2012 summary report for UK bathing waters monitoring results under the Bathing Water Directive	3
Section 1: Changes from the 2011 list of designated bathing waters	3
Section 2: Bathing season and sampling frequency	4
Section 3: Parameters	4

2012 summary report for UK bathing waters monitoring results under the Bathing Water Directive

This report is based on data provided to the European Commission under Article 13 of Directive 76/160/EEC (the Bathing Water Directive), as amended by Article 3 of Directive 91/692/EEC. It provides a summary of the results of the 2012 survey of the quality of United Kingdom bathing waters included within the scope of the Bathing Water Directive.

Section 1: Changes from the 2011 list of designated bathing waters

Fourteen new bathing waters were designated in 2012, 12 in Wales and two in England:
England:

- Chapel Porth
- Whitsand Bay (Sharrow)

Wales:

- Abereidddy
- Abermawr
- Druidston Haven
- Freshwater West
- Little Haven
- Marine Lake, Rhyl
- Morfa Nefyn
- Nolton Haven
- Penally
- Porth Neigwl
- Sandy Haven
- Wisemans Bridge

Two bathing waters were dedesignated: Skinburness in England (North West region) and Cranfield (Nicholsons Strand) in Northern Ireland.

No results were recorded at Newhaven (South East region), where access was closed during the 2012 season. Blackpool North (North West region), which had been closed for engineering works since 2007, has re-opened this year.

The names of 13 bathing waters in England were amended in 2012:

New name from 2012	Previous name
Chapel St Leonards	Chapel St Leonard
Combesgate Beach, Woolacombe	Barricane Bay, Woolacombe

Cotswold Country Park and Beach	Cotswolds Water Park (Keynes Lake 32)
Ilfracombe Wildersmouth	Ilfracombe Capstone (Wildersmouth)
Lyme Regis Church Cliff Beach	Lyme Regis Church Beach
Lyme Regis Front Beach	Lyme Regis Cobb Beach
Maenporth	Maen Porth
Marske Sands	Sea at Marske Sands
Perranuthnoe	Perran Sands
Polurrian Cove	Pollurian Cove
Porthgwidden	Porth Gwidden
Portmellon	Port Mellon
Watergate Bay	Watergate

Section 2: Bathing season and sampling frequency

The bathing season is generally taken as being from 15 May to 30 September in England and Wales, and from 1 June to 15 September in Scotland and Northern Ireland. Throughout the UK a minimum of 20 samples are usually taken throughout the season. This is in excess of the minimum requirements of the Directive. One bathing water in England, Tunstall in the North East region, was sampled for a shorter period during 2012, between 3 July and 30 September, because of access problems during the early part of the season.

Sampling frequency has been reduced at eight Scottish bathing waters in accordance with footnote (1) of the Annex to the Directive.

We are in a transitional stage as the revised Directive, 2006/7/EC, supersedes Directive 76/160/EEC. Article 3(6) of Directive 2006/7/EC allows samples taken during short-term pollution, as defined in Article 2(8), to be disregarded. This provision has been introduced in Scotland at 23 designated sites where electronic signage displays daily water quality prediction. During the 2012 season, 12 samples were discounted at 10 of these sites. The samples had been taken on dates under predicted short-term pollution. Only one of the 12 samples resulted in a bathing water securing compliance; the other 11 discounted samples were single samples. Short-term pollution provisions have currently not been implemented in England, Wales or Northern Ireland.

Section 3: Parameters

During the transition period between now and 2014 the new Directive's parameters will be used to assess compliance with the standards set by the original Directive. Sampling for E.coli and intestinal enterococci will be used to assess compliance with the standards for faecal coliforms and faecal streptococci respectively. Sampling for total coliforms and for the physicochemical standards of Directive 76/160/EEC has been discontinued.

The tables contain a numerical summary of the information required to assess compliance with Directive 76/160/EEC's mandatory faecal coliform standards. They are arranged to show the British coastal bathing waters in clockwise order, starting at Southerness, which is the most south-westerly bathing water in Scotland, and proceeding around Scotland, England and Wales

to Silloth in the Environment Agency North West region. The Isle of Wight waters are placed in the report between Highcliffe and Christchurch, that is to say, as the last waters in the Environment Agency South East Region. The Northern Ireland waters are reported in clockwise order from Magilligan to Cranfield Bay. The summary of the information for freshwater bathing waters is given after the information about coastal bathing waters.

For each water, the following information is given:

1. The grid reference

E.coli

2. Number of results
3. Median of results
4. Range of results (minimum and maximum)
5. Number of results failing to conform to the Directive's limit values

Intestinal enterococci

6. Number of results
7. Median of results
8. Range of results (minimum and maximum)
9. Number of results failing to conform to the Directive's limit values

Article 3(7) of Directive 2006/7/EC came into force in 2012. This allows the monitoring calendar to be suspended in the event of an abnormal situation, which is defined as an event or combination of events impacting on bathing water quality at the location concerned and not expected to occur on average more than once every four years (Article 2(9)). Public information must be put in place to advise of the nature and expected duration of the incident.

There have been seven abnormal situations in England, affecting a total of 22 bathing waters, and two in Wales. Two bathing waters in North West region, Morecambe North and Morecambe South, were impacted by two separate abnormal situations.

Region	Date of incident	Bathing waters affected	Nature of incident
South East	4 – 12 June	Botany Bay (Broadstairs)	Pumping station failure
		Broadstairs (Stone Bay)	
		Broadstairs (Viking Bay)	
		Joss Bay (Broadstairs)	
		Margate Fulsam Rock	
		Margate The Bay	
		Minnis Bay (Birchington)	
		Ramsgate Sands	
		Ramsgate Western Undercliffe	
		Walpole Bay (Margate)	
		St Mildreds Bay (Westgate)	
		West Bay (Westgate)	
		Westbrook Bay (Margate)	

	12 – 25 June	Littlehampton	Localised flooding
	15 – 25 June	Felpham	Localised flooding
	3 - 7 September	Lancing, Beach Green	Sewage pump failure
		Southwick	
		Worthing	
South West	4 – 11 July	Hope Cove	Collapsed sewer
Wales	21-22 August	Aberystwyth South	Sewage discharge
	22-23 August	Noltan Haven	Sewage discharge
North West	1 – 5 May	Heysham Half Moon Bay	Pumping station failure
		Morecambe North	
		Morecambe South	
	30 Aug – 3 Sept	Morecambe North	Pumping station failure
		Morecambe South
