guidance/navigation equipment.
- weapon cleaning equipment (2 licences) [See footnote 5].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B350	2	£4,023
2B351	1	£403
5A002	2	£156,388
5D002	2	£2
End Use	1	£254
PL8001	1	£17,000

- accessories for gas detection equipment.
- components for gas detection equipment.
- corrosion resistant chemical manufacturing equipment (2 licences).
- T explosives detection equipment.
- gas detection equipment.
- information security equipment (2 licences).
- information security software (2 licences) [See footnote 11].
- toxic gas monitoring equipment [See footnote 2].

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A002	2	£724,980
6A003	2	£113,840
ML1	1	£599,333
ML5	1	£175,000
PL5017	1	£17,760

- T direct view imaging equipment (2 licences) [See footnote 12].
- T equipment for the use of weapon sights [See footnote 12].
- T imaging cameras (2 licences) [See footnote 12].
- T targeting equipment.
- T weapon night sights [See footnote 12].
- T weapon sight mounts [See footnote 12].
- T weapon sights [See footnote 12].

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 1]
2	P	attack alerting/warning equipment, components for attack alerting/warning equipment, components for combat naval vessels, components for electronic countermeasure equipment, components for military patrol/assault craft, components for military radars, components for military sonars, components for naval communications equipment, components for naval electrical/electronic equipment, components for naval gun installations/mountings, components for rangefinding equipment, components for recognition/identification equipment, components for sensor integration equipment, components for targeting equipment, components for weapon control equipment, electronic countermeasure equipment, electronic warfare equipment, equipment for the use of combat naval vessels, equipment for the use of military patrol/assault craft, military communications equipment, military electronic equipment, military guidance/navigation equipment, military radars, military sonars, naval communications equipment, naval electrical/electronic equipment, naval gun installations/mountings, rangefinding equipment, recognition/identification equipment, sensor integration equipment, targeting equipment, weapon control equipment [See footnote 3]
3	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment
4	P	components for combat aircraft, components for military training aircraft, equipment for the use of combat aircraft, equipment for the use of military training aircraft, military aircraft ground equipment, technology for combat aircraft, technology for military aircraft ground equipment, technology for military training aircraft [See footnote 4]
5	P	accessories for attack alerting/warning equipment, accessories for electronic countermeasure equipment, accessories for fire location equipment, accessories for military cameras/photographic equipment, accessories for military image recording/processing equipment, accessories for targeting equipment, accessories for weapon control equipment, airborne refuelling equipment, attack alerting/warning equipment, automatic piloting systems for parachuted loads, components for airborne refuelling equipment, components for attack alerting/warning equipment, components for automatic piloting systems for parachuted loads, components for electronic countermeasure equipment, components for fire location equipment, components for launching/handling/control equipment for munitions, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew safety equipment, components for military cameras/photographic equipment, components for military image recording/processing equipment, components for military parachutes, components for military scenario simulation equipment, components for military training aircraft, components for military training equipment, components for targeting equipment, components for weapon control equipment, countermeasure equipment for military cameras/photographic equipment, countermeasure equipment for military image recording/processing equipment, electronic countermeasure equipment, fire location equipment, launching/handling/control equipment for munitions, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military image recording/processing equipment, military parachutes, military parametric technical databases, military scenario simulation equipment, military training aircraft, military training equipment, software for attack alerting/warning equipment, software for electronic countermeasure equipment, software for fire location equipment, software for military communications equipment, software for military electronic equipment, software for military guidance/navigation equipment, software for military training aircraft, software for targeting equipment, software for weapon control equipment, targeting equipment, technology for attack alerting/warning equipment, technology for countermeasure equipment for military cameras/photographic equipment, technology for countermeasure equipment for military image recording/processing equipment, technology for electronic countermeasure equipment, technology for fire location equipment, technology for launching/handling/control equipment for munitions, technology for military aircraft ground equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military image recording/processing

		equipment, technology for military scenario simulation equipment, technology for military training aircraft, technology for military training equipment, technology for targeting equipment, technology for weapon control equipment, unfinished products for military training aircraft, weapon control equipment [See footnote 6]
6	P	aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military communications equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, military aircraft ground equipment, military aircraft head-up/down displays, military aircrew life support equipment, military communications equipment, signalling devices [See footnote 7]
7	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, equipment for the operation of military aircraft in confined areas, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military aircrew safety equipment
8	P	components for artillery, components for military combat vehicles, components for mortars, components for naval gun installations/mountings, components for naval guns, components for turrets [See footnote 8]
9	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 9]
10	P	components for aircraft cannons, components for anti-armour weapons, components for artillery, components for combat aircraft, components for generators/projectors, components for grenade launchers, components for gun mountings, components for heavy machine guns, components for machine guns, components for military combat vehicles, components for military communications equipment, components for military electronic equipment, components for military helicopters, components for military patrol/assault craft, components for military radars, components for military training aircraft, components for mortars, components for projectile launchers, components for tanks, components for turrets, components for weapon mountings, components for weapon night sights, components for weapon sight mounts, components for weapon sights, equipment for the use of combat aircraft, equipment for the use of military aero-engines, equipment for the use of military helicopters, equipment for the use of military training aircraft, general military aircraft components, general military vehicle components, general naval vessel components, military aircraft ground equipment, weapon night sights, weapon sights
11	P	technology for composite laminates, technology for composite structures, technology for gas turbine engines, technology for maraging steels, technology for metal alloy materials, technology for metal alloys in particulate form, technology for metal alloys in powder form [See footnote 10]
12	T	accelerometers, guidance/navigation equipment, gyroscopes, inertial equipment

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	18	£280,845
Non-military	31	£2,199,950
Both Military and Non-military	2	£593,688
Total	51	£3,074,483

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	7	£203,290
ML3	1	£12,175
ML4	1	£10,872
ML10	5	£21,484
ML11	4	£19,268
ML13	1	£576
ML22	1	£0
PL5017	1	£13,180

aircraft military communications equipment.
 body armour [See footnote 4].
 components for body armour [See footnote 4].
 components for combat helicopters (2 licences).
 components for gun mountings [See footnote 10].
 components for machine guns.
 components for military electronic equipment (3 licences) [See footnote 19].
 components for military helicopters [See footnote 9].
 components for sniper rifles (2 licences) [See footnote 10].
 equipment for the use of aircraft military communications equipment [See footnote 18].
 equipment for the use of sniper rifles [See footnote 10].
 equipment for the use of weapon sights.
 gun mountings [See footnote 10].
 gun silencers (3 licences) [See footnotes 10, 15].
 military aircraft ground equipment.
 military equipment for initiating explosives.
 small arms ammunition [See footnote 15].
 sniper rifles (2) [See footnote 15].
 sniper rifles (5) [See footnote 10].
 technology for sniper rifles [See footnote 10].
 weapon cleaning equipment [See footnote 10].
 weapon sight mounts [See footnote 10].
 weapon sights (5 licences) [See footnotes 1, 10, 15, 21].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C001	1	£39
1A004	1	£10,200
1C450	1	£7
2B008	1	£620,387

5D002	10	£297,707
5E002	2	£12,487
6A003	2	£8,000
8A002	2	£23,266
9A004	1	£81,900
PL8001	1	£17,000

accessories for dimensional measuring equipment [See footnote 6].
 chemicals used for general laboratory work/scientific research [See footnote 5].
 T civil explosive detection/identification equipment.
 corrosion resistant chemical manufacturing equipment (3 licences).
 T explosives detection equipment.
 T imaging cameras (2 licences).
 information security equipment (10 licences) [See footnotes 12, 16].

information security software (10 licences) [See footnote 8].
 products containing natural uranium [See footnote 11].
 rebreathing swimming equipment.
 spacecraft telemetry and telecommand equipment [See footnote 3].
 submersible equipment.
 technology for information security equipment.
 technology for information security software.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A002	2	£259,760
6A003	1	£68,250
ML1	1	£85,713
ML5	1	£175,000
PL5017	1	£4,965

T direct view imaging equipment (2 licences) [See footnote 20].
 T equipment for the use of weapon sights.
 T imaging cameras [See footnote 20].
 T targeting equipment [See footnote 20].
 T weapon night sights.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 2]
2	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment
3	P	assault rifles, blank/inert ammunition, components for assault rifles, components for machine guns, components for pistols, components for rifles, components for sniper rifles, components for sporting guns, machine guns, pistols, rifles, sniper rifles, sporting guns, training small arms ammunition [See footnote 7]
4	P	aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military communications equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, military aircraft ground equipment, military aircraft head-up/down displays, military aircrew life support equipment, military communications equipment, signalling devices [See footnote 13]
5	P	components for combat helicopters, components for military aero-engines, environmental test facilities for military aero-engines, equipment for the production of military aero-engines, equipment for the use of military aero-engines, military aero-engines, military aircraft ground equipment, software for military aero-engines, technology for combat helicopters, technology for environmental test facilities for military aero-engines, technology for equipment for the production of military aero-engines, technology for military aero-engines, technology for military aircraft ground equipment, technology for unfinished products for military aero-engines, unfinished products for military aero-engines [See footnote 14]
6	P	technology for composite laminates, technology for composite structures, technology for gas turbine engines, technology for maraging steels, technology for metal alloy materials, technology for metal alloys in particulate form, technology for metal alloys in powder form [See footnote 17]
7	T	accelerometers, guidance/navigation equipment, gyroscopes, inertial equipment

Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment

SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)

Issued

Types of goods on licence	No. of licences	Value
Non-military	4	£781,586
Total	4	£781,586

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B350	1	£7,494
5A001	2	£280,000
6A001	1	£265,620
7A003	1	£228,472

- T corrosion resistant chemical manufacturing equipment [See footnote 1].
- T inertial equipment.
- T marine position fixing equipment.
- T sonar log equipment.
- T telecommunications interception equipment.
- T underwater telecommunications systems.

SIELs - Transshipment

Issued

Types of goods on licence	No. of licences	Value
Military	1	£328,252
Total	1	£328,252

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry')As the items covered by issued SITLs merely pass through the UK, it would be misleading to compare the 'value' for these licences with the value of items originating in the UK.:

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£328,252

weapon night sights [See footnote 3].

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for marine position fixing equipment [See footnote 2]

Case & goods Footnotes

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment

Country Footnotes

1. Restrictions currently in force with respect to Guinea (Conakry) are set out in Council Decision 2010/638/CFSP, as amended; these include an embargo on the provision of arms and related material, as well as of equipment that might be used for internal repression as specified in Annex I to Council Regulation (EU) No 1284/2009, with exemptions for certain humanitarian, protective and UN or EU end uses. Amendments to Council Decision 2010/638/CFSP in 2011 and 2012 introduces further exemptions for the supply of non-lethal equipment to be used for maintaining public order by the police and gendarmerie in Guinea, for the return of non-combat helicopters to Guinea, and for the provision of explosives and related equipment intended solely for civilian use in mining and infrastructure investments. In April 2014, Council Decision 2014/213/CFSP lifted the arms embargo though measures against individuals remain in place.

All exports for this destination were approved in accordance with the sanctions in place.

Republic of Moldova

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£251,000
Total	1	£251,000

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B201	1	£251,000
2D202	1	£0
2E201	1	£0

machine tools.

Saudi Arabia

Processing Statistics (excluding amendments)

Median processing time SIELs	14 days
% and number of SIELs completed in 20 working days	82% (76)
% and number of SIELs completed in 60 working days	100% (93)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	92 days
% and number of OIELs completed in 20 working days	0% (0)
% and number of OIELs completed in 60 working days	25% (2)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	24	£2,021,696
Non-military	51	£1,718,233
Both Military and Non-military	2	£1,630,913
Total	77	£5,370,842

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	4	£359,026
ML2	1	£148
ML4	1	£1,200,000
ML6	1	£6,755

No.	Type	Goods Summary
1	T	accelerometers, guidance/navigation equipment, gyroscopes, inertial equipment

Country Footnotes

1. The United Nations imposed embargo on Sierra Leone was lifted on 29 September 2010 with the adoption of UN Security Council resolution 1940. The European Union also lifted EU-imposed sanctions in November 2010. The national implementing legislation on Sierra Leone is however still in force.

All licences for this destination were approved in accordance with the sanctions in place.

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for military infrared/thermal imaging equipment, components for periscopes, components for weapon night sights, general military vehicle components, periscopes, technology for military infrared/thermal imaging equipment, technology for periscopes, technology for weapon night sights, weapon night sights [See footnote 4]

2	P	military auxiliary/support vessels, military electronic equipment, military underwater remotely operated vehicles, naval communications equipment, naval electrical/electronic equipment, technology for military auxiliary/support vessels, technology for military electronic equipment, technology for military underwater remotely operated vehicles, technology for naval communications equipment, technology for naval electrical/electronic equipment [See footnote 6]
3	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment
4	P	aero-engine assemblies, components for aero-engine assemblies, components for non-certified aero-engines, metal alloy materials, non-certified aero-engines, software for aero-engine assemblies, software for FADEC systems, software for non-certified aero-engines, technology for engine flow path systems, technology for FADEC, technology for gas turbine engines, technology for metal alloy materials, technology for metal-working manufacturing processes, technology for propeller blades, technology for software for aero-engine assemblies, technology for software for FADEC systems, technology for software for non-certified aero-engines, technology for the application of surface coatings, technology for wind tunnel models
5	P	assault rifles, blank/inert ammunition, components for assault rifles, components for machine guns, components for pistols, components for rifles, components for sniper rifles, components for sporting guns, machine guns, pistols, rifles, sniper rifles, sporting guns, training small arms ammunition [See footnote 7]
6	P	components for gyroscopes, components for inertial equipment, gyroscopes, inertial equipment
7	P	components for combat helicopters, components for military aero-engines, components for military bridges/pontoons/ferries, components for military combat vehicles, components for military helicopters, components for military radars, components for military support vehicles, components for military training aircraft, components for munitions/ordnance detection/disposal equipment, components for submarines, components for tanks, equipment for the use of combat helicopters, equipment for the use of military aero-engines, equipment for the use of military helicopters, equipment for the use of military training aircraft, general military aircraft components, general military vehicle components, general naval vessel components, military aero-engines, military aircraft ground equipment
8	P	components for marine position fixing equipment [See footnote 10]
9	P	components for artillery, components for military combat vehicles, components for mortars, components for naval gun installations/mountings, components for naval guns, components for turrets [See footnote 11]
10	P	components for combat aircraft, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, general military aircraft components [See footnote 12]
11	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 14]
12	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for launching/handling/control/support equipment for unmanned air vehicles, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military radars, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for military

		underwater remotely operated vehicles, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for unmanned air vehicles, general military vehicle components, general naval vessel components, military electronic equipment, naval electrical/electronic equipment, technology for aircraft carriers, technology for combat aircraft, technology for combat helicopters, technology for combat naval vessels, technology for general military vehicle components, technology for general naval vessel components, technology for launching/handling/control/support equipment for unmanned air vehicles, technology for military auxiliary/support vessels, technology for military combat vehicles, technology for military helicopters, technology for military patrol/assault craft, technology for military radars, technology for military support aircraft, technology for military support vehicles, technology for military training aircraft, technology for military underwater remotely operated vehicles, technology for submarines, technology for tanks, technology for unmanned air vehicles [See footnote 15]
13	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 16]
14	P	technology for composite laminates, technology for composite structures, technology for gas turbine engines, technology for maraging steels, technology for metal alloy materials, technology for metal alloys in particulate form, technology for metal alloys in powder form [See footnote 17]
15	P	components for military combat vehicles, components for military support vehicles, general military vehicle components [See footnote 18]

Case & goods Footnotes

1. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
2. Licence granted for accessories / spare parts. Law enforcement agency end use.
3. Licence granted for accessories / spare parts. Civilian / commercial end use.
4. Licence granted for accessories / spare parts. End use by the Navy.
5. Licence granted for demonstration to potential customers. Government end use.
6. Licence granted for accessories / spare parts. End use by the Navy.
7. Licence granted for accessories / spare parts. Armed forces end use.
8. Licence granted for accessories / spare parts. Law enforcement agency end use.
9. Licence granted for demonstration to potential customers. Law enforcement agency end use.
10. Licence granted for accessories / spare parts. Civilian / commercial end use.
11. Licence granted for accessories / spare parts. Armed forces end use.
12. Licence granted for accessories / spare parts. End use by the Air Force.
13. Licence granted for accessories / spare parts. End use by the Navy.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	2	£5,300
Total	2	£5,300

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£5,300

sniper rifles (1).
sporting guns (1).

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	components for electronic countermeasure equipment, components for electronic warfare equipment, components for military electronic equipment, components for military infrared/thermal imaging equipment, components for military scenario simulation equipment, components for military training aircraft, electronic countermeasure equipment, electronic warfare equipment, equipment for the use of electronic warfare equipment, military electronic equipment, military infrared/thermal imaging equipment, military scenario simulation equipment, military training aircraft, technology for electronic countermeasure equipment, technology for electronic warfare equipment, technology for military electronic equipment, technology for military infrared/thermal imaging equipment, technology for military scenario simulation equipment [See footnote 1]
2	P	command communications control and intelligence software, software enabling equipment to function as military communications equipment, technology for command communications control and intelligence software

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£67,487
Total	1	£67,487

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£59,632
5D002	1	£7,855

information security equipment [See footnote 1].
information security software [See footnote 1].

Country Footnotes

1. UN Security Council Resolution 2142 (2014) continues the embargo on the supply of arms and related material. The embargo no longer applies to military equipment intended solely for the development of the Security Forces of the Federal Government of Somalia, providing the UN Sanctions Committee is notified in advance.

Exemptions to the embargo authorise supplies of non-lethal military equipment intended solely for humanitarian or protective use, weapons and military equipment for the support or use by UN personnel or strategic partners of AMISOM, supplies for use by UN member states to combat piracy and supplies intended for the development of Somali security sector institutions.

From 11 July 2014 the EU implements this UN sanction regime via Council Decision 2010/231/CFSP and Council Regulation (EU) No 356/2010, as amended.

All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

acoustic seabed survey equipment.
civil explosive detection/identification equipment.
civil unmanned air vehicles.
components for civil explosive detection/identification equipment.
constituents of propellants [See footnote 3].
corrosion resistant chemical manufacturing equipment (2 licences).
dimensional measuring equipment.
enriched uranium.
equipment for the production of gas turbines.
explosives detection equipment (2 licences).
frequency changers.
hydrophones (2 licences).
imaging cameras (13 licences).
T imaging cameras.
inertial equipment (6 licences).
information security equipment (4 licences).
T information security equipment.
information security software.
instrumentation cameras (2 licences).
lasers.
T lasers.
launch support equipment for civil unmanned air vehicles.
machine tools.
magnetometers.
mass spectrometers.
metal alloy cylindrical forms (2 licences).
products containing enriched lithium.
RF direction finding equipment (2 licences).
software for information security equipment.
submersible equipment.
technology for equipment for the production of gas turbines.
technology for information security software.
technology for radar equipment (2 licences).
toxic gas monitoring equipment.
toxins.
viruses.
zirconium.
zirconium compounds.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A002	1	£26,500
6A003	1	£68,250
ML5	1	£100,000

T direct view imaging equipment [See footnote 2].

T imaging cameras [See footnote 2].
T targeting equipment [See footnote 2].

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	6	£1,156,443
Non-military	5	£36,665,217
Total	11	£37,821,660

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	1	£156,120
ML10	3	£943,523
ML11	2	£56,800

aircraft military communications equipment.
components for military combat vehicles.
components for military helicopters.
components for military training aircraft.
military guidance/navigation equipment (2 licences) [See footnotes 7, 8].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B350	2	£124,486
6A005	2	£36,530,600
6A203	1	£10,131

corrosion resistant chemical manufacturing equipment (2 licences).
lasers (2 licences).
radiation hardened TV cameras.

The items being incorporated in this destination are ultimately destined for all or some of the following:

China
India
Rwanda
Saudi Arabia
Thailand
United Arab Emirates
United States of America
Vietnam

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	aircraft seals, guidance/navigation equipment, inertial equipment [See footnote 1]
2	P	military auxiliary/support vessels, military electronic equipment, military underwater remotely operated vehicles, naval communications equipment, naval electrical/electronic equipment, technology for military auxiliary/support vessels, technology for military electronic equipment, technology for military underwater remotely operated vehicles, technology for naval communications equipment, technology for naval electrical/electronic equipment [See footnote 4]
3	P	components for munitions/ordnance detection/disposal equipment, equipment for the use of munitions/ordnance detection/disposal equipment, munitions/ordnance detection/disposal equipment, software for munitions/ordnance detection/disposal equipment, technology for munitions/ordnance detection/disposal equipment [See footnote 5]
4	P	triggered spark gaps
5	P	components for air launched rockets, components for air-to-air missiles, components for bombs, components for decoying/countermeasure equipment, components for devices containing military pyrotechnic materials, components for surface launched rockets, components for surface-to-air missiles, components for torpedoes, technology for air launched rockets, technology for air-to-air missiles, technology for decoying/countermeasure equipment, technology for devices containing military pyrotechnic materials, technology for surface launched rockets, technology for surface-to-air missiles, technology for torpedoes [See footnote 6]
6	P	artillery ammunition, components for anti-aircraft guns, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for command/control equipment for unmanned air vehicles, components for launching/ground support equipment for unmanned air vehicles, components for military auxiliary/support vessels, components for military bridges/pontoons/ferries, components for military combat vehicles, components for military helicopters, components for military radars, components for military support aircraft, components for military training aircraft, components for munitions/ordnance detection/disposal equipment, components for naval gun installations/mountings, components for naval guns, components for pistols, components for rifles, components for sniper rifles, components for sporting guns, components for submarines, components for unmanned air vehicles, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of command/control equipment for unmanned air vehicles, equipment for the use of launching/ground support equipment for unmanned air vehicles, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of unmanned air vehicles, general military aircraft components, general military vehicle components, general naval vessel components, military aircraft ground equipment
7	P	components for marine position fixing equipment [See footnote 9]
8	P	components for military radars, software for military radars, technology for military radars
9	P	information security equipment, information security software [See footnote 10]
10	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications

		equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 11]
11	P	bismuth, calcium, constituents of propellants, hafnium, hafnium alloys, hafnium compounds, magnesium, nickel powders, zirconium, zirconium alloys, zirconium compounds
12	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 12]
13	P	technology for composite laminates, technology for composite structures, technology for gas turbine engines, technology for maraging steels, technology for metal alloy materials, technology for metal alloys in particulate form, technology for metal alloys in powder form [See footnote 13]
14	P	components for military combat vehicles, components for military support vehicles, general military vehicle components [See footnote 14]

Country Footnotes

1. EU Council Decision 2015/740/CFSP replaced Council Decision 2014/449/CFSP.

The measures embargo the provision of arms and related materiel to South Sudan, as well as assistance and services related to those items or to the provision, manufacture, maintenance and use of those items. Exemptions exist for equipment intended for humanitarian, human rights monitoring or protective use, non-lethal equipment and protective clothing for use by UN, AU, EU or IGAD personnel in crisis management and institution building programmes, non-combat vehicles intended for protective use by EU, UN, AU or IGAD personnel, and demining equipment.

All exports for this destination were approved in accordance with the sanctions in place.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	1	£2,821
Non-military	1	£4,000
Total	2	£6,821

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£1,973

PL5017	1	£848
--------	---	------

components for machine guns.
 components for pistols.
 weapon cleaning equipment.
 weapon sight mounts.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A003	1	£4,000

imaging cameras.

Country Footnotes

chemicals used for industrial/commercial processes [See footnote 1].

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	accelerometers, guidance/navigation equipment, gyroscopes, inertial equipment

Country Footnotes

1. UN Security Council resolution 1556 (2004) established an embargo on the supply of arms and related material to non-governmental entities in the Darfur region of Sudan; this was extended to include all individuals and entities in Darfur through Resolution 1591 (2005).

EU Council Decision 2011/423/CFSP, as amended, embargoed the provision of arms and related material to Sudan and South Sudan. EU Council Decision 2014/450/CFSP repealed Decision 2011/423/CFSP and separated the restrictive measures imposed on Sudan into a distinct legal instrument. The enforcement of the arms embargo was further strengthened by resolution 1945 (2010) of 14 October 2010.

The measures embargo the provision of arms and related materiel to Sudan, as well as assistance and services related to those items or to the provision, manufacture, maintenance and use of those items. Exemptions exist for equipment intended for humanitarian, human rights monitoring or protective use, non-lethal equipment and protective clothing for use by UN, AU or EU personnel in crisis management and institution building programmes, non-combat vehicles intended for protective use by EU, UN, or AU, and demining equipment.

All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	5	£534,850
Non-military	3	£34,788
Total	8	£569,638

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£6,500
ML5	1	£0
ML6	1	£24,000
ML10	1	£500,000
ML11	1	£0
ML14	1	£0
ML17	1	£4,350
ML22	1	£0
PL5017	1	£0

- T aerial target equipment.
- T components for aerial target equipment.
- T components for electronic countermeasure equipment.
- T components for electronic warfare equipment.
- T components for military scenario simulation equipment.
- T components for military training aircraft.
- T electronic countermeasure equipment.
- T electronic warfare equipment.
- T equipment for the use of aerial target equipment.
- T military field generators.
- T military scenario simulation equipment.
- T military support vehicles.
- T military trailers.
- T military training aircraft.
- T sporting guns (2) (2 licences).
- T technology for aerial target equipment.
- T technology for electronic countermeasure equipment.

	civil NBC protection equipment.
	components for corrosion resistant chemical manufacturing equipment (2 licences).
	components for gas detection equipment.
	components for valves.
	corrosion resistant chemical manufacturing equipment (9 licences) [See footnotes 1, 4, 6, 9].
T	counter-improvised explosive device equipment (2 licences) [See footnote 40].
	deuterium compounds.
T	equipment for intrusion software [See footnote 11].
T	explosives detection equipment.
	fibrous/filamentary materials.
	frequency changers.
	gas detection equipment (2 licences).
T	hydrophones.
	imaging cameras (2 licences).
T	imaging cameras (3 licences) [See footnote 39].
	inertial equipment (2 licences).
T	inertial equipment.
	information security equipment (20 licences) [See footnotes 3, 37].
T	information security equipment (3 licences) [See footnote 5].
	information security software (6 licences).
	machine tools.
T	radar equipment [See footnote 39].
T	RF direction finding equipment [See footnote 5].
	software for diver location sonars.
	software for information security equipment (5 licences).
	submersible equipment.
	technology for information security equipment.
	technology for information security software.
T	telecommunications interception equipment [See footnote 36].

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	4	£63,554

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£10,177
Total	1	£10,177

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B350	1	£10,177

corrosion resistant chemical manufacturing equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

United Arab Emirates

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment
2	P	components for combat aircraft, components for military training aircraft, equipment for the use of combat aircraft, equipment for the use of military training aircraft, military aircraft ground equipment, technology for combat aircraft, technology for military aircraft ground equipment, technology for military training aircraft [See footnote 7]

3	P	assault rifles, blank/inert ammunition, components for assault rifles, components for machine guns, components for pistols, components for rifles, components for sniper rifles, components for sporting guns, machine guns, pistols, rifles, sniper rifles, sporting guns, training small arms ammunition [See footnote 14]
4	P	military guidance/navigation equipment, software for military guidance/navigation equipment, software for weapon control equipment, technology for military guidance/navigation equipment, technology for weapon control equipment, weapon control equipment
5	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, components for military parachutist equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, military parachutist equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 32]
6	P	technology for composite laminates, technology for composite structures, technology for gas turbine engines, technology for maraging steels, technology for metal alloy materials, technology for metal alloys in particulate form, technology for metal alloys in powder form [See footnote 35]
7	T	accelerometers, guidance/navigation equipment, gyroscopes, inertial equipment
8	P	accessories for military image intensifier equipment, command communications control and intelligence software, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military image intensifier equipment, components for rangefinding equipment, components for targeting equipment, goods treated for signature suppression for military use, military communications equipment, military electronic equipment, military guidance/navigation equipment, military image intensifier equipment, rangefinding equipment, software for military communications equipment, software for military electronic equipment, software for military guidance/navigation equipment, software for military image intensifier equipment, software for rangefinding equipment, software for targeting equipment, targeting equipment, technology for command communications control and intelligence software, technology for goods treated for signature suppression for military use, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military image intensifier equipment, technology for rangefinding equipment, technology for software for military communications equipment, technology for targeting equipment

ML14	1	£61,875
ML16	13	£649,708
ML18	1	£31,253
ML19	2	£195,200
ML21	5	£627,140
ML22	10	£2,327,500
PL5001	4	£157,650
PL5017	1	£45,754

anti-armour ammunition.
anti-riot/ballistic shields (4 licences).
assault rifles (10).
body armour.
combat aircraft.
command/control equipment for unmanned air vehicles.
components for artillery.

components for assault rifles.
 components for body armour.
 components for combat aircraft (7 licences).
 components for combat helicopters (2 licences).
 components for decoying/countermeasure equipment (2 licences).
 components for decoying/countermeasure equipment.
 components for laser weapon systems (2 licences).
 components for launching/handling/control equipment for missiles (3 licences).
 components for launching/handling/control equipment for munitions (2 licences).
 components for machine guns (2 licences).
 components for machine guns.
 components for military aero-engines (5 licences).
 components for military aircraft head-up/down displays (2 licences).
 components for military aircraft head-up/down displays.
 components for military aircrew life support equipment.
 components for military combat vehicles (3 licences).
 components for military communications equipment.
 components for military electronic equipment.
 components for military guidance/navigation equipment (2 licences) [See footnote 1].
 components for military helicopters.
 components for military radars (2 licences).
 components for military scenario simulation equipment.
 components for military support aircraft (15 licences).
 components for military training aircraft (2 licences).
 components for munitions/ordnance detection/disposal equipment.
 components for naval engines.
 components for naval guns.
 components for NBC protective/defensive equipment (4 licences).
 components for pistols.
 components for sniper rifles.
 components for surface-to-surface missiles [See footnote 1].
 components for training small arms ammunition (2 licences).
 components for unmanned air vehicles (6 licences).
 equipment for the production of combat helicopters.
 equipment for the use of aircraft missile protection systems.
 equipment for the use of attack alerting/warning equipment.
 equipment for the use of bombs.
 general military aircraft components (3 licences).
 grenade launchers (2 licences).
 gun silencers.
 launching/handling/control equipment for missiles.
 machine guns (2).
 machine guns (10).
 military aero-engines (4 licences).
 military aircraft ground equipment.
 military combat vehicles (3 licences).
 military guidance/navigation equipment.
 military helmets.
 military support vehicles (3 licences).
 naval electrical/electronic equipment.
 NBC detection equipment.
 NBC protective/defensive equipment.
 pistols (5).
 pistols (8).
 projectile launchers.
 pyrotechnics/fuels and related substances.
 sniper rifles (2).
 software enabling equipment to function as equipment for the use of military guidance/navigation equipment.
 software enabling equipment to function as military communications equipment.
 software for aircraft missile protection systems.
 software for decoying/countermeasure equipment.
 Software for modelling/simulating military operation scenarios.
 sporting guns (1) (2 licences).
 sporting guns (4).
 technology for decoying/countermeasure equipment (3 licences).
 technology for launching/handling/control equipment for munitions.
 technology for military communications equipment.
 technology for naval electrical/electronic equipment.
 technology for unfinished products for military aero-engines.

- T technology for unmanned air vehicles (2 licences).
- technology for unmanned air vehicles (2 licences).
- training surface-to-surface missiles.
- unfinished products for military aero-engines (12 licences).
- unfinished products for military training aircraft.
- T unmanned air vehicles (2 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C001	2	£617
0E001	3	£260,010
1C002	1	£400
1C233	8	£230,284
1C351	8	£17,742
3A230	1	£408,840
5A002	2	£58,940
6A002	1	£0
6A003	2	£654,674
9A004	1	£3,500,000
PL9010	11	£318,236

- components for instrumentation cameras.
- devices containing enriched lithium.
- devices containing enriched lithium compounds (3 licences).
- high speed pulse generators.
- image intensifier tubes.
- T imaging cameras.
- information security equipment (2 licences).
- T metal alloy materials.
- products containing depleted uranium (2 licences).
- products containing enriched lithium (4 licences).

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for countermeasure equipment for military imaging radar sensor equipment, components for countermeasure equipment for military infrared/thermal imaging equipment, components for decoying/countermeasure equipment, components for electronic countermeasure equipment, components for goods treated for signature suppression for military use, components for signature suppression fittings/coatings/treatments for military use, components for surface-to-surface missiles, countermeasure equipment for military imaging radar sensor equipment, countermeasure equipment for military infrared/thermal imaging equipment, decoying/countermeasure equipment, electronic countermeasure equipment, goods treated for signature suppression for military use, signature suppression fittings/coatings/treatments for military use, technology for countermeasure equipment for military imaging radar sensor equipment, technology for countermeasure equipment for military infrared/thermal imaging equipment, technology for decoying/countermeasure equipment, technology for electronic countermeasure equipment, technology for goods treated for signature suppression for military use, technology for signature suppression fittings/coatings/treatments for military use, technology for surface-to-surface missiles, technology for test models for countermeasure equipment for military imaging radar sensor equipment, technology for test models for countermeasure equipment for military infrared/thermal imaging equipment, technology for test models for decoying/countermeasure equipment, technology for test models for electronic countermeasure equipment, technology for test models for goods treated for signature suppression for military use, technology for test models for signature suppression fittings/coatings/treatments for military use, technology for test models for surface-to-surface missiles, test models for countermeasure equipment for military imaging radar sensor equipment, test models for countermeasure equipment for military infrared/thermal imaging equipment, test models for decoying/countermeasure equipment, test models for electronic countermeasure equipment, test models for goods treated for signature suppression for military use, test models for signature suppression fittings/coatings/treatments for military use, test models for surface-to-surface missiles
2	P	components for munitions/ordnance detection/disposal equipment, equipment for the use of munitions/ordnance detection/disposal equipment, munitions/ordnance detection/disposal equipment, software for munitions/ordnance detection/disposal equipment, technology for munitions/ordnance detection/disposal equipment [See footnote 2]
3	P	Software for modelling/simulating military operation scenarios, technology for Software for modelling/simulating military operation scenarios
4	P	assault rifles, blank/inert ammunition, components for assault rifles, components for machine guns, components for pistols, components for rifles, components for sniper rifles, components for sporting guns, machine guns, pistols, rifles, sniper rifles, sporting guns, training small arms ammunition [See footnote 4]
5	P	triggered spark gaps
6	P	components for air launched rockets, components for air-to-air missiles, components for bombs, components for decoying/countermeasure equipment, components for devices containing military pyrotechnic materials, components for surface launched rockets, components for surface-to-air missiles, components for torpedoes, technology for air launched rockets, technology for air-to-air missiles, technology for decoying/countermeasure equipment, technology for devices containing military pyrotechnic materials, technology for surface launched rockets, technology for surface-to-air missiles, technology for torpedoes [See footnote 5]

7	P	anti-riot/ballistic shields, body armour, bomb suits, civil body armour, components for all-wheel drive vehicles with ballistic protection, components for anti-riot/ballistic shields, components for body armour, components for bomb suits, components for civil body armour, components for military combat vehicles, components for military helmets, components for military support vehicles, components for military trailers, components for tanks, components for turrets, general military vehicle components, military helmets, technology for all-wheel drive vehicles with ballistic protection, technology for anti-riot/ballistic shields, technology for body armour, technology for bomb suits, technology for general military vehicle components, technology for military combat vehicles, technology for military helmets, technology for military support vehicles, technology for military trailers, technology for tanks, technology for turrets
8	T	components for electronic countermeasure equipment, components for electronic warfare equipment, components for military electronic equipment, components for military infrared/thermal imaging equipment, components for military scenario simulation equipment, components for military training aircraft, electronic countermeasure equipment, electronic warfare equipment, equipment for the use of electronic warfare equipment, military electronic equipment, military infrared/thermal imaging equipment, military scenario simulation equipment, military training aircraft, technology for electronic countermeasure equipment, technology for electronic warfare equipment, technology for military electronic equipment, technology for military infrared/thermal imaging equipment, technology for military scenario simulation equipment [See footnote 8]
9	P	command communications control and intelligence software, software enabling equipment to function as military communications equipment, technology for command communications control and intelligence software
10	P	components for equipment for the use of NBC detection equipment, components for NBC detection equipment, components for unmanned air vehicles, equipment for the use of NBC detection equipment, equipment for the use of unmanned air vehicles, NBC detection equipment, software for NBC detection equipment, technology for equipment for the use of NBC detection equipment, technology for equipment for the use of unmanned air vehicles, technology for NBC detection equipment, technology for software for NBC detection equipment, technology for unmanned air vehicles
11	P	components for military radars, software for military radars, technology for military radars
12	P	neutron generators, non-military detonators, non-military firing sets
13	P	components for machine guns, components for mortars, equipment for the use of machine guns, equipment for the use of mortars, gun mountings, weapon cleaning equipment [See footnote 10]
14	P	technology for composite laminates, technology for composite structures, technology for gas turbine engines, technology for maraging steels, technology for metal alloy materials, technology for metal alloys in particulate form, technology for metal alloys in powder form [See footnote 11]
15	P	viruses
16	T	projectile launchers
17	T	assault rifles, combat shotguns, components for assault rifles, components for combat shotguns, components for gun mountings, components for machine guns, components for pistols, components for rifles, components for smooth-bore weapons, components for sniper rifles, components for sporting guns, components for sporting shotguns, components for weapon sights, gun mountings, machine guns, pistols, rifles, smooth-bore weapons, sniper rifles, sporting guns, sporting shotguns, weapon cleaning equipment, weapon sights [See footnote 12]
18	P	technology for nuclear reactors
