## Annex 2: Accessing Other Programmes

Provision	Can an individual on ESF family support also participate in this provision?
<p>Basic skills support/  Work-related training through SFA funded colleges and providers</p>	<p>Pre-employment Training for people on ESA (WRAG) and JSA is fully funded. Local colleges will have the flexibility to fully fund other benefit claimants. Providers will not be able to claim fully funded skills provision as a Progress Measure. Where individuals do not get fully funded training, partial funding may be available. Where the provider partially funds skills provision for these participants, this may be considered as activity that could support a claim for Progress Measure payment. (Full details about eligibility for SFA provision can be found at <a href="https://www.gov.uk/government/organisations/skills-funding-agency">https://www.gov.uk/government/organisations/skills-funding-agency</a>.) The Learner Eligibility and Contribution rules can be found at <a href="http://readingroom.skillsfundingagency.bis.gov.uk/sfa/LearnerEligibilityandContributionRules_2011_12_12Aug2011_June_revision_V2.1.pdf">http://readingroom.skillsfundingagency.bis.gov.uk/sfa/LearnerEligibilityandContributionRules_2011_12_12Aug2011_June_revision_V2.1.pdf</a> .</p> <p>Providers should not duplicate skills provision that is already available. Where providers identify a skills need that can be addressed by SFA provision, they should refer the individual back to JCP.</p>
<p>Community Work Placements</p>	<p>Generally, no. CWP is aimed at claimants who have a lack of recent work experience and motivation only and therefore targets a different customer group to ESF Families participants who face multiple barriers to moving into work. Accordingly if a participant is currently attending and receiving support from ESF Families provision then a referral to CWP would not be appropriate. However, if an adviser identifies a claimant who has previously been on ESF Families provision but are no longer engaged or undertaking activities and they require work experience and/or help with motivation then the adviser can consider a referral to CWP.</p>
<p>Day One Support for Young People Trailblazer (DOSfYP)</p>	<p>No. If the claimant is already on DOSfYP they cannot join ESF Families until they have completed DOSfYP.</p>

<b>Provision</b>	<b>Can an individual on ESF family support also participate in this provision?</b>
Derbyshire Mandatory Programme for Young People (DMYAP)	No. If the claimant is already on DMYAP they cannot join ESF Families until they have completed DMYAP.
Enterprise Clubs	Yes
Flexible Support Fund (FSF)	Customers receiving ESF support may be eligible for FSF support in certain limited circumstances, for example if they are mandated by JCP to attend provision. All decisions will be made locally and take individual circumstances into account.
Innovation Fund (IF)	Yes. Individuals/family are able to participate in ESF and IF at the same time. Where LAs are aware that an individual is on IF, they should consider whether ESF can provide additional support – if they think it can they have the freedom to refer that individual to ESF. Where an individual is on ESF already, and the referring body for the IF is aware of this (this could be either be an LA or other local organisation), they should consider whether or not IF they can provide additionality.
JCP Advisor Support	Yes.
JCP Careers Advice	Yes.
JCP Group Sessions	Yes.
JCP Support Contract	Yes.
JCP Jobsearch training	Yes.
JCP Online support	Yes.
JCP Job vacancies database	Yes.
JCP Self-employment guidance	Yes

<b>Provision</b>	<b>Can an individual on ESF family support also participate in this provision?</b>
JCP Work Experience	<p>If the claimant is already on Work Experience they cannot join ESF until they have completed their placement. Where a claimant is on ESF provision already the JCP adviser can apply discretion in referring them to Work Experience.</p> <p>In some cases work experience employers will offer claimants jobs/apprenticeships at the end of the work experience period. If the individual has participated in the ESF provision and the job is started within the ESF tracking period and lasts for the requisite period the ESF provider is able to claim for a job outcome.</p>
Mandatory Work Experience (MWA)	<p>No.</p> <p>If the claimant is already on MWA they cannot join ESF until they have completed MWA.</p>
New Enterprise Allowance (NEA)	<p>If the claimant is already on NEA they cannot join ESF until they have completed.</p> <p>Where a claimant is on ESF provision already the JCP adviser can apply discretion in referring them to the NEA mentoring organisation for an initial assessment.</p> <p>Where the claimant leaves JSA and remains self employed the ESF provider can claim a job outcome provided it is within the ESF tracking period and meets the definition of a job outcome (further details to be published in provider guidance).</p>
Residential Training Colleges	<p>No. If a claimant is already at a Residential Training College they are ineligible for ESF provision. Entering a Residential Training College is one of the ESF leaver/completer criteria. Job outcomes can be claimed if they are within the 26 week ESF tracking period (but note that in general we expect RTC provision to last for on average 36 weeks).</p> <p>DWP provision delivered by Residential Training Colleges is a relatively small programme, reserved for the 'hardest to help' disabled people where other DWP provision is unsuitable and therefore receives relatively low volumes of referrals; of individuals from England, Scotland and Wales.</p>
Sector-based Work Academies (sbwa)	<p>If the claimant is already receiving support through sbwa, then they cannot join ESF until they have completed sbwa and were not offered a job following the guaranteed job interview.</p> <p>Where a claimant is on ESF provision already the JCP adviser will determine their proximity to the labour market at that point, before considering a referral to sbwa. sbwa placements last for up to 6 weeks, and are for individuals who are closer to the labour market.</p>

Provision	Can an individual on ESF family support also participate in this provision?
Work Choice (including Work Choice as part of Right to Control Trailblazers)	No. If a claimant is already on Work Choice they are ineligible for ESF provision. Volunteering for Work Choice is one of the ESF leaver/completer criteria. Job outcomes can be claimed if they are within the tracking period (but note that in general we expect Work Choice Module 1 Provision to last for up to 6 months [or up to 9 months exceptionally] )
Work Clubs	Yes
Work Programme (Including Employment & Re-offending Pilot and Recovery Works Pilot)	<a href="#">See Chapter 9</a>
Work Together	Yes
