

Commercial Designation List (UK)

List shown is the current version as it appears in the Fish Labelling Regulations 2010. The proposed additions to this list are set out in the consultation document.

1. Subject to paragraphs 2 and 3, the commercial designation for any species of fish specified in column 2 of the following Table shall be a name specified for that species in the corresponding entry in column 1.
2. A customary name may be used for any species of fish which has been subjected to smoking or any similar process, unless the name of the species in column 2 of the Table is followed by an asterisk. In such cases the name used for the food when the fish is smoked shall be a name specified for that species in column 1 of the said Table preceded by the word "smoked".
3. Paragraph 1, as read with the Table, shall not apply to fish regulated by Council Regulation (EEC) No 2136/89 laying down common marketing standards for preserved sardines and trade descriptions for preserved sardines and sardine-type products (13) (as amended by Commission Regulation (EC) No. 1181/2003(14) and Commission Regulation (EC) No. 1345/2008 (15)) or Council Regulation (EEC) No. 1536/92 laying down common marketing standards for preserved tuna and bonito(16).
