

## LLW Repository Ltd Environment, Health, Safety and Quality Policy

***We believe that nothing is more important than the protection of the environment and the health and safety of the workforce, contractors and the public. We are committed to delivering high quality goods & services to our customers and will achieve this through setting robust objectives, continuous improvement, and exceeding customer expectations wherever possible***

LLWR commits to

We will achieve this by:

Striving to achieve zero harm to people and minimal impact to the environment through our operations.

Carefully planning work, identifying and managing any environmental, radiological or conventional safety hazards associated with our operations in order to minimise actual risk.

Maintaining excellent nuclear safety standards at all times. Ensuring proper control, containment and management of our nuclear material

Ensuring personnel in roles which affect safety are well trained and that plant & infrastructure are effectively maintained

Building and maintaining the confidence and satisfaction of all our customers.  
Maintaining our arrangements and compliance with all legal and regulatory requirements, and ISO 14001, 9001 and 45001, as a minimum.

Operating simple and effective EHS&Q management systems that align to our strategic direction and conforms to ISO 14001, 9001 and 45001 by undertaking regular assurance activities at planned intervals

Continuing to improve our quality and environmental performance

Setting and achieving targets to prevent pollution, removing historical impacts, reducing waste disposal & minimising the use of natural resources. Ensuring EHS&Q objectives are set annually, and an EHS&Q improvement plan is in place to ensure deficiencies are addressed and improvements recognised

Providing clear and uncompromising leadership that constantly and actively promotes strong EHS&Q standards

Communicating LLWR Standards and Expectations to all site personnel, Contractors and Suppliers and ensuring sufficient trained and SQEP personnel are in place to maintain these standards

Promoting the occupational health and wellbeing of our staff.

Regularly monitoring occupational health and providing support, information and encouragement to personnel.

Learning from our experience, and the experiences of others, for the benefit of all.

Sharing our best practice and learning from events with others. Actively utilising the learning from others and managing knowledge retention. Ensuring that end of year reviews are conducted and our EHS&Q plan is relevant and deliverable

Encouraging our people to work in partnership, be accountable, questioning and challenging with each other.

Maintaining a culture that encourages the free and honest reporting of EHS&Q issues, recognising individual responsibilities and listening to, consulting with and responding to our customers, employees, contractors and stakeholders.
