

Supporting Older Workers with Health Conditions at Work

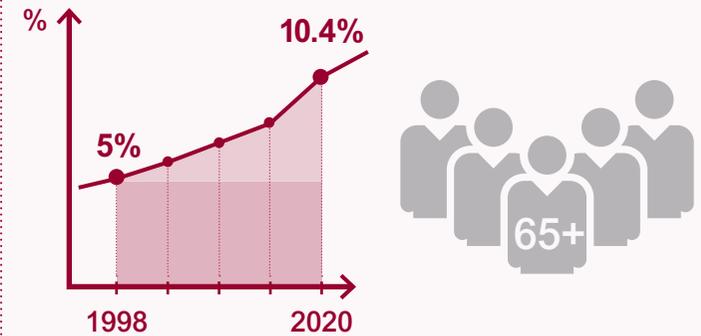

In the United Kingdom,

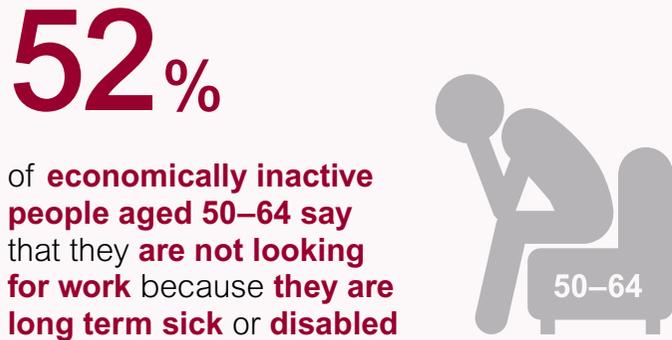

Jobseekers aged 50 and over experience longer periods of unemployment

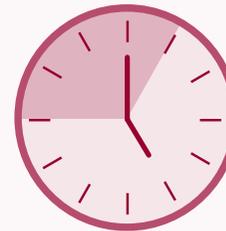

The percentage of people aged 65 or older who are in employment has doubled since 1998

Workers aged 50–64 are more likely than any other age group to be juggling caring responsibilities and working

Workers over the age of 50 years are most likely to say that

working part-time and flexible working hours would help them delay retirement

In 2016 to 2017,

aged 50–64 who were carers were also in work
