ELIZABETH II

Animals (Scientific Procedures) Act 1986

1986 CHAPTER 14

An Act to make new provision for the protection of animals used for experimental or other scientific purposes. (20th May 1986)

BE IT ENACTED by the Queen's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows:-

Preliminary

1 Protected animals

- (1) Subject to the provisions of this section, "a protected animal" for the purposes of this Act means any living vertebrate other than man and any living cephalopod.
- (2) Any such vertebrate in its foetal, larval or embryonic form is a protected animal only from the stage of its development when—
 - (a) in the case of a mammal, bird or reptile, two-thirds of the gestation or incubation period for the relevant species has elapsed; and
 - (b) in any other case, it becomes capable of independent feeding.
- (2A) Any living cephalopod in its embryonic form is not a protected animal.
- (3) The Secretary of State may by order—
 - (a) extend the definition of protected animal so as to include any description of invertebrates other than cephalopods;
 - (b) alter the stage of development specified in subsection (2) above.
 - (c) make provision in lieu of subsection (2) above as respects any animal which becomes a protected animal by virtue of an order under paragraph (a) above.
- (4) For the purposes of this section an animal shall be regarded as continuing to live until the permanent cessation of circulation or the destruction of its brain.
- (5) In this section "vertebrate" means any animal of the Sub-phylum Vertebrata of the Phylum Chordata and "invertebrate" means any animal not of that Sub-phylum.

2 Regulated Procedures

- (1) Subject to the provisions of this section, "a regulated procedure" for the purposes of this Act means any procedure applied to a protected animal for a qualifying purpose which may have the effect of causing the animal a level of pain, suffering, distress or lasting harm equivalent to, or higher than, that caused by the introduction of a needle in accordance with good veterinary practice

- (1A) A procedure is applied to an animal for “a qualifying purpose” if—
 - (a) it is applied for an experimental or other scientific purpose (whether or not the outcome of the procedure is known); or
 - (b) it is applied for an educational purpose.
- (2) A procedure applied to an animal for a qualifying purpose is also a regulated procedure if—
 - (a) it is part of a series or combination of procedures (whether the same or different) applied to the same animal; and
 - (ab) each of the other procedures in the series or combination is applied for a qualifying purpose; and
 - (b) the series or combination may have the effect mentioned in subsection (1) above; and
 - (c) the animal is a protected animal throughout the series or combination or in the course of it attains the stage of its development when it becomes such an animal.
- (2A) A procedure applied to an animal for a qualifying purpose is also a regulated procedure if—
 - (a) at the time the procedure is applied the animal has not attained the stage of its development when it is a protected animal;
 - (b) the animal is to be allowed to live until after it attains that stage of its development; and
 - (c) the procedure is likely to have the effect mentioned in subsection (1) after the animal attains that stage (whether or not it is also likely to have that effect before the animal attains that stage).
- (3) Anything done for the purpose of, or liable to result in, the birth or hatching of a protected animal is also a regulated procedure if it may as respects that animal have the effect mentioned in subsection (1) above.
- (3A) The modification of an animal’s genes is a regulated procedure if—
 - (a) the animal is a protected animal and the modification may have the effect mentioned in subsection (1); or
 - (b) the animal is to be allowed to live until after it attains the stage of its development when it is a protected animal and the modification may have the effect mentioned in subsection (1) after it has attained that stage (whether or not it is also likely to have that effect before the animal attains that stage).
- (3B) The breeding of an animal is a regulated procedure if—
 - (a) the animal is bred from an animal whose genes have mutated or been modified or from a descendant of an animal whose genes have mutated or been modified;
 - (b) the animal is to be allowed to live until after it has attained the stage of its development when it is a protected animal; and
 - (c) after the animal has attained that stage the animal may experience pain, suffering, distress or lasting harm of a level mentioned in subsection (1) by reason of the mutation or modification referred to in paragraph (a).
- (3C) For the purposes of subsections (3A) and (3B), references to the modification of an animal’s genes include the modification before the animal comes into being of any genetic material by virtue of which it comes into being.
- (4) In determining whether any procedure may have the effect mentioned in subsection (1) above the use of an anaesthetic or analgesic, decerebration and any other procedure for rendering an animal insentient shall be disregarded; and the administration of an anaesthetic or analgesic to a protected animal, or decerebration or any other such procedure applied to such an animal, for the purposes of any experimental or other scientific procedure shall itself be a regulated procedure.
- (5) *[Removed by Animals (Scientific Procedures) Act 1986 Amendment Regulations 2012].*
- (6) *[Removed by Animals (Scientific Procedures) Act 1986 Amendment Regulations 2012].*
- (7) Killing a protected animal is a regulated procedure only if—

- (a) it is killed for experimental or other scientific use;
 - (b) the place where it is killed is—
 - (i) a place that is specified in a licence granted under section 2C, or
 - (ii) a place that is specified in a project licence by virtue of section 5(3), and
 - (c) the method employed to kill the animal is not—
 - (i) a method that is appropriate to that description of animal under Schedule 1, or
 - (ii) in a case within paragraph (b)(i), a method that is specified as being appropriate to that description of animal in the licence granted under section 2C.
- (8) Notwithstanding anything in this section, the following are not regulated procedures—
- (a) non-experimental agricultural practices;
 - (b) non-experimental clinical veterinary practices;
 - (c) practices undertaken for the purposes of recognised animal husbandry;
 - (d) the administration of any substance or article to an animal for research purposes in accordance with an animal test certificate granted under the Veterinary Medicines Regulations 2011¹;
 - (e) the ringing, tagging or marking of an animal, or the application of any other humane procedure for the primary purpose of enabling an animal to be identified, provided that it causes only momentary pain or distress (or none at all) and no lasting harm.
- (8A) References in this section to “a procedure” include both invasive and non-invasive procedures.
- (9) Schedule 1 to this Act may be amended by orders made by the Secretary of State.

2A Principles of replacement, reduction and refinement

- (1) The Secretary of State must exercise his or her functions under this Act with a view to ensuring compliance with the principles of replacement, reduction and refinement.
- (2) For the purposes of this Act—
- (a) the principle of replacement is the principle that, wherever possible, a scientifically satisfactory method or testing strategy not entailing the use of protected animals must be used instead of a regulated procedure;
 - (b) the principle of reduction is the principle that whenever a programme of work involving the use of protected animals is carried out the number of protected animals used must be reduced to a minimum without compromising the objectives of the programme;
 - (c) the principle of refinement is the principle that the breeding, accommodation and care of protected animals and the methods used in regulated procedures applied to such animals must be refined so as to eliminate or reduce to the minimum any possible pain, suffering, distress or lasting harm to those animals.

Licensing of undertakings

2B Prohibition of unlicensed undertakings

- (1) A person must not, whether for profit or otherwise, carry on at any place an undertaking which involves one or more of the activities mentioned in subsection (2) unless the person is authorised to do so by a licence under section 2C.
- (2) The activities are—
- (a) the applying of regulated procedures to protected animals;
 - (b) the breeding of relevant protected animals with a view to—
 - (i) their use in regulated procedures, or

¹ S.I. 2011/2159

- (ii) the use of their tissues or organs for scientific purposes, or the breeding of protected animals (other than relevant protected animals) primarily for purposes within sub-paragraph (i) or (ii);
 - (c) the keeping of relevant protected animals which have been bred elsewhere and are to be supplied with a view to—
 - (i) their use elsewhere in regulated procedures, or
 - (ii) the use elsewhere of their tissues or organs for scientific purposes.
- (3) In this section “relevant protected animal” means a protected animal of a description specified in Schedule 2 to this Act.

2C Licensing of undertakings

- (1) A licence under this section is a licence granted by the Secretary of State which authorises the holder to carry on at a specified place an undertaking which involves the activities mentioned in subsection (2) of section 2B or such of those activities as are specified in the licence.
- (2) The Secretary of State may grant a licence under this section only if satisfied that the person who is to be the holder and the place that is to be specified are in compliance with the requirements of the Animals Directive.
- (3) An application for a licence under this section shall be made to the Secretary of State in such form and shall be supported by such information as the Secretary of State may reasonably require.
- (4) A licence under this section shall not be granted unless the application nominates for inclusion in the licence pursuant to subsection (5) persons appearing to the Secretary of State to be suitable for that purpose.
- (5) A licence under this section shall specify—
 - (a) a person to be responsible for overseeing the welfare and care of the animals kept at the place specified in the licence;
 - (b) a veterinary surgeon with expertise in laboratory animal medicine, or other suitably qualified person, to provide advice on the welfare and treatment of those animals;
 - (c) a person to be responsible for ensuring that the persons dealing with those animals have access to any information they need about the species concerned;
 - (d) a person to be responsible for ensuring that the persons dealing with those animals are adequately educated and trained and are supervised until they have demonstrated the requisite competence; and
 - (e) a person to be responsible for ensuring that the conditions of the licence are complied with.
- (6) If the Secretary of State thinks fit, the same person may be specified under two or more of the paragraphs of subsection (5).
- (7) If it appears to any person specified in a licence pursuant to paragraph (a) or (b) of subsection (5) that the health or welfare of any animal kept at the place specified in the licence gives rise to concern, that person shall—
 - (a) notify the person holding a personal licence who is in charge of the animal; or
 - (b) if there is no such person or it is not practicable to notify that person, take steps to ensure that the animal is cared for and, if it is necessary for it to be killed, that it is killed in accordance with section 15A (manner in which protected animals are to be killed).
- (8) In any case to which subsection (7) applies the person specified in the licence pursuant to paragraph (a) of subsection (5) may also notify the person (if different) specified pursuant to paragraph (b) of that subsection; and the person specified pursuant to either paragraph of that subsection may also notify one of the inspectors appointed under this Act.

- (9) A licence under this section shall continue in force until revoked.
- (10) Where—
 - (a) there has been or is to be a significant change to the structure or function of the place specified in a licence under this section, and
 - (b) the change may have a negative effect on animal welfare, the Secretary of State shall vary the licence as appropriate (or if necessary revoke it).

Personal and project licences

3 Prohibition of unlicensed procedures

No person shall personally apply a regulated procedure to an animal unless—

- (a) he holds a personal licence qualifying him to apply a regulated procedure of that description to an animal of that description;
- (b) the procedure is applied as part of a programme of work specified in a project licence authorising the application, as part of that programme, of a regulated procedure of that description to an animal of that description; and
- (c) the place where the procedure is carried out is a place specified in the project licence.

4 Personal licences

- (1) A personal licence is a licence granted by the Secretary of State qualifying the holder personally to apply regulated procedures of specified descriptions to animals of specified descriptions.
- (2) An application for a personal licence shall be made to the Secretary of State in such form and shall be supported by such information as he may reasonably require.
- (3) Except where the Secretary of State dispenses with the requirements of this subsection any such application shall be endorsed by a person who—
 - (a) is for the time being specified in a relevant section 2C licence by virtue of section 2C(5)(d);
 - (b) has knowledge of the education, training, experience and character of the applicant;
- (3A) For the purposes of subsection (3)(a), a section 2C licence is “relevant” if it authorises the holder to carry on an undertaking which involves the applying of regulated procedures to protected animals.
- (4) No personal licence shall be granted to a person under the age of eighteen.
- (4A) The Secretary of State shall not grant a personal licence to a person unless he is satisfied that the person—
 - (a) has appropriate education and training for the purpose of applying the regulated procedures that the licence would qualify the person to apply; and
 - (b) is competent to apply those procedures in accordance with the conditions which are to be included in the licence and to handle and take care of laboratory animals.
- (5) A personal licence shall continue in force until revoked but the Secretary of State shall review each personal licence granted by him at intervals not exceeding five years and may for that purpose require the holder to furnish him with such information as he may reasonably require.

5 Project licences: general

- (1) A project licence is a licence granted by the Secretary of State which specifies a programme of work and authorises the application, as part of that programme, of specified regulated procedures to animals of specified descriptions at a specified place or specified places.

- (2) A place may not be specified in a project licence unless it is a place at which a person is authorised by a section 2C licence to carry on an undertaking involving the applying of regulated procedures to protected animals.
- (3) But subsection (2) does not apply in any case in which it appears to the Secretary of State, on the basis of a scientific justification, that the programme or procedures authorised by the project licence require a different place to be specified.
- (4) In the circumstances set out in Article 40.4 of the Animals Directive, a project licence may specify a programme of work which consists of multiple generic projects.

5A Application for a project licence

- (1) An application for a project licence must—
 - (a) specify the programme of work the applicant wishes to be specified in the project licence;
 - (b) specify the regulated procedures, the descriptions of animal and the place or places the applicant wishes to be specified in the project licence;
 - (c) include information on the matters set out in Annex 6 of the Animals Directive;
 - (d) include such other information as the Secretary of State may reasonably require; and
 - (e) be accompanied by a project summary.
- (2) A project summary is a statement, in non-technical language, which (subject to subsection (3)(a))—
 - (a) describes the proposed programme of work and states the objectives of the programme, the predicted harm and benefits of the programme and the number and types of animal to be used in the programme;
 - (b) demonstrates that the proposed programme of work would be carried out in compliance with the principles of replacement, reduction and refinement.
- (3) A project summary must not contain—
 - (a) any information of a confidential nature or any information the publication of which may lead to the infringement of any person's intellectual property rights;
 - (b) names or addresses or any other information from which the identity of the applicant or any other person can be ascertained.
- (4) If the Secretary of State receives an incomplete or incorrect application for a project licence the Secretary of State must, as soon as practicable, inform the applicant of the following matters—
 - (a) the fact that the application is incomplete or incorrect;
 - (b) the additional information that needs to be provided by the applicant to complete or correct the application; and
 - (c) the fact that the period mentioned in subsection (7) will not begin until the Secretary of State has received the additional information.
- (5) Subsections (6) to (9) apply if the Secretary of State receives a complete and correct application for a project licence or receives information from an applicant that completes or corrects an application for a project licence.
- (6) The Secretary of State must as soon as practicable—
 - (a) acknowledge receipt of the application or (as the case may be) receipt of the information; and
 - (b) inform the applicant of the effect of subsections (7) to (9).
- (7) Within the period of 40 working days beginning with the day on which the Secretary of State receives the application or (as the case may be) the information, the Secretary of State must—

- (a) grant a project licence to the applicant (in the terms specified in the application under subsection (1)(a) and (b) or in those terms with such modifications as the Secretary of State thinks appropriate); or
 - (b) serve on the applicant a notice under section 12(1) indicating the Secretary of State's intention to refuse the project licence.
- (8) On one occasion within the period mentioned in subsection (7), the Secretary of State may by notice to the applicant extend the period by up to 15 working days.
- (9) The Secretary of State may exercise the power in subsection (8) only if, and to the extent that, the Secretary of State considers its exercise is justified by the complexity or multidisciplinary nature of the proposed programme of work.

5B Determining an application: evaluation of the programme of work

- (1) A project licence must not be granted unless the Secretary of State has carried out in accordance with this section a favourable evaluation of the programme of work to be specified in the licence.
- (2) For this purpose, the evaluation of a programme of work is favourable only if it verifies—
- (a) that carrying out the programme of work is justified from a scientific or educational point of view or is required by law;
 - (b) that the purposes of the programme of work justify the use of protected animals; and
 - (c) that the programme of work is designed so as to enable the regulated procedures applied as part of it to be applied in the most humane and environmentally sensitive manner possible.
- (3) In carrying out the evaluation of a programme of work the Secretary of State must—
- (a) evaluate the objectives of the programme of work and its predicted scientific benefits or educational value;
 - (b) assess the compliance of the programme of work with the principles of replacement, reduction and refinement;
 - (c) classify as “non-recovery”, “mild”, “moderate” or “severe” the likely severity of each regulated procedure that would be applied as part of the programme of work;
 - (d) carry out a harm-benefit analysis of the programme of work to assess whether the harm that would be caused to protected animals in terms of suffering, pain and distress is justified by the expected outcome, taking into account ethical considerations and the expected benefit to human beings, animals or the environment;
 - (e) assess any scientific justification which is relevant (by virtue of sections 5(3), 15A(7) or 17(2), paragraphs 1(4), 2(4) or 3(3) of Schedule 2B or paragraph 25(2), (3) or (5) of Schedule 2C) to the question of whether or on what terms a project licence may be granted in respect of the programme of work;
 - (f) assess whether there is any justification for an exemption under paragraph 26(2) of Schedule 2C;
 - (g) assess whether carrying out the programme of work would give rise to any scientific reason for an exemption under paragraph 11(5) of Schedule 2C;
 - (h) determine, on the assumption that a project licence is granted in respect of the programme of work, whether and (if so) when the programme should be retrospectively assessed under section 5F.
- (4) In carrying out the evaluation of a programme of work the Secretary of State must consider—
- (a) expertise in the area of science for which it is intended that protected animals will be used (including expertise in the application of the principles of replacement, reduction and refinement when working in that area of science);
 - (b) expertise in experimental design (including expertise in statistics where appropriate);

- (c) expertise in veterinary practice in laboratory animal science or, where appropriate, expertise in wildlife veterinary practice;
 - (d) expertise in animal husbandry and care in relation to the species of protected animals that are intended to be used.
- (5) For the purposes of subsection (3)(c) a series of regulated procedures applied to an animal for a particular purpose is to be treated as constituting a single regulated procedure.
 - (6) When classifying the likely severity of a regulated procedure under subsection (3)(c) the Secretary of State must use the criteria in Annex 8 of the Animals Directive.
 - (7) The Secretary of State must determine that a programme of work should be retrospectively assessed under section 5F if the programme would involve—
 - (a) the application of regulated procedures to primates; or
 - (b) the application of regulated procedures the likely severity of which has been classified under section (3)(c) as “severe”.
 - (8) The evaluation of a programme of work must be carried out with a degree of detail appropriate for the type of programme and must be carried out in an impartial manner.
 - (9) The Secretary of State must publish information as to the process by which he proposes to evaluate programmes of work under this section.

5C Determining an application: further provision

- (1) A project licence must not be granted except to a person who undertakes responsibility for the overall implementation of the programme of work to be specified in the licence.
- (2) A project licence must not be granted to a person unless the Secretary of State has verified that—
 - (a) the person has received instruction in a scientific discipline relevant to the programme of work to be specified in the licence;
 - (b) the person has specific knowledge relating to the species of animal that is to be subjected to regulated procedures as part of that programme of work; and
 - (c) the person has appropriate education and training for the purpose of designing programmes of work involving the application of regulated procedures.
- (3) A project licence must not be granted unless the Secretary of State has verified that the programme of work to be specified in the licence is to be carried out for one of the following purposes—
 - (a) basic research;
 - (b) translational or applied research with one of the following aims—
 - (i) the avoidance, prevention, diagnosis or treatment of disease, ill-health or other abnormality, or their effects, in man, animals or plants;
 - (ii) the assessment, detection, regulation or modification of physiological conditions in man, animals or plants; or
 - (iii) the improvement of the welfare of animals or of the production conditions for animals reared for agricultural purposes;
 - (c) the development, manufacture or testing of the quality, effectiveness and safety of drugs, foodstuffs and feed-stuffs or any other substances or products, with one of the aims mentioned in paragraph (b);
 - (d) the protection of the natural environment in the interests of the health or welfare of man or animals;
 - (e) research aimed at preserving the species of animal subjected to regulated procedures as part of the programme of work;
 - (f) higher education or training for the acquisition, maintenance or improvement of vocational skills;

- (g) forensic inquiries.
- (4) Schedule 2B (which requires the Secretary of State to verify that additional conditions are met before granting a project licence that would authorise the use of endangered animals, primates, cats, dogs or equidae) has effect.
- (5) The Secretary of State must not grant a project licence that would authorise the application of regulated procedures to great apes.

5D Granting a project licence

- (1) This section applies where a project licence is granted in relation to a programme of work.
- (2) The project licence must—
 - (a) specify the name of the person to whom the licence is granted; and
 - (b) contain a statement that the person is responsible for the overall implementation of the programme of work and for ensuring that the programme is carried out in compliance with the conditions of the licence.
- (3) The project licence must specify the name of any person who at the time the project licence is granted holds a section 2C licence granted in respect of a place specified in the project licence.
- (4) The project licence must state how the Secretary of State classified the likely severity of each of the regulated procedures specified in the licence (see section 5B(3)(c)).
- (5) The project licence must state what determination the Secretary of State made as to whether and, if so, when the programme of work should be retrospectively assessed under section 5F (see section 5B(3)(h)).
- (6) The Secretary of State must publish a copy of the project summary that accompanied the application for the project licence.
- (7) But before doing so the Secretary of State must alter the copy so that—
 - (a) it states what determination the Secretary of State made as to whether and when the programme of work should be retrospectively assessed under section 5F; and
 - (b) it includes such additional information as the Secretary of State thinks appropriate in order to assist a person who reads the summary.

5E Duration of a project licence and further evaluation etc

- (1) Unless revoked and subject to the following provisions of this section, a project licence shall continue in force for such period as is specified in the licence and may be renewed for further periods but (without prejudice to the grant of a new licence in respect of the programme in question) no such licence shall be in force for more than five years in all.
- (2) A project licence shall terminate on the death of the holder unless a qualifying person notifies the Secretary of State of the death within seven days of becoming aware of it.
- (3) Where the Secretary of State receives a notification under subsection (2) the project licence shall, unless the Secretary of State otherwise directs, continue in force until the end of the period of 28 days beginning with the date of the notification.
- (4) For the purposes of subsection (2), a person is a “qualifying person” in relation to a project licence if—
 - (a) the person is the holder of a section 2C licence granted in respect of a place specified in the project licence; or

- (b) in a case where the project licence does not specify a place in respect of which there is a section 2C licence, the person is the holder of a personal licence who was engaged on the programme in question.
- (5) A project licence may not be varied or renewed unless the Secretary of State has carried out a further favourable evaluation of the relevant programme of work; and for this purpose section 5B applies with any necessary modifications.
- (6) The Secretary of State must establish and publish conditions which he or she will take into account in determining whether to vary or renew a project licence.

5F Retrospective assessment of programme of work

- (1) This section applies where—
 - (a) a project licence is granted in respect of a programme of work; and
 - (b) the Secretary of State made a determination under section 5B(3)(h) that the programme of work should be retrospectively assessed under this section.
- (2) At the time determined by the Secretary of State under section 5B(3)(h), the Secretary of State must assess the following matters—
 - (a) whether the programme of work has been carried out;
 - (b) whether the objectives of the programme of work have been achieved;
 - (c) the amount of harm caused to animals by the carrying out of the programme of work (including the number of animals subjected to regulated procedures as part of the programme of work, the species of animals subjected to those procedures and the severity of those procedures); and
 - (d) whether any lessons can be learnt from the programme of work which may contribute to the further implementation of the principles of replacement, reduction and refinement.
- (3) Following the assessment the Secretary of State must—
 - (a) alter the copy of the relevant project summary published under section 5D(6) so that it includes a report on the assessment; and
 - (b) publish the copy as altered.
- (4) The Secretary of State may by notice require the holder or former holder of the licence to provide the Secretary of State with specified information, or information of a specified kind, for the purpose of enabling the Secretary of State to assess the matters mentioned in subsection (2).
- (5) Information required to be provided by a notice under subsection (4) must be provided within such period as may be specified.

5G Documents to be kept by Secretary of State

- (1) Where a person applies for a project licence the Secretary of State must keep the documents specified in subsection (2) at least until the end of the period of three years beginning immediately after—
 - (a) the expiry of the project licence (if the application for the licence is successful); or
 - (b) (if not) the period mentioned in section 5A(7), taking into account any extension of that period under section 5A(8).
- (2) The documents referred to above are—
 - (a) the application for the licence and the documents submitted in support of it;
 - (b) documents setting out the results of the evaluation carried out under section 5B and of any evaluation carried out under section 5E(5);
 - (c) the project licence itself, or the notice (served under section 12(1)(a)) of intention to refuse the application for the licence;
 - (d) documents containing information provided for the purposes of any assessment under section 5F;

- (e) documents setting out the results of any such assessment (if completed before the end of the three-year period mentioned in subsection (1)); and
 - (f) any other documents prepared or received by the Secretary of State in relation to the licence which the Secretary of State considers should be kept.
- (3) If section 5F applies in relation to a project licence and the assessment under that section is not completed until after the end of the three-year period mentioned in subsection (1), the Secretary of State must keep the documents specified in subsection (2)(a), (b), (c), (d) and (f) until the assessment is completed.

Licences: general provisions

8 Fees

The holder of a section 2C licence shall pay such periodical fees to the Secretary of State as may be prescribed by or determined in accordance with an order made by him.

9 Consultation

- (1) Before granting a section 2C licence or a project licence under this Act the Secretary of State shall consult one of the inspectors appointed under this Act and may also consult an independent assessor or the Committee for the Protection of Animals Used for Scientific Purposes established by this Act.
- (1A) Before granting a personal licence under this Act the Secretary of State may consult one of those inspectors, an independent assessor or that Committee.
- (2) Where the Secretary of State proposes to consult an independent assessor he shall notify the applicant of that fact, and in selecting the assessor he shall have regard to any representations made by the applicant.

10 Conditions

- (1) Schedule 2C makes provision as to the conditions that must be included in a licence granted under this Act.
- (2) A licence granted under this Act may include such other conditions as the Secretary of State thinks fit.
- (3) Breach of a condition in a licence does not invalidate the licence; but as to the consequences of a breach, see section 11 (failure to comply with licence conditions etc).
- (4) If a personal licence includes a condition permitting the holder to use assistants to perform, under the holder's direction, tasks not requiring technical knowledge, nothing done by an assistant in accordance with the condition contravenes section 3.

11 Failure to comply with licence conditions etc

- (1) Subsections (2) to (5) apply where it appears to the Secretary of State that the holder of a licence under this Act is failing or has failed to comply with—
 - (a) a condition of the licence, or
 - (b) a provision of this Act.

- (2) The Secretary of State may issue the holder of the licence with a notice (“a compliance notice”) which—
 - (a) specifies the condition or provision that the Secretary of State considers the holder is failing or has failed to comply with;
 - (b) specifies the action the Secretary of State considers should be taken by the holder to ensure that the failure is not continued or repeated;
 - (c) specifies any action the Secretary of State considers should be taken by the holder to eliminate or reduce any consequences of the failure;
 - (d) requires the holder to take that action within such time as is specified in the notice; and
 - (e) explains the effect of subsection (3).
- (3) If a compliance notice has been issued and it appears to the Secretary of State that the holder of the licence has failed to comply with it, the Secretary of State may revoke the licence (unless the compliance notice has been withdrawn, or the notice has been varied and the holder is in compliance with the notice as varied).
- (4) If it appears to the Secretary of State that—
 - (a) remedial action needs to be taken to safeguard the welfare of protected animals for the time being kept by or on behalf of the holder of the licence, and

- (7) A project licence may specify a method of killing as being appropriate to a description of animal only if the Secretary of State is satisfied, on the basis of a scientific justification, that the purposes of the programme of work specified in the licence cannot be achieved if a method of killing that is appropriate to that description of animal under Schedule 1 is required to be used.
- (8) A person may kill an animal in a place not specified in a section 2C licence if—
 - (a) the place is specified in a project licence in reliance on section 5(3);

- (a) death as the end point of the procedure is avoided as far as possible and is replaced by an early and humane end point;
 - (b) as soon as the purpose of the procedure has been achieved, the procedure is stopped and appropriate action is taken to minimise the suffering of the animal.
- 23.** — (1) A project licence must include a condition requiring the holder to ensure that where a regulated procedure has been applied to an animal as part of the specified programme of work a suitably qualified person classifies the severity of the procedure as “non-recovery”, “mild”, “moderate” or “severe” using the criteria in Annex 8 of the Animals Directive.
- (2) For the purposes of this paragraph, a series of regulated procedures applied to an animal for a particular purpose is to be treated as constituting a single regulated procedure.
- 24.** — (1) A project licence must include such conditions as the Secretary of State considers appropriate for the purpose of ensuring that where a series of regulated procedures are applied to an animal for a particular purpose the animal is killed at the end of the series unless a veterinary surgeon or other competent person has determined that the animal is not suffering and is not likely to suffer adverse effects.
- (2) For the purposes of this paragraph a series of regulated procedures is to be treated as ending when no further observations are to be made for the purposes of the series.
- 25.** — (1) Subject to sub-paragraph (3), a project licence must include—
- (a) a condition to the effect that a stray animal of a domestic species must not be subjected to a regulated procedure as part of the specified programme of work;
 - (b) a condition to the effect that a feral animal of a domestic species must not be subjected to a regulated procedure as part of the specified programme of work;
 - (c) a condition to the effect that an animal taken from the wild must not be subjected to a regulated procedure as part of the specified programme of work;
 - (d) a condition to the effect that a marmoset must not be subjected to a regulated procedure as part of the specified programme of work unless it is the offspring of marmosets bred in captivity or it has been obtained from a self-sustaining colony of marmosets;

- (e) a condition to the effect that an animal of a description specified in Schedule 2 must not be subjected to a regulated procedure as part of the specified programme of work unless it has been bred for use in regulated procedures.
- (2) A project licence may include an exemption from the condition mentioned in subparagraph (1)(b) in relation to a particular domestic species (“the exempted species”); but such an exemption may be included only if the Secretary of State is satisfied that there is scientific justification to the effect that the purposes of the specified programme of work can be achieved only by the application of regulated procedures to feral animals of the exempted species and that the specified programme of work consists of a study which is essential—
 - (a) to protect the health or welfare of animals of the exempted species; or
 - (b) to avoid a serious threat to human or animal health or the environment.
 - (3) A project licence is not required to include a condition mentioned in sub-paragraph (1)(c), (d) or (e) if the Secretary of State is satisfied that there is scientific justification to the effect that compliance with the condition would prevent the purposes of the programme of work specified in the licence from being achieved.
 - (4) A project licence that permits the application of regulated procedures to animals taken from the wild must include such conditions as the Secretary of State considers appropriate for the purpose of ensuring—
 - (a) that the animals taken from the wild are captured by a competent person using a method which does not cause the animal avoidable pain, suffering, distress or lasting harm;
 - (b) that an animal taken from the wild which is found to be injured or in poor health is not subjected to a regulated procedure unless and until—
 - (i) it has been examined by a veterinary surgeon or other competent person; and
 - (ii) action has been taken to minimise the suffering of the animal.
 - (5) But a project licence that permits the application of regulated procedures to animals taken from the wild is not required to include conditions for the purpose of ensuring the matter mentioned in subparagraph (4)(b)(ii) if the Secretary of State is satisfied that there is scientific justification to the effect that compliance with any such conditions would prevent the purposes of the programme of work specified in the licence from being achieved.
 - (6) For the purposes of sub-paragraph (1)(d) a colony of animals is a “self-sustaining colony” if—
 - (a) the colony is kept in captivity in a way that ensures the animals are accustomed to humans;
 - (b) the colony consists only of animals that have been bred in captivity; and
 - (c) the colony is sustained only by animals being bred within the colony or animals being sourced from other colonies that meet paragraphs (a) and (b).
- 26.** — (1) A project licence must include such conditions as the Secretary of State considers appropriate to ensure that regulated procedures are not applied to an animal as part of the specified programme of work if the data to be obtained from the application of those procedures is already available in a Member State and has been obtained there by procedures which satisfy any relevant regulatory requirements of the EU.
- (2) A project licence may include exemptions from the conditions included in it by virtue of subparagraph (1) if the Secretary of State considers the exemptions are justified for the protection of public health, safety or the environment.
- 27.** A project licence must include conditions requiring the holder to give any necessary assistance to—
- (a) inspectors carrying out visits by virtue of section 18(2A)(b); and
 - (b) experts of the European Commission carrying out duties under Article 35 of the Animals Directive.

- 28.** A project licence must include a condition to the effect that if the holder becomes aware of a failure to comply with any of the other conditions of the licence the holder must—
- (a) take appropriate steps to rectify the failure (if it is capable of being rectified); and
 - (b) keep a record of the steps taken.
