

## **Relationship between South East Regional Spatial Strategy and the South East Regional Economic Strategy**

The former South East Regional Economic Strategy (RES) and former Regional Spatial Strategy (RSS), known as the South East Plan now form the Regional Strategy for the South East of England. More information on the RES and RSS are presented in **Section 2.3** of the Environmental Report.

The following table maps the vision, targets, priorities, implementation priorities and growth areas of the former RES for the South East of England onto the policies of the former RSS for the South East of England.

The mapping demonstrates that the RES and RSS are inextricable linked and that the spatial expression of the RES ambitions (in other words, the physical effects of implementing the RES vision, targets and priorities) have been comprehensively assessed through the assessment of the environmental effects of the RSS policies against the requirements of the SEA Directive.

The comment column highlights the links to the assessment in **Appendix D**.

## Appendix H SEA of the Revocation of the South East Regional Strategy

**Table 1 Mapping of RES Vision, Targets and Priorities to RSS Policies: South East**

RES Headline Targets	RES Targets / Priorities	RES Actions / Results	RSS Policy No.	RSS Policy Title	Comments and coverage in SEA
<p>RES Vision:</p> <p><b>By 2016 the South East will be a world class region achieving sustainable prosperity</b></p> <p>Informing this vision are three values which run through the Strategy:</p> <ul style="list-style-type: none"> <li>• Building on excellence for global competitiveness</li> <li>• Investing in potential to lift underperformance</li> <li>• Safeguarding quality of life as a competitive advantage</li> </ul> <p>Three headline targets will be adopted. Progress towards all three of these will provide evidence of overall progress against the vision:</p> <ul style="list-style-type: none"> <li>• Achieve an average annual increase in GVA per capita of at least 3%</li> <li>• Increase productivity per worker by an average 2.4% annually, from £39,000 in 2005 to at least £50,000 by 2016 (in constant prices)</li> <li>• Reduce the rate of increase in the region's ecological footprint (from 6.3 global hectares per capita in 2003, currently increasing at 1.1% per capita per annum), stabilise it and seek to reduce it by 2016</li> </ul>			<p>RSS Vision :</p> <p>The vision of the South East Plan is as set out in the Regional Sustainability Framework, which is for</p> <p>A socially and economically strong, healthy and just South East that respects the limits of the global environment. Achieving this will require the active involvement of all individuals to deliver a society where everyone, including the most deprived, benefits from and contributes to a better quality of life. At the same time the impact of current high levels of resource use will be reduced and the quality of the environment will be maintained and enhanced.</p>		<p>The visions are intentionally complementary as they both seeks to ensure that the South East is a sustainable and that the region is competitive, through the headline targets in the RES and the vision of the RSS to reduce resource use.</p> <p>Both visions are then reflected through the key RSS policies on sustainable development, spatial strategy, job-growth, clusters, transport, housing, green infrastructure, biodiversity and natural heritage. These are assessed individually and on a cumulatively basis within Appendix D, E and in section 4 of the Environmental Report.</p>
<p><b>Global Competitiveness –</b></p> <p>investing in success through assisting more businesses to operate internationally and maximising the South East's share of foreign direct investment; increasing business expenditure on research and development, and encouraging greater collaboration with the region's</p>	<p><b>Global Competitiveness</b></p> <p>1 Global Businesses and Foreign Direct Investment. Increase the percentage of businesses located in the South East operating internationally from an estimated 10% in 2003 to 15% by 2016, maximising the South East's share of global Foreign Direct</p>	<p><b>Global Competitiveness</b></p> <p><b>1. Assist more businesses to operate internationally and maximise the South East's share of foreign direct investment</b></p> <p>1.1 Fully exploit the opportunities presented by the creation of a single regional team encompassing trade and</p>	<p>RSS Policy RE1</p> <p>RSS Policy RE2</p>	<p>Contributing to the UK's long term competitiveness</p> <p>Supporting nationally and regionally important sectors and clusters</p>	<p>The South East Plan seeks to make the South East more competitive and in doing so to contribute to the UK's long term competitiveness. This complements the approach in the RES which is seeking to increase GVA and productivity per worker as part of efforts to ensure the South East is globally competitive.</p> <p>South East Plan Policy RE1 requires Local Development Frameworks to</p>

		<p><b>Transforming the South East</b></p> <p><i>Raising economic activity rates</i> - The proposed target of 85% economic activity will bring a net additional 110,000 of these residents into employment by 2016, with a view to raising this number to 250,000 by 2026. SEEDA will work with partners to achieve this through a combination of:</p> <ul style="list-style-type: none"> <li>• Addressing barriers to employment and increasing incentives to work</li> <li>• Promoting self-employment and volunteering as forms of economic activity</li> <li>• Promoting the health and well-being benefits that flow from having a job</li> <li>• Improved access to skills to support progression, and to support including access to affordable child and dependent care and assistance with travel</li> </ul>			<p>The RSS directly reflects the RES aim of raising economic activity rates through Policy RE4 Human Resource deployment. Policy RE5 in relation to smart growth requires collaborative working with SEEDA. The coastal areas are specifically mentioned in this policy with a target to remove barriers to work and enhance skills levels. Together with efforts to improve public transport, which will in turn improve access to jobs and services there are significant efforts in the South East Plan to raise economic activity rates and mirror efforts in the RES.</p> <p>The positive effects of raising economic activity rates are reflected in the assessment of the retention of these policies as detailed in Appendix D. Appendix D also contains the assessment of revocation.</p>

		<p>the region is home to 21% of the UK's environmental research and development capacity. There is a major opportunity to develop this sector further using the 2012 Olympic Games and Paralympic Games, which are to be 'low carbon', as a catalyst.</p> <p>Key actions for the South East are to:</p> <ol style="list-style-type: none"> <li>1 Develop the skills necessary to support environmental technologies</li> <li>2 Increase collaboration between businesses and the region's environmental technologies knowledge base</li> <li>3 Develop technology validation programmes</li> <li>4 Invest in early stage environmental technologies and their commercialisation</li> <li>5 Target environmental technology enterprises around the world as potential inward investors</li> <li>6 Implement exchange programmes, scholarships, technology transfer and capability projects for developing countries</li> <li>7 Encourage businesses to develop sustainable procurement programmes</li> </ol>			<p>RE2 supports nationally and regionally important sectors and cluster's and policy RE4 seeks to ensure that skills provision meets business needs. This will help with regards to supporting environmental technologies</p> <p>The assessment of the retention of these policies in Appendix D. Appendix D also contains the assessment of revocation.</p> <p>The RES includes a transformational action of education led regeneration. This is reflected in policy S3 which requires Local Planning Authorities should ensure adequate provision of pre-school, school and community learning facilities. Policies need to advocate widening and deepening of participation through better understanding. Policy S4 requires collaborative working between Local Authorities, the Learning and Skills Council, the Higher Education Funding Council for England, SEEDA and the higher and further education sectors to ensure that these sectors' needs are addressed in local development frameworks.</p> <p>These policies will help make a significant positive contribution towards education led regeneration. This is further highlighted in the assessment of retention of these policies, with significant positive scores highlighted for population (see</p>

## Appendix H SEA of the Revocation of the South East Regional Strategy

RES Headline Targets	RES Targets / Priorities	RES Actions / Results	RSS Policy No.	RSS Policy Title	Comments and coverage in SEA
		<p><i>Education-Led Regeneration</i></p> <p>The Higher Education sector accounts for about 2% of the region's economy, and has a range of impacts on economic prosperity, including:</p> <ul style="list-style-type: none"> <li>• Providing higher skills for a competitive international knowledge economy</li> <li>• Raising aspirations, especially in more deprived areas</li> <li>• Generating a sense quality place based on increased creative human capital</li> <li>• Increasing innovation through support for business</li> <li>• Increasing enterprise through stimulating and mentoring start-ups</li> </ul> <p>Groundbreaking collaborations have already brought new skills opportunities to some of these areas. Multiversity projects such as Universities at Medway and University Centre Hastings demonstrate that the catalytic effect of Higher Education on regeneration is an essential part of the delivery of the vision of an enterprising, innovative and creative region.</p> <p>The Universities at Medway is</p>			<p>Appendix D).</p> <p>Whilst there are no specific universities mentioned in the RSS there is support for higher and further education with policy S4 requiring that the needs of those sectors are met. The collaborative working identified in this policy will help have positive effects on health and population (see Appendix D).</p>

## Appendix H SEA of the Revocation of the South East Regional Strategy

RES Headline Targets	RES Targets / Priorities	RES Actions / Results	RSS Policy No.	RSS Policy Title	Comments and coverage in SEA
		<p>a pioneering element of a growth and regeneration project involving three university partners and one Further Education partner, which will increase the numbers of Higher Education students at Medway by 3,300 full-time equivalents, generating an economic benefit to the region of £50 million annually, while the University Centre at Hastings is a core element of the Hastings and Bexhill Five Point Plan. In addition to growth on current campuses, new multiversity campuses will be considered in areas of need and of growth, for example Ashford, Folkestone, Milton Keynes and the Gatwick Diamond. Greater Further and Higher Education partnership in multiversity developments will encourage greater strategic alignment of the £1.4 billion Regional Learning and Skills Councils capital strategy with Higher Education developments, and will facilitate Further – Higher Education progression.</p> <p><i>Making the most of 2012</i></p> <p>The 2012 Olympic Games</p>			

## Appendix H SEA of the Revocation of the South East Regional Strategy

RES Headline Targets	RES Targets / Priorities	RES Actions / Results	RSS Policy No.	RSS Policy Title	Comments and coverage in SEA
		<p>and Paralympic Games offer huge opportunities for the region's economy.</p> <p>SEEDA and Sport England South East are working with the other cultural agencies and key partners in the region to engineer and co-ordinate the 'South East offer', ensuring the opportunities presented by the 2012 Games are maximised for the region. The offer comprises three main themes:</p> <p>1 Opportunities that are central to The Games – by capturing the 'Olympic Values' by stimulating greater participation and engagement, showcasing the South East as a world class region and enhancing regional infrastructure or quality of destination for visitors and residents alike.</p> <p>2 Opportunities that also have a longer term resonance - the 2012 Olympic Games and Paralympic Games will be 'low carbon'. Given the energy consumption arising from the comprehensive construction programme which precedes them, the necessity for people to fly into the Greater South East for The Games themselves the requirement for compensatory savings</p>

	<p>stage contributing up to an additional £30 billion GVA to the UK economy by 2021, and targets have been set for the development of 120,000 new homes and up to 180,000 new jobs by 2016.</p> <p>2. Thames Gateway Kent forms a major part of the Thames Gateway, and its regeneration will have a major impact on the overall economic performance of the South East.</p> <p>Transport infrastructure and connectivity – the development of the CTRL and the opening of the international rail station at Ebbsfleet in 2007 (domestic rail services starting from 2009) is key to the development of the new major office and business centre at Ebbsfleet, with a focus on public transport.</p> <ul style="list-style-type: none"> <li>• Large supply of brownfield development sites - the area has the largest supply of brownfield sites in the South East which offer a unique opportunity for the sustainable development of both housing and employment opportunities</li> </ul> <p>3. Ashford is a strategic location as a gateway to</p>	<p>East and its neighbours.</p> <p>2. Knowledge intensive and high growth sectors – attracting new employers in more productive employment sectors, stimulating innovation and encouraging entrepreneurship will help raise productivity</p> <ul style="list-style-type: none"> <li>• High quality buildings and a green environment – there is a strong commitment towards high quality buildings and creating attractive environments along the Gateway</li> <li>• Sustainable communities – it is recognised that the social, cultural, economic and environmental needs of both new and existing communities have to be addressed equally to ensure the development of stable and sustainable communities</li> <li>• Skills-led growth – skill levels will need to be raised to both attract new higher value added employers into the area and to ensure that existing residents can take advantage of the economic benefits of regeneration.</li> <li>• 2012 Olympic Games and Paralympic Games – the close proximity to Stratford and with the introduction of CTRL international and</li> </ul>	<p>RSS Policy RE6</p> <p>RSS Policy SP1</p> <p>RSS Policy SP2</p> <p>RSS Policy S3</p> <p>RSS Policy S4</p> <p>RSS Policy T1</p> <p>RSS Policy T2</p> <p>RSS Policy T6</p>	<p>development</p> <p>Competitiveness and addressing structural economic weakness</p> <p>Sub-regions in the South East</p> <p>Regional Hubs</p> <p>Education and Skills</p> <p>Higher and Further education</p> <p>Manage and Invest</p> <p>Mobility Management</p> <p>Communications technology</p>	<p>regions of East Kent and Ashford; Kent Thames Gateway; South Hampshire; Sussex Coast; and the Isle of Wight.</p> <p>Policies T1, T2, T6 and T8, and T10-14 will help with regeneration by encouraging a modal shift in transport and use of more sustainable forms of transport. Public transport improvements will help to improve access to jobs and services and encourage growth in the South East. This will particularly help with the regeneration of the Thames Gateway.</p> <p>RSS policies KTG1-7 seek to bring about the regeneration of the Kent Thames Gateway. Policy KTG1 directly references the RES priorities re transport infrastructure as it requires major development to be located such that it exploits the potential of regional hubs at Ebbsfleet and Medway Towns and locations served by channel tunnel rail link.</p> <p>The emphasis through policy KTG1 on economic development, increased standards of skills and education in the workforce and an increased supply of new housing, including affordable housing will have a significant positive impact on the population and economy, as demonstrated in the assessment of the effects of retention of this policy in Appendix D.</p>

Appendix H SEA of the Revocation of the South East Regional Strategy

RES Headline Targets	RES Targets / Priorities	RES Actions / Results	RSS Policy No.	RSS Policy Title	Comments and coverage in SEA
	<p>Europe. This function will be strengthened with completion of the high-speed rail link to London in 2007 and CTRL domestic services in 2009, which will see dramatic improvements in travel times to the capital. Ashford has the potential to accommodate 31,000 homes and 28,000 jobs by 2031, doubling the size of the existing town. Through a co-ordinated partnership approach there will be a focus on developing the town centre's commercial 'offer' around a sustainable development model, linking to a number of new mixed-use district centres and village communities, which will see Ashford grow as a place to live and do business.</p> <p>4. Milton Keynes and Aylesbury Vale form part of the Milton Keynes South Midlands Growth Area. Aylesbury Vale is required to accommodate 18,300 additional homes and at least 12,690 net additional jobs by 2021. It has been identified that Milton Keynes has the potential to provide almost 70,000 additional homes in the period up to 2031, supported by the</p>	<p>domestic rail services between Ebbsfleet and Stratford with journey times of approximately eight minutes, means that the Games has the potential to be a major driver for regeneration in North Kent.</p> <p>3. Maximising the potential of the Channel Tunnel Rail Link will be essential to the successful growth of Ashford. It will also be vitally important to increase the capacity in the two junctions of the M20 that serve the town. This is especially true of Junction 10, which will serve the new urban villages to the South of Ashford town centre and key employment areas that are critical to the delivery of the 28,000 additional jobs. The vision for Ashford identifies its need to become a strong, self-sustaining and growing town, recognised as a world class exemplar location. It will combine an environment rich in resources with a technologically enabled, knowledge based learning economy, recognised for the excellence of its physical, cultural, economic and digital connectivity with its surrounding region, London, the UK, Europe and the wider</p>	<p>Policy T8</p> <p>RSS Policy T10</p> <p>RSS Policy T11</p> <p>RSS Policy T12</p> <p>RSS Policy T13</p> <p>RSS Policy T14</p> <p>RSS Policies KTG1-7</p> <p>RSS Policies MKAV1-4</p>	<p>Regional Spokes</p> <p>Ports and Short Sea Shipping</p> <p>Rail Freight</p> <p>Freight and site safeguarding</p> <p>Intermodal interchanges</p> <p>Transport investment and management priorities</p> <p>Kent Thames Gateway</p> <p>Milton Keynes and Aylesbury Vale</p>	<p>One of the other growth areas identified in the RSS is Milton Keynes and Ashbury Vale. The overarching economic and transport policies will help with the growth of this area. In regards to the specific priorities outlined for this growth area in relation to housing and jobs, there are over 26,000 new homes provided for Aylesbury through policy MKAV1 and over 41,000 new homes for Milton Keynes. The numbers for Aylesbury Vale exceed the RES target and the figures for Milton Keynes go along way towards the potential target of 70,000 new homes.</p> <p>For jobs, the RSS provides for over 21,000 new jobs in Aylesbury Vale, comfortably exceeding the RES requirement for a minimum of 12,600</p>

Appendix H SEA of the Revocation of the South East Regional Strategy

RES Headline Targets	RES Targets / Priorities	RES Actions / Results	RSS Policy No.	RSS Policy Title	Comments and coverage in SEA
	<p>generation of at least 100,000 additional jobs. This will result in the population of Milton Keynes growing to over 300,000 (the current size of Cardiff). The need to improve the accessibility of Aylesbury to enable growth is recognised, and in particular its connectivity to Milton Keynes, alongside major improvements to the functioning of the town centre.</p>	<p>world. The objective of the Ashford's Future partnership is to strengthen Ashford's economic vitality, providing a sustainable community with jobs as well as houses. This will be achieved through establishing an attractive and unique inward investment offer, as well as supporting enterprise and innovation in existing local companies to provide a balanced sustainable economy for the future.</p> <p>4. Improving the climate for investment - by influencing and lobbying on infrastructure, promoting new investment and retaining existing investors, promoting sustainable development and regeneration and influencing ICT infrastructure.</p> <ul style="list-style-type: none"> <li>• Stimulating an entrepreneurial and innovative economy – by supporting and promoting the concept of the Oxford to Cambridge Arc, supporting the creation of a network of innovation and incubation centres across MKSM, providing enhanced business support and supporting business to business collaboration in key clusters and sectors.</li> </ul>			<p>new jobs. The RES sets out the requirement for 100,000 additional jobs in Milton Keynes, whilst the RSS provides for an increase in employment of 44,350 jobs in the period 2006 to 2026 through policy MKAV2.</p> <p>The RSS states in Paragraph 22.10 that at Bicester every opportunity should be taken to promote the town, <i>inter alia</i>, as a new location for higher value and knowledge-based business, separately or in association with the Oxford to Cambridge Arc initiative. This is further considered in the assessment of policy CO2 regarding Oxford's economy, as can be found in Appendix D. This also contains the assessment of effects of revocation.</p>

## Appendix H SEA of the Revocation of the South East Regional Strategy

RES Headline Targets	RES Targets / Priorities	RES Actions / Results	RSS Policy No.	RSS Policy Title	Comments and coverage in SEA
		<ul style="list-style-type: none"> <li>• Ensuring learning and skills provision responds to population and business demands - by acting upon the skills implications of the growth strategy, developing the Higher Education Institutions (HEI) provision, strengthening the links between education and business and enabling improved access to employment for the disadvantaged.</li> </ul> <p>The key future transport priorities for Milton Keynes and Aylesbury Vale will be to progress the East West rail link, and improve road links between Milton Keynes and Aylesbury by linking the A41 and the A418 and to complete as rapidly as possible the improvement of the A418.</p> <p>Ensuring skills-driven growth, enhancing workforce skills to attract knowledge driven industries, ensuring a supply of high level skills to service those leading edge firms which are already in place, and improving locally accessible higher education opportunities are essential factors in all Growth Areas.</p>			<p>The East-West rail link, new park and ride facilities, measures to resolve east-west traffic problems across the southern half of Milton Keynes, and measures to address traffic problems are all identified in policy MKAV2, which mirrors what is identified in the RES. The impacts of these transport issues are picked up in the assessment of retention of this policy which can be found in Appendix D with positive impacts on population and human health and also some uncertain impacts on environmental factors. Appendix D also contains assessment of effects of revocation of this policy.</p>

## Appendix H SEA of the Revocation of the South East Regional Strategy

RES Headline Targets	RES Targets / Priorities	RES Actions / Results	RSS Policy No.	RSS Policy Title	Comments and coverage in SEA
<p><b>Mapping the South East Economy</b></p> <p><i>Cities and Towns in the South East</i></p> <p>The Regional Economic Strategy will support these Hubs and Diamonds in developing and implementing their plans.</p>	<p><b>Mapping the South East Economy</b></p> <p><i>Cities and Towns in the South East</i></p> <p>Given the sustainability argument that housing growth should be closely allied to employment growth, it makes sense that the existing centres of economic activity should provide a focus for accommodating sustainable growth supported by appropriate and timely investment in infrastructure.</p>	<p><b>Mapping the South East Economy</b></p> <p><i>Cities and Towns in the South East</i></p> <p>The draft South East Plan identifies 21 Regional Hubs as centres of economic activity and transport services, 16 of which lie beyond designated Growth Areas:</p> <p>Ashford Aylesbury Basingstoke Brighton &amp; Hove Canterbury Crawley/Gatwick Ebbsfleet Guildford Hastings High Wycombe Maidstone Medway Milton Keynes Oxford Portsmouth Reading Reigate/Redhill Slough Southampton Tonbridge/Tunbridge Wells Woking</p> <p>The Regional Economic Strategy will support these Hubs and Diamonds in developing and implementing</p>	<p>RSS Policy RE2</p> <p>RSS Policy RE3</p> <p>RSS Policy RE4</p> <p>RSS Policy RE6</p> <p>RSS Policy SP1</p> <p>RSS Policy SP2</p> <p>RSS Policy S3</p> <p>RSS Policy S4</p>	<p>Supporting nationally and regionally important sectors and clusters</p> <p>Employment and land provision</p> <p>Human resource development</p> <p>Competitiveness and addressing structural economic weakness</p> <p>Sub-regions in the South East</p> <p>Regional Hubs</p> <p>Education and Skills</p>	<p>The RES supports the focus of accommodating sustainable growth at the existing centres of economic activity. This focus is reinforced in the South East Plan through policy RE2, which provides support to regionally and nationally important sectors and clusters and policy RE3 in relation to employment land. This requires that employment land should be located accessible to the existing and proposed labour supply.</p> <p>Policy RE6 seeks to address structural economic weakness in the South East, which includes focusing economic development in the coastal area, which will provide further support to the regional hubs.</p> <p>The positive effects of sustainable economic growth on the population and health of the population can be seen in the assessment of the retention of the economic policies, as detailed in Appendix D.</p> <p>The overall location strategy in the South East Plan identifies sub-regions which are focus for growth and regeneration. There is support for regional hubs in Policy SP2, which aligns with the RES priority. There are wider environmental benefits from focusing development on existing regional hubs, as shown in the assessment of the retention of policy SP1 and also partly for policy SP2, as</p>
