

Longitudinal Data Library

The aim of this document is to document all longitudinal surveys containing questions relevant to the DCMS sectors (culture, media and sport) saving people time when wanting to find out which data sources may include information relevant to them.

Information compiled in this spreadsheet was sourced from the ESDS Longitudinal website which includes questionnaires for the longitudinal studies, hence this list will be limited to those that have been listed on the website:

ESDS Longitudinal website

It is a working document, so please e-mail evidence@culture if you have any comments or details of longitudinal surveys you feel should be included.

email evidence@culture

Notes

- 1. If there is variable in the questionnaire relevant to the DCMS sector, it is indicated by a 'Y' in the column.
- e.g. If there is a 'Y' under the 'Television' column, it means that the questionnaire contains a question/questions relevant to the Television sector, e.g. how many hours of TV watched, or type of programmes watched.
- 2. In the 'Comments' column, for large questionnaires, I have added notes on which questionnaire/sections of the questionnaire the relevant questions were asked.
- 3. In compiling this list, some of the documentation and questionnaires were very long, so I used searches for variables relevant to our sectors, e.g. 'sport', 'culture'.
- 4. Geographic coverage is limited to United Kingdom or countries or areas with the United Kingdom. Europe and the rest of the world are excluded. I have concentrated on surveys including England and excluded Scotland only and Northern Ireland only studies.
- 5. Hint: To select just the survey(s) you are interested in, you can add a filter to Column B.
